**Exposing Men : The Science and Politics of Male Reproduction** Cynthia R. Daniels Associate Professor of Political Science Rutgers University, 2006-08-03 Exposing Men examines how ideals of masculinity have long skewed our societal and scientific understanding of one of the pillars of male identity reproductive health Only with the recent public exposure of men s reproductive troubles has the health of the male body been thrown into question and along with it deeper masculine ideals Whereas once men s sexual and reproductive abilities were the most taboo of topics today erectile dysfunction is a multi billion dollar business and magazine articles trumpet male reproductive decline with headlines such as You re Half the Man Your Father Was Cynthia R Daniels casts a gimlet eye on our world of plummeting sperm counts spiking reproductive cancers sperm banks and pharmacological cures for impotence in order to assess the true state of male health What she finds is male reproductive systems damaged by toxins and war and proof piling up that men through sperm pass on harm to the children they father Yet despite the evidence that men s health as much as women s significantly affects the vitality of their offspring Daniels also sees a society holding on to outdated assumptions one in which men ignore blatant health risks as they struggle to live up to antiquated ideas of manliness How is a Man Supposed to be a Man? Robin A Hadley, 2021-09-17 The global trend of declining fertility rates and an increasingly ageing population has serious implications for individuals and institutions alike Childless men are mostly excluded from ageing social science and reproduction scholarship and almost completely absent from most national statistics This unique book examines the lived experiences of a hidden and disenfranchised population men who wanted to be fathers It explores the complex intersections that influence childlessness over the life course

**Reconceiving the Second Sex** Marcia C. Inhorn, Maruska la Cour Mosegaard, Tine Tjørnhøj-Thomsen, Helene Goldberg, 2009-08-01 Extensive social science research particularly by anthropologists has explored women s reproductive lives their use of reproductive technologies and their experiences as mothers and nurturers of children Meanwhile few if any volumes have explored men s reproductive concerns or contributions to women s reproductive health Men are clearly viewed as the second sex in reproduction This volume argues that the marginalization of men is an oversight of considerable proportions It sheds new light on male reproduction from a cross cultural global perspective focusing not only upon men in Europe and America but also those in the Middle East Asia and Latin America Both heterosexual and homosexual married and unmarried men are featured in this volume which assesses concerns ranging from masculinity and sexuality to childbirth and fatherhood Seminal Rene Almeling, Lisa Campo-Engelstein, Brian T. Nguyen, 2025-06-24 The complexities and controversies at the nexus of sperm health and politics In Seminal experts from across the social sciences humanities law and medicine offer a kaleidoscopic view of the relationship between sperm health and the intersecting politics of gender race and reproduction Always insightful and often provocative the essays in this unprecedented collection cover a broad range of issues related to male reproductive and sexual health including the latest

technological developments for creating sperm the specter of eugenics in contemporary medical markets emerging approaches to male contraceptive methods male infertility and trans healthcare controversies surrounding sperm donors and sperm banking disparities in sexual health education for teens all the while attending to the enormous variation in how individuals and societies understand embody and experience sperm At a time when the most basic rights of reproductive autonomy are under severe threat contributors to this volume argue this is precisely the moment to rethink and reimagine sperm from a variety of medical political and cultural perspectives Ultimately this volume aims to contribute to a more reproductively just society and broaden conversations around bodies health and equity in the United States

*Masculinities and Discourses of Men's Health* Gavin Brookes, Małgorzata Chałupnik, 2023-10-30 This book brings together a collection of case studies that explore the relationship between health and masculinity It covers various topics related to health such as mental health sexual health eating disorders and coronavirus and offers health based perspectives on issues such as migration and gender identity as these relate to masculinities In exploring these themes this book addresses a wide range of communicative contexts including online forums interviews advertising sex education materials migrant integration classes and suicide notes This book will appeal to linguists interested in health and gender particularly masculinities as well as scholars in fields such as psychology media studies cultural studies and other humanities and social science disciplines with a focus on discourse

Fragmenting Fatherhood Richard Collier, Sally Sheldon, 2008-09-05 Debates about the future of fatherhood have been central to a range of conversations about changing family forms parenting and society Law has served an important yet often neglected role in these discussions serving as an important focal point for broader political frustrations playing a central role in mediating disputes and operating as a significant symbolic state sanctioned account of the scope of paternal rights and responsibilities *Fragmenting Fatherhood* provides the first sustained engagement with the way that fatherhood has been understood constructed and regulated within English law Drawing on a range of disparate legal provisions and material from diverse disciplines it sketches the major contours of the figure of the father as drawn in law and social policy tracing shifts in legal and broader understandings of what it means to be a father and what rights and obligations should accrue to that status In thematically linked chapters cutting across substantive areas of law the book locates fatherhood as a key site of contestation within broader political debates regarding the family and gender equality Multiple visions of fatherhood evolving unevenly over time across diverse areas of law emerge from this analysis Fatherhood is revealed as an essentially fragmented status and one which is intertwined in complex ways with the legal cultural and political contexts in which discourses of parenthood are produced *Fragmenting Fatherhood* provides an important and unique resource speaking to debates about fatherhood across a range of fields including law and legal theory sociology gender studies social policy marriage and the family women's studies and gender studies

