Faith And Struggle On Smokey Mountain Hope For A Planet In Peril:

Faith and Struggle on Smokey Mountain Benigno P. Beltran, 2012 Smokey Mountain the vast garbage dump in Manila has served for many years as an emblem of third world squalor In many ways it is a metaphor for a planet slowly choking on garbage and waste But for Fr Beltran who served for three decades as a chaplain to the scavengers who survive off this reeking heap it is also a metaphor of hope an emblem of the will to survive the ability to create joy and find meaning even in the midst of abject poverty Faith and Struggle on Smokey Mountain describes the spiritual resilience of the scavengers of Smokey Mountain and how they taught Beltran to read the Gospel with new eyes The lessons he learned bear a message for all who struggle for a better world **Faith and Struggle on Smokey Mountain** Benigno P. Beltran, 2013

The Gifts for the City Andy Singleterry, 2023-10-20 How can I determine which spiritual gifts I have Wrong question Paul writes about the spiritual gifts in his letters as capacities of communities rather than individuals and he never makes a definitive definable list The gifts are fluid and dynamic refusing to be pinned down How can we start to describe how the Spirit works through us is a much more useful question This book helps you answer that question and then applies principles about spiritual gifts to urban ministry Cities present particular challenges to the teams who live and minister in them Certain spiritual gifts are crucial to teams trying to love their neighbors and their neighborhoods as themselves **God-Curious** Stephen Cherry, 2017-02-21 Why study theology Getting to the heart of this question Stephen Cherry demonstrates the appeal of exploring the unknown and the unknowable and reveals how theology the most interdisciplinary of all subjects is fascinating fun and important to our lives today *Catholicism in Migration and Diaspora* Gemma Tulud Cruz, 2022-07-28 This book focuses on the Philippines as a powerhouse in the Catholic and global migration landscape It offers a wide ranging look at the roles dynamics character and trajectories of Catholic faith and practice in the age of migration through an interdisciplinary religious and theological approach to Filipino Catholics experience of migration and diaspora both at home and overseas In so doing the book introduces the reader to the hallmarks and characteristics of a contextual model of world Christianity and global Catholicism in the twenty first century **Just faith** Stephan de Beer, 2018-12-01 The purpose of this scholarly book is to expand the body of knowledge available on urban theology It introduces readers to the concept of planetary urbanisation with the view of deepening an understanding of urbanisation and its all pervasive impact on the planet people and places from a theological perspective A critical theological reading of the urban is also provided deliberating on bridging the divide between voices from the Global South and the Global North In doing so this book simultaneously seeks out robust and dynamic faith constructs expressed in various forms and embodiments of justice The methodology chosen transcended narrow disciplinary boundaries situating reflections between and across disciplines in the interface between scholarly reflection and an activist faith as well as between local rootedness and global connectedness This was facilitated by the collected gathering of authors spanning all continents various Christian faith traditions and multiple

disciplines as well as a range of methodological approaches The book endeavours to contribute to knowledge production in a number of ways Firstly it suggests the inadequacy of most dominant faith expressions in the face of all pervasive forces of urbanisation and it also provides clues as to the possibility of fostering potent alternative imaginaries Secondly it explores a decolonial faith that is expressed in various forms of justice It is an attempt to offer concrete embodiments of what such a faith could look like in the context of planetary urbanisation Thirdly the book does not focus on one specific urban challenge or mode of ministry but rather introduces the concept of planetary urbanisation and then offers critical lenses with which to interrogate its consequences and challenges It considers concrete and liberating faith constructs in areas ranging from gender race economic inequality a solidarity economics and housing to urban violence indigeneity and urbanisation the interface between economic and environmental sustainability and grass roots theological education Clown of the City Stephan de Beer,2020-11-25 At opening this book everything one has learned or thought about urban ministry is challenged and changed Stephan de Beer offers a fresh exciting and thoroughly engaging approach The title is enticing and playful but the book is a serious grappling with the daunting realities of a shadowed marginalised urban life It does not theorise or pontificate about a concept The author is not a distant neutral observer He is an engaged minister to the people a struggler in their struggles prophet to the powerful This book invites the reader to join the people of the cities under siege by failed policies empty promises and disastrous politics in their struggles for meaningful life and it makes a powerful persuasive case Stephan de Beer has offered us a great gift and a wonderful opportunity to think and hope anew and differently about the life reality and future of the city Learning from All the Faithful Bradford E. Hinze,Peter C. Phan,2016-10-31 Do various members of the church regardless of their generation gender race sexual orientation country of origin and whatever their doubts are about official church teachings and policies have any role in determining safeguarding and assessing the authentic teaching and praxis of the faith of the church This has always been a haunting question in the life of the Christian church though only recently acknowledged because of the long standing role of male clergy of European descent with a Eurocentric outlook who held hierarchical offices and determined official doctrines and moral and disciplinary codes There have been controversies that bear on these matters over the course of the church s history But it has only been over the last fifty years that the question has received increasing attention among Roman Catholics in terms of the baptismal anointing of the Spirit that bestows the gift of the sense of the faith on individuals and the collective sense of the faithful This gift provides discerning skills to recognize receive and imaginatively and practically apply the living faith in history and society This book explores these issues from historical sociological systematic and theological ethical perspectives infused by the contributions of world Christianities Catholic Moral Theology and Social Ethics Christina Astorga,2013-12-01 Proposing a new method for moral theology Christina Astorga seeks to recast our understanding of the discipline by drawing from the faith vision of the entire theological enterprise including scripture dogmatic theology social ethics and spirituality **Asian**
