Does Foreign Aid Really Work:

Does Foreign Aid Really Work? Roger Riddell, 2008-08-07 Provided for over 60 years and expanding more rapidly today than it has for a generation foreign aid is now a 100bn business But does it work Indeed is it needed at all In this first ever overall assessment of aid Roger Riddell provides a rigorous but highly readable account of aid warts and all

Assessing the Impact of Foreign Aid Viktor Jakupec, Max Kelly, 2015-11-10 Assessing the Impact of Foreign Aid Value for Money and Aid for Trade provides updated information on how to improve foreign aid programs exploring the concept and practice of impact assessment within the sometimes unproblematic approaches advocated in current literature of value for money and aid for trade Contributors from multi lateral agencies and NGOs discuss the changing patterns of Official Development Assistance and their effects on impact assessment providing theoretical political structural methodological and practical frameworks discussions and a theory practice nexus With twin foci of economics and policy this book raises the potential for making sophisticated and coherent decisions on aid allocation to developing countries Addresses the impact of aid for trade and value for money rather than its implementation Discusses the changing patterns of Official Development Assistance and their effects on impact assessment providing theoretical political structural methodological and practical frameworks discussions and a theory practice nexus Assesses the effects and implications of the value for money and aid for trade agendas Highlights economic issues

Handbook on the Economics of Foreign Aid Byron Lew, 2015-10-30 It would be fair to say that foreign aid today is one of the most important factors in international relations and in the national economy of many countries as well as one of the most researched fields in economics Although much has been written on the subject of foreign aid this book contributes by taking stock of knowledge in the field with chapters summarizing long standing debates as well as the latest advances Several contributions provide new analytical insights or empirical evidence on different aspects of aid including how aid may be linked to trade and the motives for aid giving As a whole the book demonstrates how researchers have dealt with increasingly complex issues over time both theoretical and empirical on the allocation impact and efficacy of aid with aid policies placed at the center of the discussion In addition to students academics researchers and policymakers involved in development economics and foreign aid this Handbook will appeal to all those interested in development issues and international policies

Unmasking the African Ghost Cyril Orji, 2022-04-26 The story of Africa is a ghost story with two plots One is foreign or imported and the other indigenous or local The foreign plot has its origin in colonial history The indigenous plot is African in origin But both plots end in the same place African trauma and culture complex These narratives create in modern Africa a splintered consciousness and the political and economic conditions that lead to physical and psychological violence Unmasking the African Ghost is both a theological exploration of the reasons the political and economic systems in African countries have failed and a proposal for the paths toward recovery anchored in the belief that Africa is a continent continuously trying to redefine its identity in the face of Eurocentrism For the

church in Africa to be a church at the service of its people theology in Africa must take misery and oppression as the context for its reflections and its reconstruction of the social order An African solution to African problems must be able to meet the needs of the time It must look to the African past to draw from its riches particularly the African sociopolitical ethic of ubuntu It must also look ahead and draw from the best available sociopolitical system of modern states liberal democracy A hybrid of these two yields ubuntuocracy Ubuntuocracy removes the ghosts of both Africa and its Western colonizers and begins a new story that can help Africa survive its double bind

Aid for Trade: Global and Regional Perspectives Philippe Lombaerde, Lakshmi Puri, 2009-02-03 Aid for Trade AFT has become a major item on the international trade and development discourse This is to a large extent in response to concerns expressed by developing countries and economies in transition with regard to their capacities to implement trade agreements especially WTO agreements and undertake necessary adjustments to increase net development gains from emerging trade opportunities In this World Report major UN agencies active in development cooperation and longstanding providers of trade related technical assistance and capacity building discuss ways to sustain the momentum towards the operationalization and implementation of the AFT initiative and the supportive role to be played by the UN system This is consistent with UN's role in promoting development and helping to achieve poverty reduction as committed in the Millennium Declaration and the 2005 World Summit Outcome The Report should be of particular interest to government officials officials of regional organizations representatives of the private sector dealing with trade agreements and negotiations civil society and academia Supachai Panitchpakdi Secretary General of UNCTAD Lakshmi Puri is Acting Deputy Secretary General and Director of the Division on International Trade and Services and Commodities at UNCTAD in Geneva Philippe De Lombaerde is Associate Director of United Nations University UNU CRIS in Bruges In collaboration with UNCTAD ECA ECLAC ESCAP ESCWA UNECE UNIDO UNDP UNEP

