ICPMG2014 - Physical Modelling in Geotechnics Christophe Gaudin, David White, 2019-01-08 The 8th International Conference on Physical Modelling in Geotechnics ICPMG2014 was organised by the Centre for Offshore Foundation Systems at the University of Western Australia under the auspices of the Technical Committee 104 for Physical Modelling in Geotechnics of the International Society of Soil Mechanics and Geotechnical Engineering This quadrennial conference is the traditional focal point for the physical modelling community of academics scientists and engineers to present and exchange the latest developments on a wide range of physical modelling aspects associated with geotechnical engineering These proceedings together with the seven previous proceedings dating from 1988 present an inestimable collection of the technical and scientific developments and breakthroughs established over the last 25 years These proceedings include 10 keynote lectures from scientific leaders within the physical modelling community and 160 peer reviewed papers from 26 countries They are organised in 14 themes presenting the latest developments in physical modelling technology modelling techniques and sensors through a wide range of soil structure interaction problems including shallow and deep foundations offshore geotechnics dams and embankments excavations and retaining structures and slope stability Fundamental aspects of earthquake engineering geohazards ground reinforcements and improvements and soil properties and behaviour are also covered demonstrating the increasing complexity of modelling arising from state of the art technological developments and increased understanding of similitude principles A special theme on education presents the latest developments in the use of physical modelling techniques for instructing undergraduate and postgraduate students in geotechnical engineering

Preparation and Development of School Leaders in Africa Pontso Moorosi, Tony Bush, 2019-11-28 The book is based on African research and reviews on school leadership preparation and development taking stock of where the field is in this geographical region and what lies ahead The exclusive focus on sub Saharan African countries is driven by the desire to foreground African experiences highlighting gaps and asking critical questions about contextually relevant models of leadership that can drive towards improved educational outcomes for African children The countries explored include Botswana Cameroon Ghana Kenya Lesotho Namibia Nigeria South Africa and Tanzania Written by a collective of seasoned researchers with extensive experience in the field and on the continent this volume is timely as the field is in need of serious political attention For these reasons the book is an important resource for policy makers school leaders and other practitioners students educators of school leadership preparation programmes as well as researchers in the field on the continent and the diaspora [GK GENERAL AWARENESS MULTI TASKING STAFF MULTIPLE CHOICE QUESTIONS](#) Mocktime Publication, GK GENERAL AWARENESS MULTI TASKING STAFF MULTIPLE CHOICE QUESTIONS keywords ssc central police forces cpo capf ssc combined graduate level cgl combined higher secondary level exam chsl 10 2 level exam ssc ldc udc data entry operator exam ssc mts matriculation level exam ssc je civil mechanical electrical engineering exam ssc

The Training of African Teachers in Natal from 1846-1964 Nicolas Schicketanz, 2024-06-07 The history of African teacher training in Natal is one of the most neglected and under researched aspects of educational history This book attempts to set out the administrative history of this field as a first step in stimulating the further research that is so urgently needed Print edition not for sale in Sub Saharan Africa

Unsaturated Soils: Research & Applications Nasser Khalili, Adrian Russell, Arman Khoshghalb, 2014-06-05 Unsaturated Soils Research and Applications contains 247 papers presented at 6th International Conference on Unsaturated Soils UNSAT2014 Sydney Australia 2 4 July 2014 The two

volumes provide an overview of recent experimental and theoretical advances in a wide variety of topics related to unsaturated soil mechanics

Unsaturated Soil Behavior Poul V. Lade, 2016-03-09

Triaxial Testing of Soils Poul V. Lade, 2016-03-09

Triaxial Testing of Soils explains how to carry out triaxial tests to demonstrate the effects of soil behaviour on engineering designs. An authoritative and comprehensive manual, it reflects current best practice and instrumentation. References are made throughout to easily accessible articles in the literature, and the book's focus is on how to obtain high quality experimental results.

Foundation Engineering for Expansive Soils John D. Nelson, Kuo Chieh Chao, Daniel D. Overton, Erik J. Nelson, 2015-02-10

Your guide to the design and construction of foundations on expansive soils. Foundation Engineering for Expansive Soils fills a significant gap in the current literature by presenting coverage of the design and construction of foundations for expansive soils. Written by an expert author team with nearly 70 years of combined industry experience, this important new work is the only modern guide to the subject, describing proven methods for identifying and analyzing expansive soils and developing foundation designs appropriate for specific locations. Expansive soils are found worldwide and are the leading cause of damage to structural roads. The primary problem that arises with regard to expansive soils is that deformations are significantly greater than in non-expansive soils, and the size and direction of the deformations are difficult to predict. Now Foundation Engineering for Expansive Soils gives engineers and contractors coverage of this subject from a design perspective rather than a theoretical one. Plus, they'll have access to case studies covering the design and construction of foundations on expansive soils from both commercial and residential projects. Provides a succinct introduction to the basics of expansive soils and their threats. Includes information on both shallow and deep foundation design. Profiles soil remediation techniques backed up with numerous case studies. Covers the most commonly used laboratory tests and site investigation techniques used for establishing the physical properties of expansive soils. If you're a practicing civil engineer, geotechnical engineer, or contractor, geologist, structural engineer, or an upper level undergraduate or graduate student of one of these disciplines, Foundation Engineering for Expansive Soils is a must-have addition to your library of resources.

