Hobbs, Christopher Hamerton, 2014-10-24 This new textbook will provide students of criminology with a better understanding of criminal justice policy and in doing so offers a framework for analysing the social economic and political processes that shape its creation The book adopts a policy oriented approach to criminal justice connecting the study of criminology to the wider study of British government public administration and politics Throughout the book the focus is on key debates and competing perspectives on how policy decisions are made Recognising that contemporary criminal justice policymakers operate in a highly politicised public arena under the gaze of an ever increasing variety of groups organisations and individuals who have a stake in a particular policy issue the book explores how and why these people seek to influence policymaking It also recognises that criminal policy differs from other areas of public policy as policy decisions affect the liberty and freedoms of citizens Throughout key ideas and debates are linked to wider sociology criminology and social policy theory Key features include a foreword by Tim Newburn leading criminologist and author of *Criminology* 2nd Edition 2013 a critical and informed analysis of the concepts ideas and institutional practices that shape criminal justice policy making an exploration of the relationship between criminal justice and wider social policy a critical analysis of the debate about how and why behaviour becomes defined as requiring a criminal justice solution a range of case studies tasks seminar questions and suggested further readings to keep the student engaged This text is perfect for students taking modules in criminology criminal justice and social and public policy as well as those taking courses on criminal and administrative law Crime,

Justice, and Social Order Alison Liebling, Joanna Shapland, Richard Sparks, Justice Tankebe, 2021-12-23 To honour the extraordinary contribution of Professor Anthony Edward Bottoms to criminology and criminal justice leading criminologists and penal scholars have been asked to contribute original essays on the wide range of areas in which he has written The book starts by reflecting on the depth and breadth of Anthony's contribution and his melding of perspectives from moral philosophy social theory empirical social science research and criminal justice This is no ordinary collection because it also contains a major essay by Anthony Bottoms on Criminology and positive morality reflecting on social order and social norms

In similar vein Jonathan Jacobs approaches criminology from a moral philosophical viewpoint whilst Ian Loader and Richard Sparks ponder social theory and contemporary criminology. Typically Peter Neyroud reflects on evidence based practice and the process of trying to do experiments in relation to policing. In the second section of the book on Crime Justice and Communities Loraine Gelsthorpe reminds us that justice is about people in considering the treatment of women in community justice. Joanna Shapland draws parallels between the process of desistance from crime and the potential role of restorative justice in affecting offenders' journeys. P. O. Wikström reflects on the social ecology of crime whilst Antje Du Bois-Pedain considers the theoretical and practical challenges of sentencing constructively. Finally the book turns to Anthony Bottoms' major interest in punishment and penal order. David Garland puts penal populism under the microscope whilst Alison Liebling explores the empirical evidence for theories of penal legitimacy. Mike Nellis looks back at the use of the creative arts in prisons in Scotland's Barlinnie Unit whilst Justice Tankebe explores police legitimacy.

The Oxford Handbook of Criminology Mike Maguire, Rodney Morgan, Robert Reiner, 2007. Teachers and students of criminology and is a sourcebook for professionals.

Understanding Victims and Restorative Justice James Dignan, 2004-11-16. Although the topics dealt with are complex the author has been very successful in presenting and exploring them clearly. Students may find particularly helpful the summary at the end of each chapter of the main points covered in that section. The legal executive: the real strength of this book lies in the critical thinking that arises from the juxtaposition of two very much unfinished debates: the question of how victims are treated by the justice system and the practices and implications of restorative justice. I feel this book is particularly important because it reframes a whole series of debates and practices which otherwise might be in danger of getting stuck. That this is also undertaken by someone who is extremely knowledgeable about the subject matter and perceptive in relation to key issues is an added bonus.

Two of the principal and most influential developments within criminal justice policy taking in a variety of common law jurisdictions during the past thirty years have been the rise of the victim movement and the emergence of a distinctive set of practices that have become associated with the term restorative justice. *Understanding Victims and Restorative Justice* examines the origins of and the relationship between these two sets of developments and seeks to assess their strengths and weaknesses in meeting the needs of victims as part of the overall response to crime. Written in a lively and accessible style this book is of benefit to students from a range of disciplines including criminology, sociology and the law. Also helpful to professionals, practitioners and policymakers working in voluntary agencies within the criminal justice system.

Offenders on Offending Wim Bernasco, 2010. The book addresses the issue of assessing the reliability of information about crime from offenders, taking stock of the various methods used to elicit information on offending from offenders and collecting useful information on criminal behaviour.

The Role of Community in Restorative Justice Fernanda Rosenblatt, 2015-04-17. Although restorative justice is probably one of the most talked about topics in contemporary criminology little has been written about how community involvement in

restorative justice translates into practice While advocates have presented the community as an essential pillar of restorative justice the rationale for why and how this is the case remains underdeveloped and largely unchallenged This book offers an empirical and theoretical explanation of what community involvement means and what work it does in restorative justice Drawing on an empirical case study and the wider sociological literature *The Role of Community in Restorative Justice* examines the involvement of the community in one selected practice of restorative justice and also considers the implications of the English and Welsh experience for development of a more coherent framework for operationalizing community involvement in restorative justice practices It is argued that restorative justice programmes need to start from a more concrete and up to date notion of community While operationalizing community involvement they need to acknowledge all at once the importance of place the importance of family links friendship and other social ties and the importance of similar social traits and identities This book is essential reading for students researchers and academics in the fields of criminology criminal justice sociology community studies policy studies social policy and socio legal studies This book will also be valuable reading for a variety of practitioners and policymakers particularly working with restorative justice and youth justice
