Explorers of the Western Himalayas, 1820-1895 John Keay, 1996 Where men and mountains meet The Gilgit game

The Great Explorers Robin Hanbury-Tenison, 2018-10-16 Penetrating biographies written by a group of distinguished travel writers broadcasters and historians reveal the lives motives and passions of forty major explorers in history It has always been mankind s gift or curse to be inquisitive and through the ages people have been driven to explore the limits of the worlds known to them and beyond Here are the stories of forty of the world s greatest explorers from Europe America Asia and Australia These are men and women who changed our perception of the world through their courageous adventures Organized thematically the book opens with the oceanic journeys of five hundred years ago when the great era of recorded exploration began The following sections look at The Land Rivers Polar Ice Deserts Life on Earth and New Frontiers Many of these explorers recounted their journeys in vivid firsthand accounts others were superb artists or photographers The book features quotes from their journals and reports and it is illustrated with paintings photographs engravings and maps so that we can experience their adventures through their own eyes and in their own words Featured explorers include Christopher Columbus Vasco da Gama James Cook Lewis and Clark Richard Burton Samuel de Champlain David Livingstone Roald Amundsen Gertrude Bell Alexander von Humboldt Yuri Gagarin and Jacques Yves Cousteau Britain and Tibet 1765-1947 Julie G. Marshall, 2005 This bibliography is a record of British relations with Tibet in the period 1765 to 1947 As such it also involves British relations with Russia and China and with the Himalayan states of Ladakh Lahul and Spiti Kumaon and Garhwal Nepal Sikkim Bhutan and Assam in so far as British policy towards these states was affected by her desire to establish relations with Tibet It also covers a subject of some importance in contemporary diplomacy It was the legacy of unresolved problems concerning Tibet and its borders bequeathed to India by Britain in 1947 which led to border disputes and ultimately to war between India and China in 1962 These borders are still in dispute today It also provides background information to Tibet s claims to independence an issue of current importance The work is divided into a number of sections and subsections based on chronology geography and events The introductions to each of the sections provide a condensed and informative history of the period and place the books and article in their historical context Most entries are also annotated This work is therefore both a history and a bibliography of the subject and provides a rapid entry into a complex area for scholars in the fields of international relations and military history as well as Asian history **Stormcatcher** Linda Eketoft, 2020-05-26 An Argentinian from Buenos Aires Christian Pereira sails in Antarctica It is the end of February and other sailors are heading home as winter approaches the continent One sleepless night he picks up a book that he has found in his attic at home Browsing through the text about the Western Himalayas his eyes get fixed on the mysterious death of a British explorer and spy who was sent out by the British to influence a commercial treaty by which the entire Central Asia would open for trade He later identifies a connection between the man and his great grandfather Knowing the truth turns into an

obsession The Antarctic landscape slowly starts to influence Christian Sneaking into a research station in search for food one night he accidentally runs into Fyodor an unpredictable Russian scientist with a mysterious past who forces Christian to give him a lift on his boat to complete his secret scientific study This is only the beginning of a journey that turns out to be Christian s biggest challenge yet StormCatcher is a Thriller of a journey that leaves the reader breathless **Himalaya** Philip Parker,2012-11-30 At some 1500 miles long and 250 miles at its widest the Himalaya range is home to the fourteen greatest mountain peaks on the planet each of which towers over 8 000 metres Celebrated by the region s early ancient kingdoms many of these peaks remain sacred in both the Hindu and Buddhist religions and have additionally inspired western explorers and adventurers for some 300 years Himalaya examines the geographical origins of the region its earliest peoples and the onward western discovery and exploration commencing with the Jesuits progressing through myriad nineteenth century gentlemen surveyors culminating in Edmund Hilary and Tensing Norgay s ascent of Everest in 1953 and continuing to the present day with extreme mountaineers and adventure tourists However the book does not solely deal with the attempts to summit the majestic Everest Its broader brief and chronological structure allows the inclusion of narrative and journal extracts from the equally heroic pioneering ascents of Himalayan peaks including K2 1954 Nanga Parbat 1953 Annapurna 1950 Kangchenjunga 1955 and Lhotse 1956 as well as subsequent new frontiers peaks routes and mountaineering techniques The volume includes specially commissioned pieces where legendary climbers reflect on their intrepid experiences and heroism on the highest mountains on earth These accounts are set beside stunning commissioned cartography historical photographs newly shot stills of ephemera and artifacts as well as the most recent Himalayan work from some of the world s leading adventure photographers **Cartographic Fictions** Karen Lynnea Piper,2002 Maps are stories as much about us as about the landscape They reveal changing perceptions of the natural world as well as conflicts over the acquisition of territories Cartographic Fictions looks at maps in relation to journals correspondence advertisements and novels by authors such as Joseph Conrad and Michael Ondaatje In her innovative study Karen Piper follows the history of cartography through three stages the establishment of the prime meridian the development of aerial photography and the emergence of satellite and computer mapping Piper follows the cartographer s impulse to leave the ground as the desire to escape the racialized or gendered subject With the distance that the aerial view provided maps could then be produced objectively that is devoid of problematic native interference Piper attempts to bring back the dialogue of the native informant demonstrating how maps have historically constructed or betrayed anxieties about race The book also attempts to bring back key areas of contact to the map between explorer native and masculine feminine definitions of space **Northern Afghanistan** Major C. E. Yate,2008-10-01 The Joint Afghan Boundary Commission an Anglo Russian venture whose task it was to delineate the frontier between Northern Afghanistan and Russia s Central Asian territories scientifically and permanently thus replacing the 1873 line drawn from vague and inaccurate maps was to rendezvous at Sarakhs on the

