Handbook of Universal Grammar Ian G. Roberts, 2017 This handbook provides a critical guide to the most central proposition in modern linguistics the notion generally known as Universal Grammar that a universal set of structural principles underlies the grammatical diversity of the world's languages Part I considers the implications of Universal Grammar for philosophy of mind and the philosophy of language and examines the history of the theory Part II focuses on linguistic theory looking at topics such as explanatory adequacy and how phonology and semantics fit into Universal Grammar Parts III and IV look respectively at the insights derived from UG inspired research on language acquisition and at comparative syntax and language typology while part V considers the evidence for Universal Grammar in phenomena such as creoles language pathology and sign language The book will be a vital reference for linguists philosophers and cognitive scientists *Patterns In The Mind* Ray S Jackendoff, 2008-08-04 What is it about the human mind that accounts for the fact

that we can speak and understand a language Why can't other creatures do the same And what does this tell us about the rest of human abilities Recent dramatic discoveries in linguistics and psychology provide intriguing answers to these age old mysteries In this fascinating book Ray Jackendoff emphasizes the grammatical commonalities across languages both spoken and signed and discusses the implications for our understanding of language acquisition and loss Universal Grammar and the Second Language Classroom Melinda Whong, Kook-Hee Gil, Heather Marsden, 2013-06-26 This book proposes that research into generative second language acquisition GenSLA can be applied to the language classroom Assuming that Universal Grammar plays a role in second language development it explores generalisations from GenSLA research The book

aims to build bridges between the fields of generative second language acquisition applied linguistics and language teaching and it shows how GenSLA is poised to engage with researchers of second language learning outside the generative paradigm Each chapter of *Universal Grammar and the Second Language Classroom* showcases ways in which GenSLA research can inform language pedagogy Some chapters include classroom research that tests the effectiveness of teaching particular linguistic phenomena Others review existing research findings discussing how these findings are useful for language pedagogy All chapters show how generative linguistics can enhance teachers expertise in language and second language development This groundbreaking volume ably takes on the gap that currently exists between generative linguistic theory in second language acquisition GenSLA and second language pedagogy by gathering chapters from GenSLA researchers who are interested in the relevance and potential application of their research to second foreign language teaching It offers a welcome and thought provoking contribution to any discussion of the relation between linguistic theory and practice I recommend it not only for language teachers interested in deepening their understanding of the formal properties of the languages they teach but also for linguists interested in following up on more practical consequences of the fruits of their theoretical and empirical research Donna Lardiere Georgetown University Washington DC USA **Moral Talk** Joe

Spencer-Bennett,2018-05-01 This book is about moral talk in contemporary British political discourse drawing on speeches debates and radio phone ins Using a critical sociolinguistic approach Spencer Bennett explores the language people use to communicate moral judgement and highlights the relations between the things that people say the contexts in which they are said and the circulating ideologies about meaning and morality This is key reading for students and scholars studying language politics and critical discourse analysis within linguistics and anthropology *American Linguistics in Transition*

Frederick J. Newmeyer,2022-06-16 This volume is devoted to a major chapter in the history of linguistics in the United States the period from the 1930s to the 1980s and focuses primarily on the transition from post Bloomfieldian structural linguistics to early generative grammar The first three chapters in the book discuss the rise of structuralism in the 1930s the interplay between American and European structuralism and the publication of Joos s *Readings in Linguistics* in 1957 Later chapters explore the beginnings of generative grammar and the reaction to it from structural linguists how generativists made their ideas more widely known the response to generativism in Europe and the resistance to the new theory by leading structuralists which continued into the 1980s The final chapter demonstrates that contrary to what has often been claimed generative grammarians were not in fact organizationally dominant in the field in the United States in the 1970s and 1980s

Studies in Nigerian Linguistics Ndimele, Ozo-mekuri,2016-09-13 *Studies in Nigerian Linguistics* is a compilation of research papers on topical issues in Nigerian languages and linguistics covering three main areas of research viz Language and Society Applied Linguistics and Formal Linguistics The papers in this volume are sectioned as such even though there are bits of overlapping especially for some of the papers contained in the first and second sections The first fifteen 15 papers

focus on the major theme of Language and Society in Nigeria Many of the papers in this section address some peculiar sociolinguistic issues that affect the nation including the nagging and lingering problem regarding the language question for the Nigerian nation even after five decades of the attainment of Political Independence language and national development and language varieties Section 2 contains papers in Applied Linguistics in its narrow and extended senses There are papers on language teaching and learning interference and intraference phenomena language engineering with focus on codification communication disorders and much more The third section contains sixteen 16 papers in the core areas of linguistics including phonology morphology and syntax of Nigerian languages Some of the papers address aspects of the phonological and morphosyntactic processes of deletion affixation cliticisation causativisation complementation serialisation agreement and much more The phrasal structure and pronominal systems of some languages were also discussed

