**Dig** A.S. King, 2020-06-30 Winner of the Michael L Printz Medal King's narrative concerns are racism patriarchy colonialism white privilege and the ingrained systems that perpetuate them Dig will speak profoundly to a generation of young people who are waking up to the societal sins of the past and working toward a more equitable future

Horn Book starred review I've never understood white people who can't admit they're white I mean white isn't just a color And maybe that's the problem for them White is a passport It's a ticket Five estranged cousins are lost in a maze of their family's tangled secrets Their grandparents former potato farmers Gottfried and Marla Hemmings managed to trade digging spuds for developing subdivisions and now they sit atop a million dollar bank account wealth they've refused to pass on to their adult children or their five teenage grandchildren Because we want them to thrive Marla always says But for the Hemmings cousins thriving feels a lot like slowly dying of a poison they started taking the moment they were born As the rot beneath the surface of the Hemmings white suburban respectability destroys the family from within the cousins find their ways back to one another just in time to uncover the terrible cost of maintaining the family name With her inimitable surrealism award winner A.S. **Ethnic Options** Mary C. Waters, 1990-08-09 Mary Waters' admirable study of Americans' ethnic choices produces a rich social scientific yield Its theoretical interest derives from the American irony that while ethnicity is supposed to be ascribed many Americans are active in choosing and making their ethnic memberships and identities The monograph is simultaneously objective and attentive to subjective meaning simultaneously quantitative and

qualitative and simultaneously sociological and psychological Her research problems are well conceived and her findings important and well documented As ethnicity and race continue in their high salience in American society and politics sound social scientific studies like this one are all the more valuable Neil Smelser co editor of *The Social Importance of Self Esteem* One of the most sensible and elegant books about ethnicity in the United States that has ever been my great pleasure to read Andrew M Greeley University of Chicago Skilled in both demographic and interviewing methods Mary Waters makes ethnicity in contemporary America come alive We learn how people construct their identities and why This is sociological research at its very best and will be of interest to policy makers and educated Americans as well as to students and scholars in several disciplines Theda Skocpol Harvard University Perhaps the most intriguing question in the study of the old European immigration is how the 4th 5th and later generations who are the offspring of several intermarriages are choosing their ethnic identities from the several available to them Professor Waters clever mix of quantitative and qualitative research has produced some thoughtful and eminently sensible answers to that question making her book required reading for students of ethnicity Her work should also interest general readers concerned with their or their children s ethnic identity or just curious about this yet little known variety of American pluralism Herbert J Gans Columbia University Waters has produced a work with broad theoretical implications The title may be regarded as one of the first serious attempts to understand the dynamics of postmodern societies Waters shows that ethnicity becomes transformed from ascriptive into an achieved status a voluntary construction of individual identity and group solidarity Waters also shows that in America at least this increased flexibility is unavailable to racial minorities Jeffrey C Alexander University of California Los Angeles A theoretically informed and theoretically driven fine grained analysis pooling ideas and issues in both ethnography and demography Stanley Lieberson Harvard University Thanks to *Ethnic Options* we have a much better understanding of the social and cultural significance of responses to the ancestry question on the 1980 census By combining in depth interviews with analysis of census data Mary Waters puts flesh on the demographic bare bones Her findings suggest that ethnicity is becoming less an ascribed trait fixed at birth than an option that depends on circumstance whim and increasingly the ethnicity of one s spouse Stephen Steinberg author of *The Ethnic Myth*      **Who's Your Hoosier Ancestor?** Mona Robinson, 1992-08-22 *Who's Your Hoosier Ancestor* is written by a Hoosier genealogist for Hoosiers and for the descendants of anyone who ever lived in Indiana Mona Robinson provides methods for locating elusive ancestors describing what records are available to the Indiana researcher where they can be found and how to use them most effectively Robinson details the many usual and unusual sources that can be employed in genealogical searches histories atlases directories maps and sources found in the home She offers helpful hints and clues explains the value of each type of record and the problems associated with using it Valid sources documentation primary and secondary sources and the many avenues of research are all detailed in this book written especially for Hoosier ancestor hunters      *No Family Tree* T.