modern border of Iran and Turkmenistan in October 1884 Presented as a series of letters written at different times from the commission and published in connected form Yate s Northern Afghanistan describes in detail the year long progress of the commission Included are valuable notes on Herat and its extant buildings before the strategic destruction of a number of these for defensive purposes together with descriptions of Mazar i Sharif the Oxus and the Hindu Kush mountains This is a fascinating first hand account of Afghanistan s political demarcation many features of which such as the Wakhan Corridor remain with us today and of travel through an area whose potential for instability persists to the present day This edition maintains all the material from the original 1888 edition including the plan of Balkh Only the maps have been reduced in scale

When Men and Mountains Meet John Keay,1993 Empire Niall Ferguson,2008-03-17 A bestselling historian shows how the British Empire created the modern world in a book lauded as a rattling good tale Wall Street Journal and popular history at its best Washington Post The British Empire was the largest in all history the nearest thing to global domination ever achieved The world we know today is in large measure the product of Britain s Age of Empire The global spread of capitalism telecommunications the English language and institutions of representative government all these can be traced back to the extraordinary expansion of Britain s economy population and culture from the seventeenth century until the mid twentieth On a vast and vividly colored canvas Empire shows how the British Empire acted as midwife to modernity Displaying the originality and rigor that have made Niall Ferguson one of the world s foremost historians Empire is a dazzling tour de force a remarkable reappraisal of the prizes and pitfalls of global empire

Indian Foreign Policy and the Border Dispute with China Willem van Eekelen,2015-11-02 This volume is an updated and expanded version of the author s original book first published by Martinus Nijhoff Publishers and based on his cum laude doctoral dissertation That volume discussed how the Five Principles of Peaceful Coexistence drowned in the first war between a communist and a non aligned state This new edition reproduces the original text but supplements it considerably in light of subsequent developments and official records and reports only later released or leaked to the public It places Sino Indian relations in the wider current context of the rise of China the position of Tibet and the disorganised state of Asia The border dispute did not prevent substantial economic relations developing between the two countries and visits taking place at the highest political level But it still gives rise to almost daily incursions and in the current climate the risk of a clash is growing as forces have been strengthened and most of the Line of Actual Control has not been demarcated This thought provoking volume sheds light on what is still a complex and uneasy relationship