Foreign Aid for Development George Mavrotas, World Institute for Development Economics Research, 2010-02-25 An edited collection on foreign aid that addresses important aid questions and reviews the shifting aid landscape in light of the recent global financial crisis The volume reviews the progress achieved so far identifies the challenges ahead and discusses the emerging policy agenda in foreign aid

The Future of Foreign Aid A. Sumner, R. Mallett, 2012-12-18 Sumner and Mallett review the literature on aid in light of shifts in the aid system and the increasing concentration of the world's poor in middle income countries As a consequence they propose a series of practical policy relevant options for future development cooperation with the aim of provoking discussion and informing policy

Australia's Foreign Aid Dilemma Jack Corbett, 2017-03-16 The Australian aid program faces a fundamental dilemma how in the absence of deep popular support should it generate the political legitimacy required to safeguard its budget and administering institution Australia's Foreign Aid Dilemma tells the story of the actors who have grappled with this question over 40 years It draws on extensive interviews and archival material to uncover how court politics shapes both aid policy and administration The lesson for scholars and practitioners is that any

holistic understanding of the development enterprise must account for the complex relationship between the aid program of individual governments and the domestic political and bureaucratic contexts in which it is embedded. If the way funding is administered shapes development outcomes then understanding the court politics of aid matters. This comprehensive text will be of considerable interest to scholars and students of politics and foreign policy as well as development professionals in Australia and across the world.

Aid, Growth and Poverty Jonathan Glennie, Andy Sumner, 2016-05-30 The authors discuss the impact of foreign aid and tackle the question of why assessing the impact of aid is so difficult. The authors focus on peer reviewed cross country studies published over the last decade and draw together some global level assessments considering the context and conditions under which aid might be said to work. Glennie and Sumner argue that the evidence in four areas shows signs of convergence that may have direct relevance for policy decisions on aid and for aid effectiveness discussions. These are as follows: Aid levels meaning if aid is too low or too high; Domestic political institutions including political stability and extent of decentralisation; Aid composition including sectors, modalities, objectives and time horizons; and Aid volatility and fragmentation. Notably this study finds that there is no consensus that the effectiveness of aid depends on orthodox economic policies.

A Study of China's Foreign Aid Y. Shimomura, H. Ohashi, 2013-11-20 This book provides a new perspective of China's controversial foreign aid strategy. The chapters offer a thorough examination of data to show how China has created knowledge in its long experiences of aid and how this accumulated knowledge could contribute to other developing countries. The book also examines China's aid philosophy and strategy through an Asian perspective instead of the Western perspective that is postulated in existing academic literature. This is important as China shares a number of common features with other Asian donors including India and Japan. Finally the book explores how to utilize the potential effect of this rising major donor for worldwide development and poverty reduction.

Development Without Aid David A. Phillips, 2013-04-01 Development Without Aid opens up perspectives about foreign aid to the world's poorest countries. Growing up in Malawi the author developed a sense of the limitations of foreign assistance and from this evolves a critique of foreign aid as an alien resource unable to provide the dynamism that could propel the poorest countries out of poverty. The book aims to help move the discussion beyond foreign aid. It examines the rapid growth of the world's diasporas as a quasi indigenous resource of increasing strength in terms of both financial and human capital and considers how far such a resource might supersede aid. It uses extensive research findings to explore the possibilities for a resumption of sovereignty by poor states especially in Africa over their own development with the assistance of the world's diasporas.

