Doing Philosophy T. & Vaughn Schick (L.), Doing Philosophy: an Introduction Through Thought Experiments Lewis Vaughn, Theodore Schick, Jr., 2019-01-23 Evidence and Faith Charles Taliaferro, 2005-02-28 Taliaferro has written a dynamic narrative history of philosophical reflection on religion from the 17th century to the present with an emphasis on shifting views of faith and the nature of evidence The book begins with the movement called Cambridge Platonism which formed a bridge between the ancient and medieval worlds and early modern philosophy While the book provides an overview of different movements in philosophy it also offers a detailed exposition and reflection on key arguments and the scope is broad from Descartes to contemporary feminist philosophy of religion Epistemic Thought Experiments and Intuitions Manhal Hamdo, 2023-06-28 This work investigates intuitions nature demonstrating how philosophers can best use them in epistemology First the author considers several paradigmatic thought experiments in epistemology that depict the appeal to intuition He then argues that the nature of thought experiment generated intuitions is not best explained by an a priori Platonism Second the book instead develops and argues for a thin conception of epistemic intuitions The account maintains that intuition is neither a priori nor a posteriori but multi dimensional It is an intentional but non propositional mental state that is also non conceptual and non phenomenal in nature Moreover this state is individuated by its progenitor namely the relevant thought experiment Third the author provides an argument for the evidential status of intuitions based on the correct account of the nature of epistemic intuition The suggestion is the fitting ness approach intuition alone has no epistemic status Rather intuition has evidentiary value as long as it fits well with other pieces into a whole namely the pertinent thought experiment Finally the book addresses the key challenges raised by supporters of anti centrality according

to which philosophers do not regard intuition as central evidence in philosophy To that end the author responds to them showing that they fail to affect the account of intuition developed in this book This text appeals to students and researchers working in epistemology
