Contemporary Moral Issues Lawrence M. Hinman,2016-07-01 Contemporary Moral Issues is an anthology that provides a selection of readings on contemporary social issues revolving around three general themes Matters of Life and Death Matters of Equality and Diversity and Expanding the Circle which includes duties beyond borders living together with animals and environmental ethics The text contains a number of distinctive high profile readings and powerful narratives including Jonathan Foer s *Eating Animals* Eva Feder Kittay s *On the Ethics of Selective Abortion for Disability* and Susan M Wolf s *Confronting Assisted Suicide and Euthanasia My Father s Death* Each set of readings is accompanied by an extensive introduction a bibliographical essay pre reading questions and discussion questions *The Tragedy of Common Sense* John P. Clark,2016-08-01 Introduction by Salvatore Engel Di Mauro Foreword by Ariel Salleh This book takes as its object of critique one of the best known and most influential arguments in contemporary applied ethics which is biologist Garrett Hardin s case for lifeboat ethics John Clark analyzes the moral dimensions of world hunger foreign aid immigration policy and population growth Clark critiques the lifeboat ethics as a way to explore in depth both the common and the commons It is about the truth we hold in common and about certain falsehoods that we hold in common This book also contains Garrett Hardin s 1974 essay *Living on a Lifeboat* **Morals and Consent** Malcolm Murray,2017-09-27 How are we meant to behave And how are we to defend whatever answer we give *Morals and Consent* grounds our notion of morality in natural evolution and from that basis Malcolm Murray shows why contractarianism is a far more viable moral theory than is widely believed The scope of *Morals and Consent* has two main parts theory and application In his discussion of theory Murray

defends contractarianism by appealing to evolutionary game theory and metaethical analyses His main argument is that we are not going to find morality as an objective fact in the world and that instead we can understand morality as a reciprocal cooperative trait From this minimal moral architecture Murray derives his innovative consent principle The application of the theory detailing what contractarians can or ought to say about moral matters takes up the greater portion of the work Murray offers a trenchant examination of what moral constraints we can claim concerning death abortion euthanasia and capital punishment sex pornography prostitution and sexual assault beneficence toward present and future people animals and the environment and liberty genetic enhancement organ sales and torture By focusing on evolutionary contractarianism and the epistemic justification of our moral claims or lack thereof Malcolm Murray's *Morals and Consent* is a serious advance in the field of applied ethics and fills an important void

The Ontological Foundation of Ethics, Politics, and Law Francesco Belfiore, 2013-03-25 The revised edition of *The Ontological Foundation of Ethics Politics and Law* adds new concepts and discusses the views of additional thinkers The author refers to his basic ontological conception of the human mind or spirit as an evolving conscious triadic entity composed of intellect sensitivity and power each exerting a bidirectional selfish and moral activity Through this approach the notions of good morality society and law are derived from the structure and functioning of the mind It follows that the solutions presented are the results of a discovery and not the consequence of a choice Otherwise stated ethics politics and law are given an ontological foundation For each topic considered Belfiore shows how his thought can reinterpret the views of other philosophers This new edition enriched in concepts and quotations appears as an innovative and highly stimulating contribution to the philosophical branches of ethics politics and law and will be of interest to both graduate students and philosophy scholars

Why We Kill Nancy Loucks, Sally Smith Holt, Joanna R. Adler, 2013-01-11 Infanticide serial killings war terrorism abortion honour killings euthanasia suicide bombings and genocide all involve taking of life Put most simply all involve killing one or more other people Yet cultural context influences heavily how one perceives all of these and indeed some readers of this paragraph may already have thought But surely that doesn't belong with those others that's not really killing *Why We Kill* examines violence in many of its manifestations exploring how culture plays a role in people's understanding of violent action From the first chapter which tries to understand multiple forms of domestic

homicide including infanticide filicide spousal homicide and honour killings to the final chapter's bone chilling account of the massacre at Murambi in Rwanda this fascinating book makes compelling reading

Moral Respect, Objectification, and Health Care Meredith Celene Schwartz, 2019-04-30 This book fills an important gap in existing health care ethics literature by describing an egalitarian conception of moral respect which applies to autonomous and non autonomous patients alike It reframes questions about respect from its target to the role that respect plays in our moral lives Taking into account various forms of objectification it suggests that the unique role of moral respect is to recognize a person as more than a mere object to recognize them as an equally intrinsically valuable being who possesses dignity Further the book argues that respect is central to health care because medicine and experiences of illness are both inherently objectifying Objectification is sometimes morally permissible and other times morally troubling a context of respect can help to distinguish between these situations Because we can reduce others to mere objects in ways other than violating or denying their autonomy the approach presented here can also accommodate non autonomous patients directly without considering them as marginal cases
