*Quarterly Bulletin* Hackley Public Library, 1915      Modern Poetry and the Christian Tradition Amos N.

Wilder, 2014-04-08 In Modern Poetry and the Christian Tradition Wilder examines this movement in poetry in relation to the direction in which our culture is moving He interprets the significance of modern poetry and shows its relation to the traditional He gives attention to the representative poets of our time including Dylan Thomas Gerard Manley Hopkins Allen Tate W H Auden Wallace Stevens T S Eliot and others he notes the wider implications of their work and assesses from them the impulses and trends of our age As a poet of considerable ability as a student of literary criticism for many years and as a teacher Wilder is in a position to know and understand his subject The result is a book of permanent value to all concerned with the deeper meanings of civilization and Christianity      Special Issue—Justification by Faith: A Historical Evaluation

Various, 2024-12-01 In this issue of *Affirmation* Heb 1 3 it is impossible to progress in our full salvation without the assurance and without the security that come with a proper realization and experience of justification by faith The faith that joins us to Christ as righteousness for our justification is the very faith that permeates and operates throughout all of God's salvation work in His believers 1 Tim 1 4 and thus a proper understanding of justification by faith sets us on the right path to the full salvation of our entire being Our hope is that in reading these accounts of the church's advancing understanding of justification by faith across the millennia our readers will come to the same appreciation and the same boldness that we have arrived at in writing these accounts      **LUTHER (Vol. 1-6)** Hartmann Grisar, 2020-07-15

Luther is a six volume biography of Martin Luther German professor of theology and the Church reformer famous for his Ninety five Theses of 1517 and recognized as a seminal figure in the Protestant Reformation The aim of the work was to present accurate historical and psychological portrait of Luther's personality which is still a mystery from many points of view While presenting Luther's psychological picture the author chooses to do so in Luther's own words analyzing his writings and letters Analyzing Luther's writings he opts not to write about Luther's teachings and the history of dogma but reaches deeper in his endeavor to supply an exact portrayal of Luther as a whole which should emphasize various aspects of his mind and character      **Bulletin**

*Volume 1, Selected Essays* Nicholas Wolterstorff, 2010-02-04 Inquiring about God is the first of two volumes of Nicholas Wolterstorff's collected papers. This volume collects Wolterstorff's essays on the philosophy of religion written over the last thirty-five years. The essays, which span a range of topics including Kant's philosophy of religion, the medieval or classical conception of God, and the problem of evil, are unified by the conviction that some of the central claims made by the classical theistic tradition, such as the claims that God is timeless, simple, and impassible, should be rejected. Still, Wolterstorff contends that rejecting the classical conception of God does not imply that theists should accept the Kantian view according to which God cannot be known. Of interest to both philosophers and theologians, *Inquiring about God* should give the reader a lively sense of the creative and powerful work done in contemporary philosophical theology by one of its foremost practitioners.

Beginning with masterful readings of Hume and Kant, he traces the genealogy of their postmetaphysical thinking through the main currents of historicism and German Idealism and the multifarious reactions to Hegel's influential system, culminating in nuanced readings of Marx, Kierkegaard, and Peirce. Through his analysis of their work, Habermas demonstrates the interpretive fecundity of the central themes of his philosophical enterprise: his pragmatist theory of meaning, his communicative theories of subjectivity and sociality, and his discursive theory of normativity in its moral, juridical, and political manifestations. In contrast to the bland compendia of thinkers and positions generally presented in surveys of the history of philosophy, Habermas's thematically focused interpretations are destined to provoke controversy and stimulate dialogue. With this work, one of the indisputably great thinkers of our time presents a powerful vindication of his conception of philosophy as an inherently discursive and not merely analytical or speculative enterprise      Christianity Harris Franklin Rall, 1940
