## **Fsa The American Vision:**

FSA Gilles Mora, Beverly W. Brannan, 2006-10 For this remarkable volume Mora and Brannan immersed themselves in the vast archive at the Library of Congress and emerged with unknown treasures. There is a new view of the achievement of the FSA photographers, the most comprehensive in print that gives them their due as the creators of a new American photographic vision.

**Trauma and Documentary Photography of the FSA** Sara Blair, Eric Rosenberg, 2012-05-01 Coauthored by the literary scholar Sara Blair and the art historian Eric Rosenberg, this volume of the Defining Moments in American Photography series offers new ways to understand the work of the famous Farm Security Administration photographers by exploring an expanded and much more variable idea of the documentary than what New Dealers proposed. The coauthors follow in the line of scholars who have on the one hand looked critically at the FSA photography project and identified its goals, biases, contradictions, and ambivalences, and on the other hand discerned strikingly independent directions among its photographers. But what distinguishes their work from that of others is their wrestling with a specific term often applied to the Depression era: trauma. If it was the case that documentary as a genre and FSA photographs as an umbrella project came to prominence during a time of trauma and in the hands of socially minded photographers was meant to address and publicize trauma, the coauthors of this volume seek to understand how trauma and photography mixed and how in the volatility of that mixture the competing ideas for documentary took shape. Among the key figures they study are some of the most beloved in American photography, including Walker Evans, Ben Shahn, and Aaron Siskind. Provided by publisher.

**Flash!** Kate Flint, 2017 A lively history of flash photography from the nineteenth century to the present that covers diverse topics like race, poverty, and the paparazzi. Sandler, 2021-11-23 A National Book Award winner mines photographic gold to show and tell the story of the Great Depression In an exquisitely curated volume of 140 full color and black and white photographs Martin W Sandler unpacks the United States Farm Security Administration's sweeping visual record of the Great Depression In 1935 with the nation bent under unprecedented unemployment and economic hardship the FSA sent ten photographers including Walker Evans Dorothea Lange and Gordon Parks on the road trip of a lifetime The images they logged revealed the daily lives of Southern sharecroppers Dust Bowl farmers in the Midwest Western migrant workers and families scraping by in Northeast cities Using their cameras as weapons against poverty and racism and in service of hope courage and human dignity these talented photographers created not only a collective work of art but a national treasure Grouped into four geographical regions and locked in focus by rich historical commentary these images many now iconic are history at its most powerful and immediate Extensive back matter includes photographer profiles and a bibliography     **Picturing Migrants** James R. Swensen, 2015-10 As time passes personal memories of the Great Depression die with those who lived through the desperate 1930s In the absence of firsthand knowledge John Steinbeck's *The Grapes of Wrath* and the photographs produced for the New Deal's Farm Security Administration FSA now provide most of the images that come to mind when we think of the 1930s That novel and those photographs as this book shows share a history Fully exploring this complex connection for the first time *Picturing Migrants* offers new insight into Steinbeck's novel and the FSA's photography and into the circumstances that have made them enduring icons of the Depression Looking at the work of Dorothea Lange Horace Bristol Arthur Rothstein and Russell Lee it is easy to imagine that these images came straight out of the pages of *The Grapes of Wrath* This should be no surprise James R Swensen tells us because Steinbeck explicitly turned to photographs of the period to create his visceral narrative of hope and loss among Okie migrants in search of a better life in California When the novel became an instant best seller upon its release in April 1939 some dismissed its imagery as pure fantasy Lee knew better and traveled to Oklahoma for proof The documentary pictures he produced are nothing short of a photographic illustration of the hard lives and desperate reality that Steinbeck so vividly portrayed In *Picturing Migrants* Swensen sets these lesser known images alongside the more familiar work of Lange and others giving us a clearer

understanding of the FSA's work to publicize the plight of the migrant in the wake of the novel and John Ford's award-winning film adaptation. A new perspective on an era whose hardships and lessons resonate to this day. *Picturing Migrants* lets us see as never before how a novel and a series of documentary photographs have kept the Great Depression unforgettably real for generation after generation.

