Contingency Irony And Solidarity:

Contingency, Irony, and Solidarity Richard Rorty, 1989-02-24 In this 1989 book Rorty argues that thinkers such as Nietzsche Freud and Wittgenstein have enabled societies to see themselves as historical contingencies rather than as expressions of underlying ahistorical human nature or as realizations of suprahistorical goals This ironic perspective on the human condition is valuable on a private level although it cannot advance the social or political goals of liberalism In fact Rorty believes that it is literature not philosophy that can do this by promoting a genuine sense of human solidarity A truly liberal culture acutely aware of its own historical contingency would fuse the private individual freedom of the ironic philosophical perspective with the public project of human solidarity as it is engendered through the insights and sensibilities of great writers The book has a characteristically wide range of reference from philosophy through social theory to literary criticism It confirms Rorty's status as a uniquely subtle theorist whose writing will prove absorbing to academic and nonacademic readers alike

Richard Rorty Michael Bacon, 2008-01-01 Michael Bacon gives a critical presentation of Rorty's writings on pragmatism and political theory comparing and contrasting him with pragmatists such as Hilary Putnam and Susan Haack and liberals such as John Rawls and Brian Barry The result is an imaginative presentation of one of contemporary philosophy's most innovative and important thinkers

John Dewey's Liberalism Daniel M. Savage, 2002 John Dewey's classical pragmatism Daniel M Savage asserts can be used to provide a self development based justification of liberal democracy that shows the current debate between liberal individualism and republican communitarianism to be based largely on a set of pseudoproblems From Dewey's classical pragmatism Savage derives a conception of individual autonomy that while meeting all of the criteria for a conception of autonomy does not as the dominant Kantian variant does require transcendence from any particular language community The Deweyan conception of autonomy that Savage derived from classical pragmatism in fact requires that the individual be situated within a context of cultural beliefs Savage argues that this particular conception of autonomy is necessary if one wants to conceive of life as communitarians do as a quest for the good life within a social context Thus Savage constructs a conception of autonomy that consists of a set of intellectual virtues each of which can be understood like Aristotle's moral virtues as a mean between two extremes or vices The virtue of critical reflection is the mean between the vices of dogmatism on the one hand and philosophical skepticism on the other The virtue of creative individuality is the mean between the opposing vices of conformity and eccentricity Finally the virtue of sociability is the mean between the extremes of docility and rebelliousness The three virtues together provide a natural method of adapting to change The method is natural because it is in accord with a continuous cycle of activity tension movement harmony that is generic to all living things Dewey's method of adapting to change requires in both the individual and in the community the synthesis of integrating and differentiating forces

What We Owe to Nonhuman Animals Gary

Steiner, 2023-09-27 This book strongly challenges the Western philosophical tradition's assertion that humans are superior to

nonhuman animals It makes a case for the full and direct moral status of nonhuman animals The book provides the basis for a radical critique of the entire trajectory of animal studies over the past fifteen years The key idea explored is that of felt kinship a sense of shared fate with and obligations to all sentient life It will help to inspire some deep rethinking on the part of leading exponents of animal studies The book's strong outlook is expressed through an appeal for radical humility on the side of humans rather than a constant reference to the human animal divide Historical figures examined in depth include Aristotle Seneca and Kant contemporary figures examined include Christine Korsgaard and Martha Nussbaum This book presents an account according to which the tradition has not proceeded on the basis of impartial motivations at all but instead has made a set of pointedly self-serving assumptions about the proper criteria for assessing moral worth Readers of this book will gain exposure to a wide variety of thinkers in the Western philosophical tradition historical as well as contemporary This book is suitable for professionals working in nonhuman animal studies students advanced undergraduates and practitioners working in the fields of philosophy environmental studies law literature anthropology and related fields

The Adventures of Transcendental Philosophy Eduardo Mendieta, 2002-07-23 Karl Otto Apel is one of the most important German philosophers of the 20th century and is finally coming to be recognized as such However his work is still poorly understood and inadequately treated throughout most of the world In *The Adventures of Transcendental Philosophy* critical theory scholar Eduardo Mendieta examines the philosophical origins of discourse ethics through the prism of Apel's thought Mendieta finds that Apel fundamentally transformed German philosophy which had become stagnant in the years before World War II and deeply influenced later thinkers such as Jürgen Habermas Apel's turn toward pragmatism and analytic philosophy helped him bring the concept of a linguistic paradigm shift to Germany *Relativism and Intentionalism in Interpretation* Kalle Puolakka, 2011-01-01 *Relativism and Intentionalism in Interpretation* Davidson Hermeneutics and Pragmatism applies a rich philosophical perspective to questions central to the interpretation of art Puolakka uses discussions of the relativity of interpretations to demonstrate that the pluralistic attitude towards art that characterizes pragmatism and hermeneutics can be combined with a view stressing the role of authorial intentions Academics concerned with the philosophy of art and aesthetics will find unique and worthwhile contributions to the study here