Handbook of Career Development Gideon Arulmani, Anuradha J. Bakshi, Frederick T. L. Leong, A. G. Watts, 2014-02-08

This book is focused on work occupation and career development themes that are fundamental to a wide range of human activities and relevant across all cultures. Yet theorizing and model building about this most ubiquitous of human activities from international perspectives have not been vigorous. An examination of the literature pertaining to career development, counseling, and guidance that has developed over the last fifty years reveals that theorizing and model building have been largely dominated by Western epistemologies. Some of the largest workforces in the world are in the developing world. Career guidance is rapidly emerging as a strongly felt need in these contexts. If more relevant models are to be developed, frameworks from other cultures and economies must be recognized as providing constructs that would offer a deeper understanding of career development. This does not mean that existing ideas are to be discarded. Instead, an integrative

approach that blends universal principles with particular needs could offer a framework for theorizing research and practice that has wider relevance The central objective of this handbook is to draw the wisdom and experiences of different cultures together to consider both universal and specific principles for career guidance and counseling that are socially and economically relevant to contemporary challenges and issues This book is focused on extending existing concepts to broader contexts as well as introducing new concepts relevant to the discipline of career guidance and counseling

University Access and Success Merridy Wilson-Strydom,2015-02-11 The challenge of widening access and participation in higher education in a manner that ensures students are successful in their studies is a major issue globally and a significant research focus within higher education studies and higher education policy Similarly the challenge of under preparedness of students entering higher education has become increasingly pertinent as universities in both developed and developing countries struggle to improve their throughput rates in a context in which schooling no longer seems to provide sufficient preparation for entering university In this book Merridy Wilson Strydom applies the capabilities approach to better understand university access and participation and draws on a rich case study from South Africa to critically and innovatively explore the complex and contradictory terrain of access with success The book integrates quantitative and qualitative research with theory and practical application to provide a new framework for considering and improving the transition from school to university University Access and Success will appeal to academics and researchers in the field of higher education internationally The book also contributes to the growing body of international and comparative scholarship on the capabilities approach in higher education and will therefore be of value to higher education practitioners such as those working in the promotion of teaching and learning higher education quality assurance institutional research and student affairs

Symonds,2021-01-18 The school to work transition is a critical part of the human life span for young adults their families and society The timing of the transition varies greatly and its co occurrence with a number of other life transitions make it challenging to summarize or generalize Individual differences and normative developmental factors as well as external contextual factors such as global pandemics changing economic circumstances workplace demands and cultural shifts intersect to create a range of challenges and opportunities for those navigating this transition Written by internationally renowned scholars in developmental psychology applied psychology counseling and sociology the chapters in this book highlight the trends issues and actions that researchers academics practitioners and policy makers need to consider in order to effectively support young adults transition to work pathways This volume provides an explicitly international perspective on this area broad coverage of psychological topics on the school to work transition and an inclusive focus on sub groups and minority groups making it a must read for those who support young adults as they move from school to work

Youth Unemployment Scenarios Maximilian Matschke,2022-10-27 This book examines the factors driving youth unemployment in South Africa exploring potential future outcomes of its mass unemployment and offering a variety of strategies to avoid an impending crisis in the country Utilizing scenario analysis rooted in complex systems theory while building on statistical and field research the author illustrates four possible future states of youth employment in South Africa in the year 2040 This

includes the South African version of the Arab Spring where young people riot or agitate for extreme political and social change because of a belief that access to education and jobs is only possible through social status or corruption Spring fair access to a high number of jobs supported by Chinese interventions Summer a technology driven decline in the number of jobs where merit based access for youth is granted Fall and the collapse of the economy with the economy collapsing and youth becoming increasingly desperate Winter The author then presents five strategies to fight youth unemployment including training of youth to start businesses stimulating small and medium sized enterprises and sending unemployed youth abroad for skills development and to where their labour is needed This book will be of interest to scholars of South African politics and economics labour economics and youth studies and readers with an interest in tackling youth unemployment independent of the country