***Displacing Caravaggio*** Francesco Zucconi, 2018-10-17 This book takes its start from a series of attempts to use Caravaggio's works for contemporary humanitarian communications. How did his *Sleeping Cupid* 1608 end up on the island of Lampedusa at the heart of the Mediterranean migrant crisis? And why was his painting *The Seven Works of Mercy* 1607 requested for display at a number of humanitarian public events? After critical reflection on these significant transfers of Caravaggio's work, Francesco Zucconi takes Baroque art as a point of departure to guide readers through some of the most haunting and compelling images of our time. Each chapter analyzes a different form of media and explores a problem that ties together art history and humanitarian communications from Caravaggio's attempt to represent life itself as a subject of painting to the way bodies and emotions are presented in NGO campaigns. What emerges from this probing inquiry at the intersection of art theory, media studies, and political philosophy is an original critical path in humanitarian visual culture.

***The Photographic Uncanny*** Claire Raymond, 2019-11-23 This book argues for a renewed understanding of the fundamentally uncanny quality of the medium of photography. It especially makes the case for the capacity of certain photographs precisely through their uncanniness to contest structures of political and social dominance. The uncanny as a quality that unsettles the perception of home emerges as a symptom of modern and contemporary society and also as an aesthetic apparatus by which some key photographs critique the hegemony of capitalist and industrialist domains. The book's historical scope is large, beginning with William Henry Fox Talbot and closing with contemporary indigenous photographer Bear Allison and contemporary African American photographer Devin Allen. Through close readings, exegesis of individual photographs, and careful deployment of contemporary political and aesthetic theory, *The Photographic Uncanny* argues for a re-envisioning of the political capacity of photography to expose the haunted, homeless condition of modernity.

Since 2004, the Baby Doll Mardi Gras tradition in New Orleans has gone from an obscure, almost forgotten practice to a flourishing cultural force. The original Baby Dolls were groups of black women and some men in the early Jim Crow era who adopted New Orleans street masking tradition as a unique form of fun and self-expression against a backdrop of racial discrimination. Wearing short dresses, bloomers, bonnets,

and garters with money tucked tight they strutted sang ribald songs chanted and danced on Mardi Gras Day and on St Joseph feast night Today s Baby Dolls continue the tradition of one of the first street women s masking and marching groups in the United States They joyfully and unabashedly defy gender roles claiming public space and proclaiming through their performance their right to social citizenship Essayists draw on interviews theoretical perspectives archival material and historical assessments to describe women s cultural performances that take place on the streets of New Orleans They recount the history and contemporary resurgence of the Baby Dolls while delving into the larger cultural meaning of the phenomenon Over 140 color photographs and personal narratives of immersive experiences provide passionate testimony of the impact of the Baby Dolls on their audiences Fifteen artists offer statements regarding their work documenting and inspired by the tradition as it stimulates their imagination to present a practice that revitalizes the spirit

**The Farm Security Administration and Rural Rehabilitation in the South** Charles Kenneth Roberts, 2024-01-12 This book fills an important void in the historical literature on New Deal reform and significantly updates Sidney Baldwin s 1968 book on the FSA Through the lens of the programs of the FSA Charles Kenneth Roberts does an excellent job of relating how New Deal programs attempted to rehabilitate poor rural southerners Aaron D Purcell author of Arthur Morgan A Progressive Vision for American Reform As the roaring twenties turned into the depressed thirties southern farmers far removed from the urban prosperity Americans had enjoyed during the 1920s heyday found already difficult farming conditions greatly intensified by the onset of the Great Depression Agricultural incompetence plagued the rural South through the misuse of land depletion of natural resources and a system of single crop farming that failed to adequately provide for growing families on small farms especially in the cotton producing Southeast Poverty and desperation came to define the farming communities of the rural South both in reality and in Americans collective conscious In *The Farm Security Administration and Rural Rehabilitation in the South* Charles Kenneth Roberts traces the administrative and political history of the Farm Security Administration FSA and reconciles the administration s goals with Franklin D Roosevelt s overall vision for the New Deal Roberts takes a grassroots approach to dissecting the FSA s history While other studies have focused on FSA photography or community building or even policy making in terms of top down government directives Roberts focuses on the people and state governments who faced an immediate need to aid southern farmers within their own borders and to boost their states crumbling agricultural economic bases Roberts focuses on rural rehabilitation as a key aspect of the FSA and defines the agency s legacy not in terms of its failures but rather in terms of an idealistic program whose modest successes were ultimately too few to effect real change for southern farmers Though Roosevelt failed to adequately recognize the plight of the southern farmer and political infighting hindered many of the administration s goals the creation of the FSA stands as one of the first efforts to provide sustained relief to struggling southern farmers In light of other federal programs of the era the FSA may seem like a mere footnote to the New Deal outside of its small but revered photography program But as Roberts