Meaninglessness M. A. Casey, 2002-01-01 What would the world be like if we no longer needed meaning Australian sociologist Michael Casey's revealing work charts the collapse of the metaphysical world and the innate human need for meaning With the decline of Christianity and the demise of secular universalism in the west the meaning and value of metaphysical culture has been replaced by an entirely new post metaphysical world In *Meaninglessness* Casey revisits the social theory of Nietzsche Freud and Rorty in order to conceive how this post metaphysical culture may take shape in the third millennium Framing questions of enduring significance to contemporary social and political theory in a new methodological light this work will appeal to scholars and general readers interested in sociology post modernism cultural

studies political theory and philosophy Counter-Enlightenments Graeme Garrard, 2004-08-02 This book discusses the Counter Enlightenment from its origins in Rousseau's Discourse on the Arts and Sciences through to contemporary debates about postmodernism and the relationship between liberalism and Enlightenment **Ethics-Politics-Subjectivity** Simon Critchley, 2020-05-05 In Ethics Politics Subjectivity Simon Critchley takes up three questions at the centre of contemporary theoretical debate What is ethical experience What can be said of the subject who has this experience What if any is the relation of ethical experience to politics Through spirited confrontations with major thinkers such as Lacan Nancy Rorty and in particular Levinas and Derrida Critchley finds answers in a nuanced ethics of finitude and defends the political possibilities of deconstruction Democracy economics friendship and technology are all considered anew in Critchley's bold excursions on the meaning and value of recent French philosophy *Reconstituting Social Criticism* Shane O'Neill, Iain MacKenzie, 1999-07-17 In the context of a new global order where the logic of the market reigns virtually unopposed there is a clear need for original thinking that might reinvigorate a progressive political project This collection of essays brings together the work of a number of leading scholars who are concerned to construct a convincing basis for incisive criticism today These contributors represent the most vibrant and influential of contemporary critical perspectives egalitarian liberalism socialism poststructuralism psychoanalysis hermeneutics and critical theory **The Domestication of Derrida** Lorenzo Fabbri, 2008-06-08 In The Domestication of Derrida Lorenzo Fabbri argues that Rorty's powerful reading protocol is motivated by the necessity to contain the risks of Derrida's critique of Western philosophy and politics Rorty claims that Derrida reduces philosophy to a production of private fantasies that do not have any political or epistemological relevance Fabbri challenges such an aberrant appropriation by investigating the two key features of Rorty's privatization of deconstruction the reduction of deconstructive writing to an example of merely autobiographical literature and the idea that Derrida not only dismisses but also mocks the desire to engage philosophy with political struggle What is ultimately questioned in The Domestication of Derrida is the legitimacy of labelling deconstruction as a post modern withdrawal from politics and theory By discussing Derrida's resistance against the very possibility of theoretical and political ascetism Fabbri shows that there is much more politics and philosophy in deconstruction than Rorty is willing to admit Cinematic Poetics of Guilt Matthias Grotkopp, 2021-01-18 How do the temporal and dynamic patterns of media forms and practices create complex constructions of meaning identity and value How can we describe the way cinematic images generate and transform the affectively grounded structures that survey confirm or revise a political community's horizon of values Using the exemplary case of feelings of guilt the author develops an approach that makes patterns of audiovisual compositions intelligible as aesthetic modulations of moral feelings A sense of guilt is presented here as neither an individualistic psychological emotion nor an external social mechanism of control but as a paradigmatic case for understanding politics and history as based upon embodied affectivity and shared relations to the world By taking three distinct examples German Post

