Washed Away: From Darkness to Light Nikki DuBose, James Johanson, 2016-09-30 *Washed Away From Darkness to Light* is a memoir that recounts the experiences of model Nikki DuBose as she overcomes a more than seventeen year battle with abuse child sexual victimization eating disorders psychosis alcoholism drugs depression suicide attempts body dysmorphic disorder and various other mental health issues all while trying to navigate through the dark side of the fashion industry Her journey began as a young introverted child with a florid imagination growing up in Charleston South Carolina By the age of eight she had been sexually physically and emotionally abused and had developed an eating disorder The abuse warped Nikki's self perception and sparked patterns of psychosis depression and destructive behavior that stayed with her into adulthood In her early twenties she began working as a television host and started a career in modeling Eventually Nikki attained success appearing on the covers of magazines such as Maxim shooting for editorials like Vanity Fair Glamour and FHM and appearing in campaigns for Perry Ellis Cast into a world of excess superficiality and vanity Nikki traveled the globe and experienced the finest that the material world had to offer all while feeling empty inside Her disorders addictions and mental health issues took her to the brink of mortality and only through a deeply painful inner battle and her mother's death was she able to reconnect the lost pieces of her soul and see the person she had so long rejected Her recovery from a nearly lifelong struggle with PTSD psychosis addictions and eating disorders has left Nikki with a passionate longing to help others who are also suffering by advocating for mental health and self acceptance In America more than sixty one million individuals are affected by mental illness Child sexual abuse affects more than forty five million people in the United States alone yet it is still regarded as one of the most shameful issues to date Eating disorders affect millions and are one of the most destructive and life threatening mental afflictions today anorexia nervosa has the highest mortality rate of any psychological illness Despite the extent of the suffering eating disorders and mental health issues are poorly understood in popular culture and are often stigmatized mocked or even glorified because of misconceptions and ignorance over the seriousness of the manner Although the modeling industry has made strides towards body diversity in the past couple of years there is a lack of education and awareness surrounding eating disorders and other mental health issues We believe that through the recent societal trends and improved sharing of information we are beginning to break this paradigm therefore another aim of this book will be to educate the public *Washed Away From Darkness to Light* will serve as a testimony to others to let them know that they are not alone in their fears doubts and frustrations and that through recovery all things are possible A compelling and educational read about the dark side of the fashion business and its effect on mental health Nikki draws upon her experiences of overcoming a life threatening eating disorder as she navigates through the industry all while wrestling with a
