Speaking of God Robert D. Cornwall, 2023-01-30 Theology is a complex subject with many subdisciplines and is known for thick volumes with dense prose This book bucks that trend but hitting the basics briefly but carefully In this 50th volume of the Topical Line Drives series theologian and church historian Dr Robert D. Cornwall provides a clear introduction to the basics His approach

is not to give you a set of beliefs about God but rather to provide you with an introductory foundation to the way Christians talk about God. Key concepts such as omnipotence, impassibility, transcendence, immanence, and yes, love, along with many others. The content is brief but carefully designed as a launching pad for further study. Read this book in order to make all your other theological reading more profitable. It will keep you from missing out because some of the basics were passed over or were obscured by extensive discussion. Besides individual reading, this volume is useful as an introductory reading in theology courses or for small groups in churches who would like to better understand their other curricula and more profitably discuss their ideas about God.

Theology and Religious Studies in Higher Education Darlene L. Bird, Simon G. Smith, 2009-03-22. A collection of essays by some of today's leading academics on the sometimes contentious relationship between religious studies and theology.

Redeeming Sin? Ernst M. Conradie, 2017-10-11. Can Christian sin talk be retrieved within the public sphere? In this contribution to ecotheology, Ernst M. Conradie argues that amid ecological destruction, discourse on sin can contribute to a multidisciplinary depth diagnosis of what has gone wrong in the world. He confronts some major obstacles related to the plausibility of sin talk in conversation with evolutionary biology, the cognitive sciences, and animal ethology. He defends an Augustinian insistence that social evil, rather than natural evil, is our primary predicament. If the root cause of social evil is sin, then a Christian confession of sin may yet yield good news for the whole earth.

The Christian Faith Michael Horton, 2011-01-04. Theology, the study of God, is a concern for every believer, not just theologians or those in ministry. It's the goal of good theology to humble us before the triune God of majesty as we come to understand him better. This is a book of and about good theology. Award-winning author, theologian, and professor Michael Horton wrote *The Christian Faith* as a book of systematic theology and doctrine that can be preached, experienced, and lived as well as understood, clarified, and articulated. It's written for a growing cast of pilgrims in ministry and laity who are interested in learning about Christ as a way of living as a Christian. Who understands that knowing doctrine and walking in practical Christianity are not competing interests? *The Christian Faith* is divided into six parts, five of which each focus on an aspect of God, while the first part sets up an understanding and appreciation for the task of theology itself, addressing topics like the source of theology, where the idea of theology comes from, and what its limits are. The origin of the canon, how the modern Bible came about, and why we can trust it. The character of theology is the nature of theology: practical, theoretical, or can it be both? In a manner equally as welcoming to professors, pastors, students, and armchair theologians, Horton has organized this volume in a readable fashion that includes a variety of learning features: a brief synopsis of biblical passages that inform certain doctrines; surveys of past and current theologies with contemporary emphasis on exegetical, philosophical, practical, and theological questions; substantial interaction with various Christian movements within the Protestant, Catholic, and Orthodox traditions, as well as the hermeneutical issues raised by postmodernity; charts, sidebars, questions for discussion; and an extensive bibliography divided into different entry levels and topics. At the heart of this book is a deep love for and

curiosity about God Its basic argument is that a personal relationship with God goes hand in hand with the pursuit of theology It isn't possible to know God without studying him

Analytic Theology and the Academic Study of Religion

William Wood, 2021-01-28 Analytic theology can flourish in the secular academy and flourish as authentically Christian theology Analytic Theology and the Academic Study of Religion explains analytic theology to other theologians and scholars of religion while simultaneously explaining those other fields to analytic theologians William Wood defends analytic theology from some common criticisms but also argues that analytic theologians have much to learn from other forms of inquiry Analytic theology is a legitimate form of theology and a legitimate form of academic inquiry and it can be a valuable conversation partner within the wider religious studies academy Analytic Theology and the Academic Study of Religion articulates an attractive vision of analytic theology fosters a more fruitful inter disciplinary conversation and enables scholars across the religious studies academy to understand one another better