Foreign Aid of Gulf States Mohammad Yaghi, Hanaa Almoaibed, Silvia Colombo, 2025-09-29 This book explores how Gulf States foreign aid strategies have transformed in the wake of 9/11 and the 2011 Arab Uprisings. It traces the shift from a solidarity based model to aid increasingly driven by political and military objectives particularly in conflict zones like Yemen, Libya and Syria. The book analyzes enduring traits and evolving trends in aid allocation highlighting a growing emphasis on humanitarian

assistance transparency and alignment with global governance norms Yet a persistent preference for bilateral aid raises questions about long term impact and transparency The politicization of aid post 2011 reveals how Gulf donors wield aid as a tool of geopolitical influence Looking ahead the book outlines a research agenda that examines the rebranding of Gulf aid the implications of its militarization the role of economic diversification and the influence of shifting regional dynamics such as Saudi Iran relations and the Abraham Accords on future strategies This book is essential reading for scholars policymakers and practitioners in international development political science Middle Eastern studies and global governance The chapters in this book were originally published as a special issue of Third World Quarterly

International Aid, Administrative Reform and the Politics of EU Accession Artan Karini, 2018-09-11 This book provides a detailed analysis of the dimensions and dynamics of the role of international aid in the reform and capacity development of public service in post communist Albania It challenges the technocratic results based management frameworks used by aid organizations and reports of official donors operating in the country context and offers a qualitative and critical assessment of the role of aid in administrative reform and capacity building Secondly the book highlights the specificity of the national politico administrative context and its ability to modify the process of policy transfer from aid organizations to the Albanian bureaucracy In doing so it illustrates the domestic challenges in the transfer process towards policy learning and makes a valuable contribution to the debate over the voluntary vs coercive administrative reform in Southeast Europe in relation to the politics of EU accession

Shaping the Developing World Andy Baker, 2021-01-22 Why are some countries rich and others poor Colonialism globalization bad government gender inequality geography and environmental degradation are just some of the potential answers to this complex question Using a threefold framework of the West the South and the natural world *Shaping the Developing World* provides a logical and intuitive structure for categorizing and evaluating the causes of underdevelopment This interdisciplinary book also describes the social political and economic aspects of development and is relevant to students in political science international studies geography sociology economics gender studies and anthropology The Second Edition has been updated to include the most recent development statistics and to incorporate new research on topics like climate change democratization religion and prosperity the resource curse and more This second edition also contains expanded discussions of gender financial inclusion crime and police killings and the Middle East including the Syrian Civil War

Re-Framing Foreign Aid History and Politics Igor Pellicciari, 2022-06-16 This book presents an integrated analysis at once conceptual historical and political of the growing impact of State Funded Aid on international relations particularly after the collapse of the Berlin Wall and the end of the bipolar system In order to observe Aid as an emerging instrument of foreign policy the book develops an original approach which puts Donors and Recipients on the same level and examines the political dynamics of their relationship The focus shifts from looking at the needs covered by Aid interventions to the political motivations of Donors and Recipients Aid is reconceptualized to include any transaction on

favourable terms between these two parties regardless of the object of that Aid This framework of analysis is applied to several historical cases from the post conflict transition in Bosnia and Herzegovina and the post Soviet one in Russia in the 1990s to the medical Aid to Italy and Russian vaccine diplomacy to the Republic of San Marino during the COVID 19 pandemic In the end the book identifies ten major trends that have shaped the dynamics of the relationship between Donors and Recipients over the past few decades and on a more general level traces the impact that State Funded Aid has had on the international system By arguing that on the whole Donors have had greater political interests than Recipients the book takes a fresh and original look at Aid as instrument of Power Politics It will be of great interest to students scholars and practitioners of Foreign Aid and foreign policy and to all those interested in analysing how they have been affected by the global pandemic