Journeys on the Silk Road Joyce Morgan,Conrad Walters,2012-08-22 When a Chinese monk broke into a hidden cave in 1900 he uncovered one of the world s great literary secrets a time capsule from the ancient Silk Road Inside scrolls were piled from floor to ceiling undisturbed for a thousand years The gem within was the Diamond Sutra of AD 868 This key Buddhist teaching made 500 years before Gutenberg inked his press is the world s oldest printed book The Silk Road once linked China with the Mediterranean It conveyed merchants pilgrims and ideas But

its cultures and oases were swallowed by shifting sands Central to the Silk Road s rediscovery was a man named Aurel Stein a Hungarian born scholar and archaeologist employed by the British service Undaunted by the vast Gobi Desert Stein crossed thousands of desolate miles with his fox terrier Dash Stein met the Chinese monk and secured the Diamond Sutra and much more The scroll s journey by camel through arid desert by boat to London s curious scholars by train to evade the bombs of World War II merges an explorer s adventures political intrigue and continued controversy The Diamond Sutra has inspired Jack Kerouac and the Dalai Lama Its journey has coincided with the growing appeal of Buddhism in the West As the Gutenberg Age cedes to the Google Age the survival of the Silk Road s greatest treasure is testament to the endurance of the written word *The Russian Conquest of Central Asia* Alexander Morrison,2021 A comprehensive diplomatic and military history of the Russian conquest of Central Asia spanning the whole of the nineteenth century An End to Suffering Pankaj Mishra,2010-08-24 A searching personal portrait of the Buddha and his enduring influence East and West Pankaj Mishra s *An End to Suffering* is a deeply original and provocative book about the Buddha s life and his influence throughout history told in the form of the author s search to understand the Buddha s relevance in a world where class oppression and religious violence are rife and where poverty and terrorism cast a long constant shadow Mishra describes his restless journeys into India Pakistan and Afghanistan among Islamists and the emerging Hindu middle class looking for this most enigmatic of religious figures exploring the myths and places of the Buddha s life and discussing Western explorers discovery of Buddhism in the nineteenth century He also considers the impact of Buddhist ideas on such modern politicians as Gandhi and Nelson Mandela As he reflects on his travels and on his own past Mishra shows how the Buddha wrestled with problems of personal identity alienation and suffering in his own no less bewildering times In the process Mishra discovers the living meaning of the Buddha s teaching in the world and for himself The result is the most three dimensional convincing book on the Buddha that we have Questioning Ladakh Vijayanti Kharé,2024-11-14 **Into India** John Keay,1999 A classic introduction to one of the world s most fascinating countries **Fallen Giants** Maurice Isserman,Stewart Angus Weaver,Dee Molenaar,2010-01-01 In the first comprehensive history of Himalayan mountaineering in 50 years the authors offer detailed original accounts of the most significant climbs since the 1890s and they compellingly evoke the social and cultural worlds that gave rise to those expeditions World and Its Peoples Marshall Cavendish,2006-09 Describes the geography people culture and politics of the countries of the Middle East Central Asia and North Africa **Living Islam** Magnus Marsden,2005-12-19 Popular representations of Pakistan s North West Frontier have long featured simplistic images of tribal blood feuds fanatical religion and the seclusion of women The rise to power of the radical Taliban regime in neighbouring Afghanistan enhanced the region s reputation as a place of anti Western militancy Magnus Marsden is an anthropologist who has immersed himself in the lives of the Frontier s villagers for more than ten years His evocative study of the Chitral region challenges all these stereotypes Through an exploration of the everyday experiences of both men and women he shows that

the life of a good Muslim in Chitral is above all a mindful life enhanced by the creative force of poetry dancing and critical debate Challenging much that has been assumed about the Muslim world this 2005 study makes a powerful contribution to the understanding of religion and politics both within and beyond the Muslim societies of southern Asia *Library Journal*, 1997-11 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately **Mapping an Empire** Matthew H. Edney, 2024-05-31 In this fascinating history of the British surveys of India Matthew H Edney relates how imperial Britain used modern survey techniques to not only create and define the spatial image of its Empire but also to legitimate its colonialist activities There is much to be praised in this book It is an excellent history of how India came to be painted red in the nineteenth century But more importantly Mapping an Empire sets a new standard for books that examine a fundamental problem in the history of European imperialism D Graham Burnett Times Literary Supplement Mapping an Empire is undoubtedly a major contribution to the rapidly growing literature on science and empire and a work which deserves to stimulate a great deal of fresh thinking and informed research David Arnold Journal of Imperial and Commonwealth History This case study offers broadly applicable insights into the relationship between ideology technology and politics Carefully read this is a tale of irony about wishful thinking and the limits of knowledge Publishers Weekly
