From Wealth To Faith A Tear Stained Journey:

From Wealth to Faith Mollie Zook,1986 **Reading Mennonite Writing** Robert Zacharias,2022-05-17 Mennonite literature has long been viewed as an expression of community identity However scholars in Mennonite literary studies have urged a reconsideration of the field s past and a reconceptualization of its future This is exactly what Reading Mennonite Writing does Drawing on the transnational turn in literary studies Robert Zacharias positions Mennonite literature in North America as a mode of circulation and reading rather than an expression of a distinct community He tests this reframing with a series of methodological experiments that open new avenues of critical engagement with the field s unique configuration of faith based intercultural difference These include cross sectional readings in nonnarrative literary history archival readings of transatlantic life writing Canadian rewritings of Mexican film s deployment of Mennonite theology as fantasy an examination of the fetishistic structure of ethnicity as a thing that has enabled Mennonite identity to function in a post identity age and finally a tentative reinvestment in ideals of Mennonite community via the surprising routes of queerness and speculative fiction In so doing Zacharias reads Mennonite writing in North America as a useful case study in the shifting position of minor literatures in the wake of the transnational turn Theoretically sophisticated this study of minor transnationalism will appeal to specialists in Mennonite literature and to scholars working in the broader field of transnational literary studies *12 Faith Journeys of the Minor Prophets: Prophecy Edition* Nathan E. Gertsman,2012-02-20 Sacred and profane public and private emotive and ritualistic internal and embodied medieval weeping served as a culturally charged prism for a host of social visual cognitive and linguistic performances Crying in the Middle Ages addresses the place of tears in Jewish Christian and Islamic cultural discourses providing a key resource for scholars interested in exploring medieval notions of emotion gesture and sensory experience in a variety of cultural contexts

Gertsman brings together essays that establish a series of conversations with one another foregrounding essential questions about the different ways that crying was seen heard perceived expressed and transmitted throughout the Middle Ages In acknowledging the porous nature of visual and verbal evidence this collection foregrounds the necessity to read language image and experience together in order to envision the complex notions of medieval crying **A Dictionary of Hymnology**
