The Publishers Weekly ,2001 [Falun Gong Stories](#) Lance K. Culp, 2001 **Controversial New Religions** James R. Lewis, Jesper Aa. Petersen, 2014-07-16 In terms of public opinion new religious movements are considered controversial for a variety of reasons Their social organization often runs counter to popular expectations by experimenting with communal living alternative leadership roles unusual economic dispositions and new political and ethical values As a result the general public views new religions with a mixture of curiosity amusement and anxiety sustained by lavish media emphasis on oddness

and tragedy rather than familiarity and lived experience This updated and revised second edition of *Controversial New Religions* offers a scholarly dispassionate look at those groups that have generated the most attention including some very well known classical groups like The Family Unification Church Scientology and Jim Jones s People s Temple some relative newcomers such as the Kabbalah Centre the Order of the Solar Temple Branch Davidians Heaven s Gate and the Falun Gong and some interesting cases like contemporary Satanism the Raelians Black nationalism and various Pagan groups Each essay combines an overview of the history and beliefs of each organization or movement with original and insightful analysis By presenting decades of scholarly work on new religious movements written in an accessible form by established scholars as well as younger experts in the field this book will be an invaluable resource for all those who seek a view of new religions that is deeper than what can be found in sensationalistic media stories

Rituels Gilles Boëtsch, 2005 Tandis que le débat sur les rituels et les ritualisations tourna longtemps autour de la violence de la rigidité et de la stérilité un intérêt de plus en plus grand se manifeste aujourd'hui pour son caractère producteur de liens entre les individus les communautés et les cultures Les rituels sont saisis comme des mondes culturels performatifs Ils sont indispensables la pratique de la religion et de la politique mais aussi de l'économie et du droit autant qu'il l'art la science ou l'éducation Ils permettent d'ordonner et d'interpréter le monde de construire et de vivre les rapports humains Les rituels créent un lien entre histoire présent et avenir Ils fondent la continuité et la transformation des communautés ainsi que les expériences de transition et de transcendance Même en des temps où l'incohérence grandit l'ancrage des rituels dans le

monde vécu avec un contenu social, éthique et esthétique continue de garantir une certaine sécurité. Les textes de ce volume constituent une approche interdisciplinaire. Ils proviennent de l'anthropologie, l'histoire culturelle, l'ethnologie, la sociologie, la science politique, les sciences de l'information et de l'éducation. Ils mettent l'accent sur la production rituelle du public, le savoir rituel, la valeur pédagogique des rituels, les rituels et le langage du corps, les transformations des rituels.
