Non-performance and Remedies Under International Contract Law Principles and Indian Contract Law Lars Meyer, 2010 The survey compares the rules on contractual non performance and remedies under the UNIDROIT Principles of International Commercial Contracts the Principles of European Contract Law and Indian statutory contract law including the Indian Contract Act 1872 Given that most Indian statutes were derived from English law and may therefore be viewed as codified common law this comparison may contribute to the question of whether especially in view of contract law harmonisation in the EU the civil law and common law traditions could be merged in a common code Moreover it may help identify legal differences that are relevant to doing business between India and Europe The general conclusion of the survey is that the Principles and Indian statutory contract law share a close proximity especially because many of their provisions on non performance and remedies appear to be derived from the same concepts and also provide for very similar consequences

Contracting for ABS Shakeel Bhatti, Tomme Young, Santiago Carrizosa, Patrick McGuire, 2009 Contracts relating to scientific technical development are effective only where they are enforceable or valid under relevant law can be practically implemented by the parties and address matters arising from the relevant scientific technical issues and practices Negotiators are often hampered by their lack of knowledge of contract law and of the

biotechnological techniques used to derive new molecules and genes or genetic or biochemical formulas from biological samples This lack of knowledge means they may not make the best choices This book examines the special issues in applying contract law to the rights to take and utilize genetic resources and the scientific issues and the manner in which they affect the negotiation of ABS agreements *Commentaries on European Contract Laws* Nils Jansen, Reinhard Zimmermann, 2018-07-13 The book provides rule by rule commentaries on European contract law general contract law consumer contract law the law of sale and related services dealing with its modern manifestations as well as its historical and comparative foundations After the collapse of the European Commission's plans to codify European contract law it is timely to reflect on what has been achieved over the past three to four decades and for an assessment of the current situation In particular the production of a bewildering number of reference texts has contributed to a complex picture of European contract laws rather than a European contract law The present book adopts a broad perspective and an integrative approach All relevant reference texts from the CISG to the Draft Common European Sales Law are critically examined and compared with each other As far as the *acquis commun* ie the traditional private law as laid down in the national codifications is concerned the Principles of European Contract Law have been chosen as a point of departure The rules contained in that document have however been complemented with some chapters sections and individual provisions drawn from other sources primarily in order to account for the quickly growing *acquis communautaire* in the field of consumer contract law In addition the book ties the discussion concerning the reference texts back to the pertinent historical and comparative background and it thus investigates whether and to what extent these texts can be taken to be genuinely European in nature ie to constitute a manifestation of a common core of European contract law Where this is not the case the question is asked whether and for what reasons they should be seen as points of departure for the further development of European contract law

Japanese Contract and Anti-Trust Law Willem Visser t'Hooft, 2003-09-02 Little has been written on Japanese contract law and anti trust law in Western languages This book describes the role of this law in protecting the distributor against unilateral terminations of distribution agreements There have been significant pressures both to lower prices and restructure distribution channels in Japan which have strained many distribution agreements This volume based primarily on Japanese language legal material not only involves a study of applicable black letter law but also a sociological study of its application in practice Detailed analysis has been made in particular of famous legal termination cases during the 1990s in the Japanese luxury cosmetics distribution system which generated influential decisions by the higher courts and the Fair Trade Commission providing new insights into whether or not there are distinct Japanese attitudes towards contracts