War cinema Hollywood Western and films on climate change patterns of audiovisual composition and the inherent calculation of affect are analyzed as practices shaping the conditions of possibility of political communities and their historicity Rorty and the Religious Jacob L. Goodson, Brad Elliott Stone, 2012-08-14 Prior to his death in 2007 the self described secular philosopher Richard Rorty began to modify his previous position concerning religion Moving from atheism to anti clericalism Rorty challenges the metaphysical assumptions that lend justification to abuses of power in the name of religion Instead of dismissing and ignoring Rorty's challenge the essays in this volume seek to enter into meaningful conversation with Rorty's thought and engage his criticisms in a constructive and serious way In so doing one finds promising nuggets within Rorty's thought for addressing particular questions within Christianity The essays in this volume offer charitable yet fully confessional engagements with an impressive secular thinker Reason, Truth, and Theology in Pragmatist Perspective Paul D. Murray, 2004 In this work Paul Murray explores which style of rationality is most appropriate to Christian theology in the contemporary pluralist postfoundationalist postmodern context At its heart is a fresh consideration of the American pragmatist tradition focussing on the writings of Richard Rorty and Nicholas Rescher Where Rorty correctly diagnoses the failures of foundationalist objectivism Rescher's pragmatic idealism is presented as healing the ills in Rorty's own neo pragmatism The significant resonance between Rescher's view of rationality and Christian understanding of the trinity is explored In turn Donald MacKinnon's influential writings are presented as exemplifying just such an approach to theology Murray both articulates an enriched form of Christian postliberalism committed to receiving and learning from other traditions of thought and practice and probes the claim that the dynamics of human rationality can be expected to reflect the Trinitarian dynamics of God's being Paul Murray presents us here with an exhaustive and insightful study of recent pragmatic theory in which he sets up rhythms of healing and completion as well as interrogation particularly remarkable is his exploration of Christianity as the deep and in some sense final interlocutor of pragmatic tradition I strongly recommend this book Olivier Davis Professor of Christian Doctrine King's College London This is a mature wide ranging work that by uniting the intellectual and the practical carries both rational and ethical conviction It does equal justice to the classic teachings of Christianity and to the challenges to rethink them in dialogue with modern and postmodern approaches The result is a conception of Christianity both generously orthodox and deeply engaged with contemporary life and thought It is especially good to see the profound contribution of Donald MacKinnon understood and developed with such perception and relevance David F Ford Regius Professor of Divinity University of Cambridge Paul Murray is currently Lecturer in Systematic Theology within the Department of Theology at the University of Durham England He has previously held posts at St Cuthbert's Seminary Ushaw College Durham and Newman College of Higher Education Birmingham Essays of his exploring issues in philosophical theology science and theology and contemporary Roman Catholic theology have appeared in leading journals and edited collections This is his first monograph **Rorty & Pragmatism** Richard Rorty, 1995 In Rorty and

Pragmatism this highly influential and sometimes controversial philosopher responds to several of his most prominent critics representing a wide range of backgrounds and concerns Each of these critical challenges raises significant questions about Rorty's philosophical outlook Whether or not one agrees with all of his positions his replies are consequential They provide insight into Rorty's thought its development and his sense of the future of philosophy *Finite, Contingent, and Free* Joyce Kloc McClure, 2003 *Finite Contingent and Free* is a Roman Catholic perspective that views acceptance as the proper response to the conditions of human existence and the foundation for ethics **Pragmatic Historicism** Sheila Greeve Davaney, 2000-09-22 Presents a new option in theology pragmatic historicism which emerges out of the historicist assumptions of recent Western thought and resists both confessionalism and universalism **Histories of Postmodernism** Mark Bevir, Jill Hargis, Sara Rushing, 2020-09-19 *Histories of Postmodernism* reexamines the history of the constellation of ideas and thinkers associated with postmodernism The increasingly dominant historical narrative depicts a relatively smooth development of ideas from Friedrich Nietzsche and Martin Heidegger through a range of French theorists most notably Jacques Derrida and Michel Foucault to contemporary American thinkers such as Richard Rorty Edward Said and Judith Butler *Histories of Postmodernism* challenges this narrative by highlighting the local contexts of relevant theorists and thus the crucial distinctions that divide successive articulations of the themes and concepts associated with postmodernism As postmodern ideas traveled from nineteenth century Germany to mid twentieth century France and on to the contemporary United States so the relevant theorists transformed that heritage within the context of particular intellectual traditions and specific political and aesthetic issues **The Politics of Empathy** Barbara Weber, Eva Marsal, Takara Dobashi, 2011 This anthology explores the significance and role of empathy in the public sphere It examines the use of empathy to establish trans cultural solidarity as well as to motivate people for political action in our ever increasingly multicultural environment On a more practical level it investigates if empathy can be taught or cultivated And if so are literature or other forms of cultural representations the most adequate and promising methods The contributions will analyze these and other implications potentials and weaknesses of empathy on an interdisciplinary and intercultural level *Wittgenstein, Politics and Human Rights* Robin Holt, 2006-08-21 Do human rights make sense They have been central to post war political life and our picture of moral self But this is being eroded Holt argues and with it the viability of human rights discourse The pre social individual and its mental armoury is being challenged by an increasing awareness of genealogical forces in which the self is less a lone claimant than an exponent or rebel Using Wittgenstein's philosophy this book considers the liberal position on human rights along with the communitarian and pragmatic attacks and challenges the intelligibility of each from the perspective of what it is to be a language user Wittgenstein *Politics and Human Rights* argues that moral relations are not dead but that their life resides with the on going relations of selves governed by universal principles
