**My Search for Meaning** Laurence C Jeffrey, 2024-11-04 The text *My search for meaning* was inspired by the author's early curiosity about life's meaning and his reflection on several worldly experiences traversing the continents of North and South America Europe Asia and Africa His interest in and studies of western academic philosophy provides the schema that brings to light the crux of his discovery and the text is intended to share with the reader the author's understanding of life The author hopes that by reading this text it would inspire others to explore philosophical ideas in a broader context

The Writer's Book of Memory Janine Rider, 2013-11-05 Memory has long been ignored by rhetoricians because the written word has made memorization virtually obsolete Recently however as part of a revival of interest in classical rhetoric scholars have begun to realize that memory offers vast possibilities for today's writers Synthesizing research from rhetoric psychology philosophy and literary and composition studies this volume brings together many historical and contemporary theories of memory Yet its focus is clear memory is a generator of knowledge and a creative force which deserves attention at the beginning of and throughout the writing process This volume emphasizes the importance of recognizing memory's powers in an age in which mass media influence us all and electronic communication changes the way we think and write It also addresses the importance of the individual memory and voice in an age which promotes conformity Written in a strong lively personal manner the book covers a great deal of scholarly material It is never overbearing and the extensive bibliography offers rich vistas for further study

Berger, 2011-01-01 The prevailing conception of language is often called the received view Though ubiquitous Louis S Berger demonstrates its flaws and the difficulties it raises for other disciplines such as philosophy and physics In *Language and the Ineffable* Berger develops an unconventional model of human development ontogenesis A radical and generative feature of the model is the premise that the neonate's world is holistic boundary less unimaginable and impossible to describe in other words ineffable This study unsettles the foundations of sacrosanct beliefs about language and a host of other disciplines in the process

lay readers and expert practitioners      *The Evolutionary Argument against Naturalism* Jim Slagle, 2021-06-17 Contemporary discussions in metaphysics epistemology and philosophy of mind are dominated by the presupposition of naturalism Arguing against this established convention Jim Slagle offers a thorough defence of Alvin Plantinga's Evolutionary Argument against Naturalism EAAN and in doing so reveals how it shows that evolution and naturalism are incompatible Charting the development of Plantinga's argument Slagle asserts that the probability of our cognitive faculties reliably producing true beliefs is low if ontological naturalism is true and therefore all other beliefs produced by these faculties including naturalism itself are self defeating He critiques other well known epistemological approaches including those of Descartes and Quine and deftly counters the many objections against the EAAN to conclude that metaphysical naturalism should be rejected on the grounds of self defeat By situating Plantinga's argument within a wider context and showing that science and evolution cannot entail naturalism Slagle renders this most common metaphysical view irrational As such the book advocates an important reconsideration of contemporary thought at the intersection of philosophy science and religion      *Philosophy and Fiction* Schuy R. Weishaar, 2022-11-18 Fiction lies in order to tell the truth and seeks reality through shadows Philosophy attempts to dispel false realities it pursues clear understanding of things as they are While the relation of philosophy and fiction is perhaps paradoxical they implicate one another's picture of human experience This book uses fiction to help readers process philosophical themes and the philosophical reflection in turn helps clarify the fiction The study moves through roughly a hundred years of modern fiction from Washington Irving's *The Devil* and Tom Walker 1824 through James M Cain's *Double Indemnity* 1936 Several classic works of literary fiction are examined a few largely forgotten stories and several popular novels Reading fiction through the lens of philosophy helps readers perceive the complexity and richness of fiction reinvigorating the pursuit of wisdom that lies just beneath the surface of the words on the page      *Human Flourishing: The End of Law* W. Michael Reisman, Roza Pati, 2023-10-09 This rich volume is an homage to the significant impact Professor Siegfried Wiessner has had on scholarship and practice in many areas of international and domestic law Reflecting the depth and breadth of his writings it is a collection of thought provoking original essays exploring topics as diverse as theory about law human rights the rights of indigenous peoples the rule of law constitutional law the rights of migrants international investment law and arbitration space law the use of force and many more all integrated by the problem and policy oriented framework of what has come to be known as the New Haven School Its title *Human Flourishing: The End of Law* reflects the conviction that the purpose of law ought to be to allow humans to achieve their full potential to thrive and develop both materially and spiritually under the law The volume contributes to a vision of the law as a public order in which the common interest is clarified and implemented peacefully and offers a source of inspiration for scholars and practitioners working towards such an order of human dignity      *Everything Flirts* Sharon Wahl, 2024 At the heart of the stories in *Everything Flirts* are some of life's trickiest questions Why is it so hard to make the first move on a date How do we find the person we

will love If you finally find a person to love how do you convince them to love you back With a mixture of humor and reverence Sharon Wahl hijacks classic works of philosophy and turns their focus to love The sublime and the ridiculous come together to playfully examine why love just might be a topic too hard for philosophers to explain     *Technology & Spirituality* Stephen K. Spyker, 2012-11-01 Can you live a spiritual life in a hyperconnected world Technology is part of what defines us it s part of what makes us human More than that the technologies we adopt affect the very type of humans we become The tools we choose to use and how we use them affect how we think how we make decisions how we relate to one another how we construct knowledge even how we think about God from the Introduction Every day new technologies affect your life at home at work and at play But how often do you pause to consider how your computer mp3 player cell phone or PDA influence your spiritual life your beliefs your faith your fundamental understanding of God With wit and verve Stephen Spyker leads you on a lively journey through the many ways technology impacts how we think about faith and how we practice it He explores the role of new spiritual communities the personal relationships we have with our gadgets our changing expectations helping you to think about the many often subtle ways technology has seeped into every aspect of our lives and changed the way we do faith Can online churches replace traditional houses of worship Will my iPod give me peace of mind Is technological convenience undermining our ability to create community and make commitments Whether a technophile or technophobe no matter your faith or background this book will entertain and challenge you while encouraging you to take a fresh look at spirituality in our modern world
