DOING ETHICS

MORAL REASONING, THEORY, AND CONTEMPORARY ISSUES

The background of the cover is a stylized illustration of a forest. A light brown path splits into two directions, leading into a lush green forest. In the center of the path, a white dog with brown patches is sitting, looking away from the viewer. The forest is filled with various shades of green, representing different types of trees and foliage. In the distance, a large, snow-capped mountain rises against a pale blue sky. The overall style is clean and modern, with a focus on nature and a contemplative scene.

Doing Ethics Lewis Vaughn,2024-01-07 Discover the 1 introductory ethics textbook *Ethical Veganism, Virtue Ethics, and the Great Soul* Carlo Alvaro,2019-03-13 Millions of animals are brought into existence and raised for food every year This has generated three serious problems first intensive animal farming is one of the leading causes of environmental degradation Farming livestock contributes to a large amount of greenhouse gases to the atmosphere each year it contributes to land and water degradation biodiversity loss coral reef degeneration and deforestation Second raising animals for food causes millions of animals to suffer and be killed And third consumption of meat and animal products is linked with heart disease diabetes and various cancers Consequently a global change in the way that animals are treated is imperative Many moral philosophers have suggested a move toward vegetarianism But vegetarianism unfortunately still relies on raising animals for food and does not avoid the deleterious effects of animal products on human health The right solution is ethical veganism which is the avoidance of all animal products and by products Some moral philosophers have framed ethical veganism in terms of animals having the same fundamental rights as humans a notion that is highly controversial In any case the view that animals have rights is not capable of generating the moral duty to embrace ethical veganism The answer is to adopt a virtue oriented approach to the treatment of animals because the acquisition of virtues such as compassion magnanimity temperance and fairness enable people to see that raising and using animals for food is unfair callous and self indulgent