Bilateral Aid to Latin America: Foreign Economic Assistance from Major Donor Nations Francis Adams, 2015-06-15 This book offers a comprehensive detailed account of the bilateral economic assistance of six major donor nations the United States Canada the United Kingdom Spain Japan and China to the nations of Latin America Focus is placed on assistance that is structured to meet basic human needs enhance social equity promote economic growth preserve natural environments and support political reform It thus offers a basic foundation for understanding the nature impact and motivations of such assistance to Latin America This study also offers a series of recommendations for reforming economic assistance to Latin America with emphasis placed on improving the design implementation and oversight of development projects enhancing coordination among aid institutions ensuring local control and ownership of the development process and empowering poor communities When the poor are active participants in improving their communities they gain the knowledge skills and resources necessary to meet their own needs on a long term basis Since economic assistance will continue to be a major component of the foreign policies of donor states it will be important to ensure that such assistance genuinely contributes to positive meaningful and lasting change in the region Bilateral Aid to Latin America is an important volume for university libraries and research institutes It will augment collections that focus on Latin America international development and economic assistance The book would also be relevant for scholars and practitioners of Latin American development as well as undergraduate and graduate courses on Latin America and international political economy

From Charity to Justice Vincent Fang, 2021-05-03 This book focuses on the ethical demands of extreme poverty and develops a political theory of practical change Welding together political realism and moral aspirations it argues that a re imagined form of development NGO can help the global North break free from the dominant and persistent charity paradigm and drift towards a justice based understanding of extreme poverty It offers an original explanation of why the charity paradigm persists and why the justice not charity messages from development NGOs have changed few minds The author argues that anyone concerned with a paradigm shift from charity to justice need to radically rethink the problem of political communication who should communicate what messages about extreme poverty in what ways Based on a rational choice

critique of the competitive development NGO sector the author calls for sector wide reform and the emergence of a new political agent the Avant garde NGO which transcends the charity frame that NGOs currently find themselves locked in Further inspired by literary theory and social psychology he offers a fresh account of how the Avant garde NGO could through reflective public engagement induce attitude change and lead genuine social and political reform Aid for Elites Mark Moyer,2016-02-01 Current foreign aid programs are failing because they are based upon flawed assumptions about how countries develop They attempt to achieve development without first achieving good governance and security which are essential prerequisites for sustainable development In focusing on the poorer members of society they neglect the elites upon whose leadership the quality of governance and security depends By downplaying the relevance of cultural factors to development they avoid altering cultural characteristics that account for most of the weaknesses of elites in poor nations Drawing on a wealth of examples from around the world the author shows that foreign aid can be made much more effective by focusing it on human capital development Training education and other forms of assistance can confer both skills and cultural attributes on current and future leaders especially those responsible for security and governance *Public Procurement Regulation in Africa* Geo Quinot,Sue Arrowsmith,2013-01-17 Public procurement regulation in Africa is not widely researched To address the shortage of scholarship in this area and to promote future research this book analyses the law governing public procurement in a number of African systems and looks at key themes relevant to all African states Part I discusses the regulatory regimes of nine African systems using a common framework providing both a focused view of these African systems and an accessible comparative perspective In Part II key regulatory issues in public procurement that are particularly relevant in the African context are assessed through a comparative approach The chapters consider the influence of international regulatory regimes particularly the UNCITRAL Model Law on procurement on African systems and provide insights into the way public procurement regulation is approached in Africa **International Aid and South Korea** Sojin Lim,2024-12-30 This book explores South Korea s experience as an aid recipient as an aid donor and as an inter Korea aid provider Analysing case studies of international aid both received and dispensed by South Korea from the end of the Korean War until the present day this collection provides a novel lens through which to explore South Korea s development pathway While it examines the cases of Italian and German aid to South Korea during its early economic development period this volume also delineates South Korea s international aid in the health and gender sectors It also discusses the South Korean experience of providing aid to the Mekong region and North Korea The latter specifically analyses whether this policy represents international altruism or reveals a novel method of international validation for South Korea over its neighbour Featuring an exploration of South Korea s development on the international stage through the lens of aid this book will appeal to both students and scholars in the fields of Korean studies East Asian studies and Asia Pacific studies as well as in the disciplines of Development Studies and International Relations and Political Economy particularly that of aid policies and

practices
