Civics Guide For 10 Class:

Civic Education for the Foreign-born in the United States United States. Immigration and Naturalization Service,1945 The life of a democracy is dependent in a major sense upon the education of its people The public schools of America have been entrusted with the development of a program of education to safeguard and improve our democracy Boys and girls living in America growing up in the American home the American school and the environment of an American community accept rather naturally even though imperfectly the responsibility of citizenship The foreign born have not had the opportunity to grow up under similar environmental conditions It follows therefore that instruction in citizenship is highly desirable and essential for many who come to our country and who want to become an integral part of its society This pamphlet Civic Education for the Foreign Born was prepared at the request of the president of the American Association of School Administrators in order to bring before the members of that association and others the important educational job yet to be done That job is primarily the responsibility of public education Naturalization is a vital function The nationality laws place upon the Immigration and Naturalization Service responsibilities that make it highly desirable for its officials to work very closely with the public school leaders in the educational work This pamphlet is one evidence of this cooperative relationship