Knowledge of Reflexives in a Second Language Margaret Ann Thomas,1993-01-01 This study addresses the debate about whether adult language learners have access to the principles and parameters of universal grammar in constructing the grammar of a second language The data are based on two related experiments The first examines the interpretation of English reflexive pronouns by native speakers of Japanese and of Spanish The second experiment examines the interpretation of the Japanese reflexive zibun by native speakers of English and of Chinese Three hypotheses are evaluated a that UG is unavailable and that processing strategies or other non linguistic principles guide second language acquisition b that UG is available only in the form in which it is instantiated in the learner s native language c that UG is fully available including the ability to re set parameters to UG sanctioned values not instantiated in the learner s native language The results show that learners observe constraints defined by Manzini and Wexler s parameterized version of Principle A of the binding theory and support the proposal that adult learners have access to universal grammar A final chapter reviews the experimental data in the light of recent accounts of cross linguistic variation in the grammar of anaphors which reject parameterization of the binding principles in favor of a movement to INFL analysis

African linguistics on the prairie Jason Kandybowicz,Travis Major,Harold Torrence,Philip T. Duncan,2018-06-15 African Linguistics on the Prairie features select revised peer reviewed papers from the 45th Annual Conference on African Linguistics held at the University of Kansas The articles in this volume reflect the enormous diversity of African languages as they focus on languages from all of the major African language phyla The articles here also reflect the many different research perspectives that frame the work of linguists in the Association for Contemporary African Linguistics The diversity of views presented in this volume are thus indicative of the vitality of current African linguistics research The work presented in this volume represents both descriptive and theoretical methodologies and covers fields ranging from phonetics phonology morphology typology syntax and semantics to sociolinguistics discourse analysis language acquisition computational linguistics and beyond This broad scope and the quality of the articles contained within holds out the promise of continued advancement in linguistic research on African languages

Case, Typology and

Grammar Anna Siewierska, Jae Jung Song, 1998-05-15 The present volume is a collection of fifteen original articles that include descriptive typological and or theoretical studies of a number of morphosyntactic phenomena such as case transitivity grammaticalization valency alternations etc in a variety of languages or language groups and discussions concerning theoretical issues in specific grammatical frameworks The collection written in honor of the Australian linguist Barry J Blake on his 60th birthday thematically reflects the field that Professor Blake has worked in over the past three decades The volume will be of special interest to researchers in morphosyntax and linguistic typology In addition scholars in discourse grammar historical linguistics theoretical syntax semantics language acquisition and language contact will find articles of interest in the book

The Jiankang Empire in Chinese and World History Andrew Chittick, 2020-02-28 This work offers a sweeping re assessment of the Jiankang Empire 3rd 6th centuries CE known as the Chinese Southern Dynasties It shows how although one of the medieval world s largest empires Jiankang has been rendered politically invisible by the standard narrative of Chinese nationalist history and proposes a new framework and terminology for writing about medieval East Asia The book pays particular attention to the problem of ethnic identification rejecting the idea of ethnic Chinese and delineating several other more useful ethnographic categories using case studies in agriculture foodways and vernacular languages The most important the Wuren of the lower Yangzi region were believed to be inherently different from the peoples of the Central Plains and the rest of the book addresses the extent of their ethnogenesis in the medieval era It assesses the political culture of the Jiankang Empire emphasizing military strategy institutional cultures and political economy showing how it differed from Central Plains based empires while having significant similarities to Southeast Asian regimes It then explores how the Jiankang monarchs deployed three distinct repertoires of political legitimation vernacular Sinitic universalist and Buddhist arguing that the Sinitic repertoire was largely eclipsed in the sixth century rendering the regime yet more similar to neighboring South Seas states The conclusion points out how the research re orients our understanding of acculturation and ethnic identification in medieval East Asia generates new insights into the Tang Song transition period and offers new avenues of comparison with Southeast Asian and medieval European history

Second Language Acquisition Susan M. Gass, Larry Selinker, 2001 This revision of our best selling text in SLA will incorporate suggestions made by previous adopters of the book as well as including new developments in theoretical linguistics cognitive psychology and social interaction

Olivier Messiaen's System of Signs Andrew Shenton, 2017-07-05 Andrew Shenton s groundbreaking cross disciplinary approach to Messiaen s music presents a systematic and detailed examination of the compositional techniques of one of the most significant musicians of the twentieth century as they relate to his desire to express profound truths about Catholicism It is widely accepted that music can have mystical and transformative powers but because pure music has no programme Messiaen sought to refine his compositions to speak more clearly about the truths of the Catholic faith by developing a sophisticated semiotic system in which aspects of music become direct signs for words and

concepts Using interdisciplinary methodologies drawing on linguistics cognition studies theological studies and semiotics Shenton traces the development of Messiaen s sign system using examples from many of Messiaen s works and concentrating in particular on the *Motations sur le myst de la Sainte Trinit* or organ a suite which contains the most sophisticated and developed use of a sign system and represents a profound exegesis of Messiaen s understanding of the Catholic triune God By working on issues of interpretation Shenton endeavours to bridge the traditional gap between scholars and performers and to help people listen to Messiaen s music with spirit and understanding