**The Brink of Being** Julia Bueno, 2019-07-02 Wise and compassionate a profound game changer of a book Caroline Leavitt author of *Pictures of You*

Though approximately one in four pregnancies ends in miscarriage it remains a rarely talked about under researched and largely misunderstood area of women s health This profoundly necessary book the first comprehensive portrait of the psychological emotional medical and cultural aspects of miscarriage aims to help break that silence With candor warmth and empathy psychotherapist Julia Bueno blends women s stories including her own with research and analysis exploring the effect of pregnancy loss on women and highlighting the ways in which our society fails to effectively respond to it The result is a galvanizing urgent and moving exploration of a too often hidden human experience and a crucial resource for anyone struggling with or seeking to better understand miscarriage

*An Anthropogenic Table of Elements* Timothy Neale,Courtney Addison,Thao Phan,2022-08-31 *An Anthropogenic Table of Elements* provides a contemporary rethinking of Dmitri Mendeleev s periodic table of elements bringing together elemental stories to reflect on everyday life in the Anthropocene Concise and engaging this book provides stories of scale toxicity and temporality that extrapolate on ideas surrounding ethics politics and materiality that are fundamental to this contemporary moment Examining elemental objects and forces including carbon mould cheese ice and viruses the contributors question what elemental forms are still waiting to emerge and what political possibilities of justice and environmental reparation they might usher into the world Bringing together anthropologists historians and media studies scholars this book tests a range of possible ways to tabulate and narrate the elemental as a way to bring into view fresh discussion on material constitutions and thereby new ethical stances responsibilities and power relations In doing so *An Anthropogenic Table of Elements* demonstrates through elementality that even the smallest and humblest stories are capable of powerful effects and vast journeys across time and space

**GUYnecology** Rene Almeling,2020-08-25 For more than a century the medical profession has made enormous efforts to understand and treat women s reproductive bodies But only recently have researchers begun to ask basic questions about how men s health matters for reproductive outcomes from miscarriage to childhood illness What explains this gap in knowledge and what are its consequences Rene Almeling examines the production circulation and reception of biomedical knowledge about men s reproductive health From a failed nineteenth century effort to launch a medical specialty called andrology to the contemporary science of paternal effects there has been a lack of attention to the importance of men s age health and exposures Analyzing historical documents media messages and qualitative interviews GUYnecology demonstrates how this non knowledge shapes reproductive politics today **Recalibrating Stigma** Gareth Thomas,Oli Williams,Tanisha

Spratt,Amy Chandler,2025-06-16 Available open access digitally under CC BY NC ND licence Stigma has long been a central concern for social scientists studying health and illness Yet in existing work stigma often escapes definition and clarification is treated as universal and constant and becomes a vague catch all term for a range of conditions and situations This book initiates a process of recalibrating the conceptualisation of stigma The book features original analyses from early and mid

career scholars focusing on diverse issues including mental health racism sex HIV reproduction obesity eating disorders self harm exercise drug use COVID 19 and disability This ambitious book offers new perspectives to stimulate and intensify conversations around stigma and highlights the valuable contributions of sociological approaches to understanding health and illness

**Hormonal Theory** Andrea Ford, Roslyn Malcolm, Sonja Erikainen, Lisa Raeder, Celia Roberts, 2024-02-08 From angiotensin to cortisol testosterone to xenoestrogens and dopamine to endocrine disruptors hormones are everywhere These chemical entities are foundational to biological life and shape social cultural and political forces while simultaneously being shaped by them Hormones are increasingly central not only to medical and other body shaping practices and contemporary science but also environmentally oriented conversations Throughout Hormonal Theory authors trace how biomedical social political and experiential forces entangle to produce hormones as we know them today It illuminates how hormones emerge and exist as complex entities that permeate every sphere of our lives Each glossary entry takes a particular hormonal compound as its starting point yet works to elaborate and complicate understandings of hormones as distinct biological or chemical entities The entries collectively show how hormones never operate in isolation from other hormones nor bodies in isolation from other human and non human bodies and their socio ecological surroundings Indeed they cascade into one another This volume then is not simply a qualitatively rich companion to medical knowledge about hormones but a challenge to the conceptual underpinnings of current dominant understandings of disease wellness and normalcy

**Better Safe Than Sorry** Norah MacKendrick, 2018-05 How toxic are the products we consume on a daily basis Whether it's triclosan in toothpaste formaldehyde in baby shampoo endocrine disruptors in water bottles or pesticides on strawberries chemicals in food and personal care products are of increasing concern to consumers This book chronicles how ordinary people try to avoid exposure to toxics in grocery store aisles using the practice of precautionary consumption Through an innovative analysis of environmental regulation the advocacy work of environmental health groups the expansion of the health food chain Whole Foods Market and interviews with consumers Norah MacKendrick ponders why the problem of toxics in the U S retail landscape has been left to individual shoppers and to mothers in particular She reveals how precautionary consumption or green shopping is a costly and time intensive practice one that is connected to cultural ideas of femininity and good motherhood but is also most available to upper and middle class households Better Safe Than Sorry powerfully argues that precautionary consumption places a heavy and unfair burden of labor on women and does little to advance environmental justice or mitigate risk