The Bishop and the Apostle Edwina

Murphy, 2018-09-24 This study examines how Cyprian of Carthage the most significant bishop in the early Latin tradition appropriates the canonical Paul Cyprian like Paul is a pastoral theologian so his pastoral concerns provide a helpful lens through which to study his use of the apostle These include divine truth and eternal glory the church's unity ministry and sacraments discipline and repentance and wealth and welfare Examining Cyprian's use of Paul in these areas allows us to move beyond a simple literal allegorical paradigm to appreciate the wide range of reading strategies used by Cyprian model image maxim title contextual exegesis direct application prophetic fulfilment and qualification It also provides a different perspective on Paul than the one arrived at by privileging a handful of texts This study of Cyprian's appropriation of Pauline texts therefore illuminates the interplay between text context and theology in his exegesis It also deepens our understanding of the early North African hermeneutical tradition and the early reception of Paul

Let Your Voice Be Heard Joan Hebert

Reisinger, 2012-10-08 People are moving to the margins of the Catholic Church As one dialogue partner states I left the Church to beat the rush Yet another remarks I just wonder I have to ask who's on the margins I'm not sure Let Your Voice Be Heard details original practical theology research that endeavors to understand the dynamics on the margins of the Roman Catholic Church in dialogue with fifty dialogue partners from across the United States Practical theology the theology of marginality of Jung Young Lee reciprocal ethnography and the communication theory of Mikhail Bakhtin join in a cross disciplinary dialogue In conversation with dialogue partners Joan Hebert Reisinger seeks the reasons why Catholics over the age of twenty one who were once active and involved in the Catholic Church find themselves on the margins of the Church and how they understand their own marginality The dialogue partners speak of new ways of being Church emerging on the margins This emerging Church is marked by inclusive relationships that include dialogue that does not seek agreement or consensus a critical and thoughtful recalling of memories and narratives of the Catholic faith tradition and appropriation of these in new and creative ways

What Is Theology? Michael Horton, 2012-06-12

Every seminary in the world offers classes

on Christian theology but what at its core is theology Is it a practical or theoretical discipline Is it centrally a matter of faith or of reason What are its proper means and ends Derived from Michael Horton's recently released *The Christian Faith* already one of the most significant systematic theologies of the past 50 years this digital short explores the discipline of theology through the lens of philosophy Scripture ministry and the church laying a foundation for pursuing theology as hearing wisdom understanding and more Theology serves the function of articulating the identity of this God so that he may be properly invoked Horton writes This short work constructs a conceptual framework for pastors theologians and students wanting to think more deeply about the foundational discipline of Christian thought and practice **A Thematic**

Access-Oriented Bibliography of Jesus's Resurrection Michael J. Alter, 2019-12-31 The keystone of Christianity is Jesus's physical bodily resurrection Present day scholars can be significantly challenged as they forage through voluminous documents on the resurrection of Jesus The literature measures well over seven thousand sources in English language books alone This makes finding specific sources that are most relevant for specific scholarly purposes an arduous task Even when a specific book is relevant finding the parts of the book that are most relevant to the resurrection rather than other topics often requires additional effort A Thematic Access Oriented Bibliography of Jesus's Resurrection addresses these challenges in several ways First the bibliography organizes more than seven thousand English sources into twelve main categories and then thirty four subcategories which are designed to help you find the most relevant literature quickly and efficiently Embedded are pro and con arguments which support efficient access through brief annotations and then annotate the diversity and complexity of the field of religion by including sources that represent a diverse range of views theistic e.g. Christian Jewish Muslim etc agnostic and nontheistic The objective of this bibliography is to provide convenient access to relevant sources from a variety of perspectives allowing you to browse or find the one source accurately and with ease

Blessed Victors Ruth Sutcliffe, 2024-07-25 The late second through third centuries saw the remarkable confluence of the early church's developing identity theological understanding and praxis with a period of opposition and intermittent persecution from the world around it Theology necessarily engaged with the persecution experience as the church considered the goodness and providence of God the Name to be confessed and the purposeful outcome of the antagonism they faced Ruth Sutcliffe argues that the early fathers' theological understanding of the role of persecution in the Christian life informed their exhortations to individual and communal response contributing to the church's remarkable survival and growth through this period Four great thinkers of this era Clement and Origen of Alexandria and Tertullian and Cyprian of Carthage each have much to contribute to a theological understanding of Christian persecution and Sutcliffe explores their widely different perspectives intellectual milieu and experiences She explains these differences and similarities in terms of their use of the Scriptures in conversation with their own contexts and agendas concluding that their differences in approach to persecution can be explained theologically and that these differences offer a unique window into their respective thought

