**Rethinking Thought** Laura Otis, 2015-10-09 Rethinking Thought takes readers into the minds of 30 creative thinkers to show how greatly the experience of thought can vary It is dedicated to anyone who has ever been told You're not thinking because his or her way of thinking differs so much from a spouse's employer's or teacher's The book focuses on individual experiences with visual mental images and verbal language that are used in planning problem solving reflecting remembering and forging new ideas It approaches the question of what thinking is by analyzing variations in the way thinking feels Written by neuroscientist turned literary scholar Laura Otis Rethinking Thought juxtaposes creative thinkers insights with recent neuroscientific discoveries about visual mental imagery verbal language and thought Presenting the results of new interview based research it offers verbal portraits of novelist Salman Rushdie engineer Temple Grandin American Poet Laureate Natasha Trethewey and Nobel prize winning biologist Elizabeth Blackburn It also depicts the unique mental worlds of two award winning painters a flamenco dancer a game designer a cartoonist a lawyer novelist a theoretical physicist and a creator of multi agent software Treating scientists and artists with

equal respect it creates a dialogue in which neuroscientific findings and the introspections of creative thinkers engage each other as equal partners The interviews presented in this book indicate that many creative people enter fields requiring skills that don't come naturally Instead they choose professions that demand the hardest work and the greatest mental growth Instead of classifying people as visual or verbal educators and managers need to consider how thinkers combine visual and verbal skills and how those abilities can be further developed By showing how greatly individual experiences of thought can vary this book aims to help readers in all professions better understand and respect the diverse people with whom they work
