

Student Exploration: Food Chain

Vocabulary: consumer, ecosystem, energy pyramid, equilibrium, food chain, population, predator, prey, producer

Prior Knowledge Questions (Do these BEFORE using the Gizmo.)

The Food Chain Gizmo shows a **food chain** with hawks, snakes, rabbits, and grass. In this simulation, the hawks eat snakes, the snakes eat rabbits, and the rabbits eat grass.

1. **Producers** are organisms that do not need to eat other organisms to obtain energy.
 - A. Which organism is a producer in this food chain? Grass
 - B. Where does the producer get its energy? The sun to make food from matter
2. **Consumers** must eat other organisms for energy. Which organisms are consumers in this food chain? Herbivores

Gizmo Warm-up

The SIMULATION pane of the Gizmo shows the current **population** or number, of each organism in the food chain.

1. What are the current populations of each organism?

Hawks: 42 Snakes: 278 Rabbits: 2846 Grass: 27300

2. Select the BAR CHART tab, and click **Play** (▶). What do you notice about each population as time goes by?

It's all the same

If populations don't change very much over time, the ecosystem is in **equilibrium**.

3. Notice the populations decrease as you go from the bottom of the food chain to the top. Why do you think this is so? Because it's the start? Top of the food chain

This diagram, showing decreasing populations at each level, is called an **energy pyramid**.

How to Move & Learn Bryn Llewellyn, Ian Holmes, Richard Allman, 2022-07-11 Foreword by Dr Andy Daly Smith We already know that increased physical activity and a reduction in the sedentary time spent sitting at desks have wide ranging benefits including to brain function so what if there were also evidence that using movement in the learning process improves outcomes for children What if we could then map out ways to support teachers in adapting their practice to make this a reality In *How to Move Learn* Bryn Llewellyn Ian Holmes and Richard Allman do just that sharing the latest research from around the world and providing teachers with the means and motivation to identify opportunities to integrate movement purposefully into the teaching and learning process The links between health and education are paramount and this book explores these connections and presents a wealth of ideas activities and resources to help teachers unlock the potential of the school and outdoor environments for learning across all curriculum subjects Suitable for all primary school teachers and leaders

Project-Based Learning Applied to the Language Classroom Juliana Franco Tavares/ Louise Emma Potter, 2018-03-05 In *Project Based Learning Applied to the Language Classroom* the authors propose a way to develop PBL in the language classrooms taking into account all of the obstacles and specifics involved in teaching a foreign language It is about teaching English as a second or foreign language using Project Based Learning PBL We approach this combination because many people seem to think about implementing PBL in their language classes and ask questions about how to do it but feel that there aren't enough materials based on this methodology In fact most researchers and writers we have come across discuss the applications of PBL in the students mother tongue to subjects such as Math History Literature Social Studies and Science However there are few published works about the specifics of PBL in foreign language classes Besides it seems obvious to us that the main difficulty in developing projects in a second or foreign language lies exactly on the fact that communication may be hindered when students do not have enough knowledge in the target language
