Extraordinary Measures Disability In Music:

Extraordinary Measures Joseph N. Straus, 2011-03-24 *Extraordinary Measures* studies the impact of disability and concepts of disability on composers performers and listeners with disabilities as well as on discourse about music and works of music themselves It shows that music its composers performers listeners critical traditions and exemplary works both embodies and constructs disability

Extraordinary Measures Joseph N. Straus, 2011-03-24 Approaching disability as a cultural construction rather than a medical pathology this book studies the impact of disability and concepts of disability on composers performers and listeners with disabilities as well as on discourse about music and works of music themselves For composers with disabilities like Beethoven Delius and Schumann awareness of the disability sharply inflects critical reception For performers with disabilities such as Itzhak Perlman and Evelyn Glennie the performance of disability and the performance of music are deeply intertwined For listeners with disabilities extraordinary bodies and minds may give rise to new ways of making sense of music In the stories that people tell about music and in the stories that music itself tells disability has long played a central but unrecognized role Some of these stories are narratives of overcoming the triumph of the human spirit over adversity but others are more nuanced tales of accommodation and acceptance of life with a non normative body or mind In all of these ways music both reflects and constructs disability

The Oxford Handbook of Music and Disability Studies Blake Howe, Stephanie Jensen-Moulton, Neil William Lerner, Joseph Nathan Straus, 2016 Like race gender and sexuality disability is a social and cultural construction Music musicians and music making simultaneously embody and shape representations and narratives of disability Disability culturally stigmatized minds and bodies is one of the things that music in all times and places can be said to be about

Dreams of Love Ivan Raykoff, 2014 *Dreams of Love* pursues a wide ranging interdisciplinary approach to understanding the concert pianist as a Romantic and seductive even erotic figure in the popular imagination focusing on the role of technology in perpetuating this mythology over the past two centuries through the touch sights and sounds of the pianist s playing

Disability and Popular Culture Katie Ellis, 2016-05-23 As a response to real or imagined subordination popular culture reflects the everyday experience of ordinary people and has the capacity to subvert the hegemonic order Drawing on central theoretical approaches in the field of critical disability studies this book examines disability across a number of internationally recognised texts and objects from popular culture including film television magazines and advertising campaigns children s toys music videos sport and online spaces to attend to the social and cultural construction of disability While acknowledging that disability features in popular culture in ways that reinforce stereotypes and stigmatise *Disability and Popular Culture* celebrates and complicates the increasing visibility of disability in popular culture showing how popular culture can focus passion create community and express defiance in the context of disability and social change Covering a broad range of concerns that lie at the intersection of disability and cultural studies including media representation identity the beauty myth aesthetics ableism new media and

sport this book will appeal to scholars and students interested in the critical analysis of popular culture across disciplines such as disability studies sociology and cultural and media studies

Manifestos for the Future of Critical Disability Studies Katie Ellis, Rosemarie Garland-Thomson, Mike Kent, Rachel Robertson, 2018-10-03 This collection identifies the key tensions and conflicts being debated within the field of critical disability studies and provides both an outline of the field in its current form and offers manifestos for its future direction Traversing a number of disciplines from science and technology studies to maternal studies the collection offers a transdisciplinary vision for the future of critical disability studies Some common thematic concerns emerge across the book such as digital futures the usefulness of anger creativity family as disability allies intersectionality ethics eugenics accessibility and interdisciplinarity However the contributors who write as either disabled people or allies do not proceed from a singular approach to disability often reflecting different or even opposing positions on these issues Containing contributions from established and new voices in disability studies outlining their own manifesto for the future of the field this book will be of interest to all scholars and students working within the fields of disability studies cultural studies sociology law history and education The concerns introduced here are further explored in its sister volume Interdisciplinary approaches to disability looking towards the future