Despite such differences Sutcliffe stresses that the early church did have a fundamentally coherent theology of persecution which speaks to the worldwide church today **Practical Theology** Joanna Z. Ray,2007-06-25 Through societal inequalities and the misuse of power a psychological burden of disablement is imposed upon people of faith with epilepsy this disempowerment is challenged by this work and an attempt has been made to highlight distorted applications of scripture and practice *A Manual for Creating Atheists* Peter Boghossian,2014-07-01 For thousands of years the faithful have honed proselytizing strategies and talked people into believing the truth of one holy book or another Indeed the faithful often view converting others as an obligation of their faith and are trained from an early age to spread their unique brand of religion The result is a world broken in large part by unquestioned faith As an urgently needed counter to this tried and true tradition of religious evangelism *A Manual for Creating Atheists* offers the first ever guide not for talking people into faith but for talking them out of it Peter Boghossian draws on the tools he has developed and used for more than 20 years as a philosopher and educator to teach how to engage the faithful in conversations that will help them value reason and rationality cast doubt on their religious beliefs mistrust their faith abandon superstition and irrationality and ultimately embrace reason How to Study Global Christianity Jason Bruner,2022-10-16 This book provides students with an accessible yet critically oriented introduction to the foundational methods and themes in Global Christianity scholarship over the past 40 years While the field of Global Christianity is itself interdisciplinary it largely has not reflected upon the various disciplines of which it is comprised In addressing different methods that have constituted this field of scholarship Jason Bruner draws students attention to the ways in which these elements have worked together and what the implications for their use have been in the past and might be in the future In addition to identifying themes within the discourse this book offers a survey of where the field has been what its analytical priorities are and how future scholars might develop new research projects and trajectories in light of the its history **Freedom, Necessity, and the Knowledge of God** Paul D. Molnar,2021-12-30 Paul D Molnar discusses issues related to the concepts of freedom and necessity in trinitarian doctrine He considers the implications of non conceptual knowledge of God by comparing the approaches of Karl Rahner and T F Torrance He also reconsiders T F Torrance s new natural theology and illustrates why Christology must be central when discussing liberation theology Further he explores Catholic and Protestant relations by comparing the views of Elizabeth Johnson Walter Kasper and Karl Barth as well as relations among Christians Jews and Muslims by considering whether it is appropriate to claim that all three religions should be understood to be united under the concept of monotheism Finally he probes the controversial issues of how to name God in a way that underscores the full equality of women and men and how to understand universalism by placing Torrance and David Bentley Hart into conversation on that subject The Sunday Assembly and Theologies of Suffering Katie Cross,2020-07-05 This book draws on a study of the Sunday Assembly a godless congregation to reflect on how the Church might better deal with suffering lament and theodicy Against a backdrop of a

shifting attitudes towards religion humans are now better connected than ever before It is no exaggeration to suggest that we carry the suffering of the world in our pockets In the midst of these intersecting issues the Sunday Assembly provides insight into how meaning making in times of trauma and crisis is changing Drawing on practical theology and using ethnographic tools of investigation this book includes findings from interviews and observation with the Sunday Assembly in London and Edinburgh It explores the Sunday Assembly's philosophy of celebrating life and what this means in practice At times this emphasis on celebration can result in situations where suffering is passed over or only briefly acknowledged In response this book considers a similar tendency within white Protestant churches to avoid explicit discussion of difficult issues This book challenges churches to consider how they might resist the avoidance of suffering through the practice of lament The insights provided by this book will be of particular interest to scholars of Religious Studies Practical Theology Secularism and Atheism Non religion

Theology as Construction of Piety David T. Ngong, 2013-12-10 This book argues that a primary purpose of theological discourses is to construct piety or spirituality If this is the case theologians need to constantly inquire into the kind of piety or spirituality which their work may construct Drawing from some important moments in the development of Christian theology such as the development of the Christian doctrine of God in the early church the role of material things in the Christianity of medieval Europe some elements of contemporary postliberal theology and the theology of inculturation in Africa the book argues that theological discourses that appear to be orthodox and innocuous may actually construct forms of piety that may diminish human flourishing The book therefore calls for an ethics of theology intended to ensure that the theologies we construct help in developing a piety that is conducive to human flourishing in the modern world especially for Africans who have suffered and continue to suffer unspeakable dehumanization The book proposes that a theology that may contribute to the flourishing of Africans in the modern world is one that constructs an interdisciplinary spirituality that takes both the spiritual and the scientific seriously
