Christian Responses to Five Views of the Bhagavad Gita Tom Wilson, 2021-08-06 Of all the Hindu Scriptures the Bhagavad Gita is the most widely read by Western audiences Its brevity belies its complexity as with all sacred texts the only way to fully understand its teaching is to learn from those who live out a faith based on that text This book examines five different readings of the Bhagavad Gita juxtaposing these readings with a Western Protestant Christian response to both the text and the ideas and theology that lie beneath the surface of the text Written for students and practitioners of interfaith dialogue it is a resource to enable richer and deeper conversations between Hindus and Christians

Judd,James N. Judd Ms. D D.D.,1999-11-03 Within the human system there are certain archetypes centers or vortexes of energy As this energy or power exists at a different level than our conscious awareness it remains essentially dormant with most people but when activated usually through meditation this force has a most profound influence upon our psychological spiritual and physical nature As this inner subtle energy plays such a vital role in our overall being there is much to be gained from understanding this force and how to benefit from its power This information can be found in the ancient spiritual teachings of the Jewish Kabbala and the Hindu Kundalini Yoga but the complexity of these teachings particularly with Kabbala makes it difficult to find useful answers as to how this inner power can be utilized In The Green Serpent and the Tree Dr Judd cuts through the confusing terminology of these teachings and in an easy to read style using practical examples and illustrations logically explains The inner nature of man and structure of the soul How Kabbala and Kundalini Yoga can be reconciled and how they augment each other The difference between the symbols of The Tree of Life and The Tree of the Knowledge of Good and Evil Why the seven inner centers Chakras of Kundalini Yoga are the same as the ten centers Sefirot of Kabbala The significance of the Green Serpent Kundalini and the functions of the various channels that connect the inner centers The different centers with a detailed description of their psychological and spiritual influence Relationship of meditation with releasing the power from the inner centers The practical value of meditation its four stages and the physical psychological psychic and spiritual effects The risks involved in releasing these inner powers and how to avoid them The reason for the inter relationship between Kabbala and Kundalini Yoga and their original source Although this book is written in an explanatory style which guides the layman through the intricacies of these two teachings as they relate to our inner powers the material content contains much that will interest the more advanced student Based upon thorough research Dr Judd outlines in logical steps why The Tree symbol that is frequently referred to as the Tree of Life is misnamed Any attempt to reconcile the Chakras with the Sefirot using the wrong Tree symbol will lead to inaccurate conclusions The position of the Sefirot changes depending upon which Tree symbol is used There are three central channels that connect the Chakras rather than the one that is usually shown and Kabbala supports this fact This explains the different levels of power released from the same Chakra Why some of the practices used to open the Chakras involve considerable risks Anyone who wishes to expand their knowledge of Kabbala

explained Combines the paradigm shift in biology initiated by Maturana and Varela with the recent rush of ideas in social neuroscience to create what hopes to be a refreshingly new explanation of the way our mind works in our everyday experience and reveals the most common blind spots in what we thought we knew about our mind These blind spots are spoiling our individual lives and harming our prospects for peaceful coexistence and care of our environment e g the mistaken ideas that meaning is transferable that decisions come from conscious awareness or that knowledge is a commodity The biological significance of love and the value of embracing uncertainty and respecting the unknown point to a very hopeful vision for our future This is a scientific explanation of mind leavened with process philosophy also invoking spirituality without any religious connotation
