The Golden Book of Chemistry Experiments, 2021-07-24 The Golden Book of Chemistry Experiments was a children's chemistry book written in the 1960s by Robert Brent and illustrated by Harry Lazarus and published by Western Publishing in their Golden Books series Many of the experiments contained in the book

are now considered highly dangerous for unsupervised children and would not appear in a modern children's chemistry book. Only 126 copies of this book exist in libraries worldwide. The book was a source of inspiration to David Hahn, nicknamed the Radioactive Boy Scout by the media, who tried to collect a sample of every chemical element and also built a model nuclear reactor which led to the involvement of the authorities. This book is now considered quite RARE and a Scientific Gem, and so we are happy to have made this available for print. Vol I here is for grades K-2 and older beginning science learners. Volumes II and III are for grades 3-5 and 6-8 and older progressing science learners. BFSU provides both teaching methodologies and detailed lesson plans embracing and integrating all the major areas of science. BFSU lessons follow structured learning progressions that build knowledge and develop understanding in systematic incremental steps. BFSU lessons all center around hands-on experience and real-world observations. In turn, they draw students to exercise their minds in thinking and drawing rational conclusions from what they observe. Experience. Therefore, in following BFSU, students will be guided toward conceptual understanding of crosscutting concepts and ideas of science as well as factual knowledge, and they will develop mind skills of scientific thinking and logical reasoning in the process. Implementing BFSU requires no particular background in either science or teaching. Teachers, parents, can learn along with their children and be excellent role models in doing so. Already widely used and acclaimed in its 1st edition, from this second edition of BFSU contains added elements that will make it more useful in bringing students to master the Next Generation Science Standards (NGSS).
