From Sirius To Earth A Therapist Discovers A Soul Exchange:

From Sirius to Earth Evelyn Michelle Fuqua, Irene K Rayne, 1997 Join therapist and client as one of the most fascinating stories ever told unfolds Rose Arbor is a Soul Exchange from the star system of Sirius who took on the body of the former occupant when it was three years two months old As a result of this exchange she was afforded the opportunity to experience life in a body and contribute to the spiritual awakening occurring on Earth at this time Rose sought out Evelyn for hypnotherapy when she began to experience much emotional spiritual and physical pain It was then that the reality of her being a Walk In began to be revealed *From Sirius to Earth* will definitely broaden the reader's perspective on the nature of the soul Tranceformers Shamans of the 21st Century John Jay Harper, 2009

Tranceformers Shamans of the 21st Century is the true story of this author's contact with a dead optics physicist colleague and the telepathic communication that sent him searching for scientific answers to his spiritual questions Harper draws from this deep well of wisdom astrology biology near death experiences paranormal psychology quantum physics as well as Egyptian and Mayan cosmology overall He does an excellent job of synthesizing massive amounts of information making this shift of the ages comprehensible to the general reader Clearly this is a necessary primer to understand the coming apocalypse of biblical proportions in consciousness climate culture and civilization However the theme of this book is that by learning to use trance the techniques employed by mystics prophets and shamans one can unlock the mysteries of existence for themselves Indeed this is the big idea behind the Eternal Return of the Sun of God in 2012 Self Empowerment *From Sirius to Earth* Evelyn Michelle Fuqua, 1997
