American Superrealism Jonathan Veitch,1997-11-01 Nathanael West has been hailed as an apocalyptic writer a writer on the left and a precursor to postmodernism But until now no critic has succeeded in fully engaging West s distinctive method of negation In American Superrealism Jonathan Veitch examines West s letters short stories screenplays and novels some of which are discussed here for the first time as well as West s collaboration with William Carlos Williams during their tenure as the editors of Contact Locating West in a lively American avant garde tradition that stretches from Marcel Duchamp to Andy Warhol Veitch explores the possibilities and limitations of dada and surrealism the use of readymades scatological humor human machines exquisite corpses as modes of social criticism American Superrealism offers what is surely the definitive study of West as well as a provocative analysis that reveals the issue of representation as the central concern of Depression era America

Folklore and the Fantastic in Nineteenth-Century British Fiction Jason Marc Harris,2016-04-15 Jason Marc Harris s ambitious book argues that the tensions between folk metaphysics and Enlightenment values produce the literary fantastic Demonstrating that a negotiation with folklore was central to the canon of British literature he explicates the complicated rhetoric associated with folkloric fiction His analysis includes a wide range of writers including James Barrie William Carleton Charles Dickens George Eliot Sheridan Le Fanu Neil Gunn George MacDonald William Sharp Robert Louis Stevenson and James Hogg These authors Harris suggests used folklore to articulate profound cultural ambivalence towards

issues of class domesticity education gender imperialism nationalism race politics religion and metaphysics Harris's analysis of the function of folk metaphysics in nineteenth and early twentieth century narratives reveals the ideological agendas of the appropriation of folklore and the artistic potential of superstition in both folkloric and literary contexts of the supernatural

The Republic of Cthulhu Eric Wilson, 2016 If parapolitics a branch of radical criminology that studies the interactions between public entities and clandestine agencies is to develop as an academic discipline then it must develop a coherent theory of aesthetics in order to successfully perform its primary function to render perceptible extra judicial phenomena that have hitherto resisted formal classification Wilson offers the work of H P Lovecraft 1890-1937 as an example of the relevance of subversive literature in this case cosmic horror and the weird tale to the parapolitical criminologist Cosmic horror is a form of writing that relies heavily upon the epistemological assumption of a radical and irreconcilable disjunction between appearance and reality perception and truth In many ways the well constructed weird tale strongly resembles the hard boiled detective story or the noir thriller in that the resolution of the narrative hinges upon a dramatically shattering confrontation with an unspeakable reality Apart from its obvious utilization of conspiracy theory the primary attraction of the Lovecraftian text lies with its remarkably sophisticated utilization of two central tropes of classical aesthetic theory the sublime and the grotesque Not only does Lovecraft's oeuvre represent a remarkable use of both of these motifs but the raw literary power of the Lovecraftian weird tale serves as an outstanding exemplar for the parapolitical scholar to emulate in formulating an alternative mode of discourse or poetics

War over Lemuria Richard Toronto, 2013-05-04 Life magazine described the Shaver Mystery as the most celebrated rumpus that rocked the science fiction world Its creators said it was a new wave in science fiction Critics called it dangerous nonsense and labeled its fans the lunatic fringe Whatever else the Shaver Mystery was it became a worldwide sensation between 1945 and 1948 one of the greatest controversies to hit the science fiction genre Today these stories of the remnants of a sinister ancient civilization living in caverns under the Earth are an all but forgotten sidebar to the historical record The Shaver Mystery began as a series of science fiction yarns in Amazing Stories nearly 70 years ago The men behind it Ray Palmer and Richard Shaver were derided and seldom understood by a fandom that did its best to sweep them under the carpet of history Though Ray Palmer was one of the earliest and biggest names in SF fandom credited with many firsts in his field his fannish brethren have roundly ignored him thanks to the Shaver Mystery What is the truth behind these men and their mystery This is the question writers and editors that promoted the Shaver Mystery try to answer as they reveal the behind the scenes story of the phenomenon known as Shaverism

The Heritage of Traditional Malay Literature V.I. Braginsky, 2022-06-20 Traditional literature or the deed of the reed pen as it was called by its creators is not only the most valuable part of the cultural heritage of the Malay people but also a shared legacy of Malaysia Indonesia Singapore and Brunei Malay culture during its heyday saw the entire Universe as a piece of literature written by the Creator with the Sublime Pen on the Guarded Tablet Literature was not just the creation of a scribe but a scribe himself imprinting words on the sheet of memory and thus shaping human personality This book the first comprehensive survey of traditional Malay literature in English since 1939 embraces more than a millennium of Malay letters from the vague data of the seventh century up to the early beginnings of the modern literatures in the late nineteenth century The long path trodden by traditional Malay literature is viewed in historical and theoretical perspectives as a development of integral system caused by cultural and religious changes primarily by gradual Islamization This changing system considered in the entirety of its genres and works is seen both externally and internally from the point of view of modern scholarship and through the examination of indigenous concepts of literary creativity poetics and aesthetics The book not only represents an original study based on a specific historico theoretical approach but it is also a complete reference work and an indispensable manual for students **The Presocratics after Heidegger** David C.
