## **From The Beast To The Blonde On Fairy Tales And Their Tellers:**

*From the Beast to the Blonde* Marina Warner, 1995 This brilliant and timely study looks beyond the Freudian interpretation of fairy tales to the tellers of the tales and to the social and cultural contexts in which the tales are told and re told through the centuries from the ancient sibyls to the eighteenth century SALONIERES from Angela Carter to Disney The value and enduring popularity of folk and fairy tales derives not only from their mythic significance but crucially from the fact that their concerns are rooted in the material world Lively provocative and ground breaking FROM THE BEAST TO THE BLONDE is Marina Warner's first major work of non fiction since the acclaimed MONUMENTS AND MAIDENS

**From The Beast To The Blonde** Marina Warner, 2015-06-30 Entrancing multi layered and as wittily subversive as fairy tales themselves this beautifully illustrated work explores and illuminates the unfolding history of famous fairy tales and the contexts in which they flourished It also lifts the curtain on the tellers themselves from ancient sibyls and old crones to the more modern Angela Carter and of course Walt Disney A brilliant compendium of folklore fairytales and learning which reveals unexpected links and histories behind some of our oldest and most loved tales

**The Brothers Grimm** Jack Zipes, 2002-12-06 Most of the fairy tales that we grew up with we know thanks to the Brothers Grimm Jack Zipes one of the more astute critics of fairy tales explores the romantic myth of the brothers as wandering scholars who gathered authentic tales from the peasantry Bringing to bear his own critical expertise as well and new biographical information Zipes examines the interaction between the Grimms lives and their work He reveals the Grimms personal struggle to overcome social prejudice and poverty as well as their political efforts as scholars and civil servants toward unifying the German states By deftly interweaving the social political and personal elements of the lives of the Brothers Grimm Zipes rescues them from sentimental obscurity No longer figures in a fairy tale the Brothers Grimm emerge as powerful creators real men who established the fairy tale as one of our great literary institutions Part biography part critical assessment and part social history The Brothers Grimm provides a complex and very real story about fairy tales and the modern world

*The Encyclopedia of Fantasy* John Clute, John Grant, 1999-03-15 Like its companion volume The Encyclopedia of Science Fiction this massive reference of 4 000 entries covers all aspects of fantasy from literature to art

**Story/telling** Bronwen Ann Levy, Ffion Murphy, 2001 Story telling is an eclectic and fascinating collection of stories and stories about stories With passion and verve some of Australia's finest writers range through vast territory exploring new directions in film and media enigmas and creativity histories of mothering narratives of indigenous and migrant experience folk country and multicultural music traditions and dilemmas of interpretation These writers appreciate the power of stories for good and ill They interrogate narratives of Australia's past and present and call for new stories for changing times We hear voices raised one moment subdued the next as if we were sitting in the Forum tent at the Woodford Festival knowing that here and just beyond in paint dance music and words stories are happening in delicious abundance

**A Companion to the Fairy Tale** Hilda

**Gender, Collaboration, and Authorship in German Culture** John B. Lyon,Laura Deiulio,2019-08-22 Gender Collaboration and Authorship in German Culture challenges a model of literary production that persists in literary studies the so called Geniekult or the idea of the solitary male author as genius that emerged around 1800 in German lands A closer look at creative practices during this time indicates that collaborative creative endeavors specifically joint ventures between women and men were an important mode of literary production during this era This volume surveys a variety of such collaborations and proves that male and female spheres of creation were not as distinct as has been previously thought It demonstrates that the model of the male genius that dominated literary studies for centuries was not inevitable that viable alternatives to it existed Finally it demands that we rethink definitions of an author and a literary work in ways that account for the complex modes of creation from which they arose
