Confrontations Jacques Vallee, 2015-06-01 ASCIENTIFICDETECTIVESTORY In *Confrontations* the second volume of his Alien Contact Trilogy Dr Jacques Vallee personally investigates forty astonishing UFO cases from around the world He finds it shocking that professional scientists have never seriously examined this material This book is about the hopes experiences and the frustrations of a scientist who has gone into the field to investigate a bizarre seductive and often terrifying phenomenon reported by many witnesses as a contact with an alien form of intelligence Dr Jacques Vallee was born in France where he received a Bachelor of Science degree in mathematics from the Sorbonne and a Master of Science in astrophysics from the University of Lille He began his professional life as an astronomer at the Paris Observatory in 1961 While on the staff of the French Space Committee he witnessed the destruction of the tracking tapes of unknown objects orbiting the earth initiating a lifelong interest in the UFO phenomenon Vallee arrived in the U S in 1962 worked in astronomy at the University of Texas at Austin and wrote two highly respected scientific examinations arguing for the Extraterrestrial Hypothesis ETH of UFO origins In 1967 he received a Ph D in computer science from Northwestern University where he became a close associate of J Allen Hynek then scientific consultant for the U S Air Force on Project Blue Book Eventually concluding that the ETH was too narrow to encompass the burgeoning UFO data he conducted his own extensive global research resulting in the Alien Contact Trilogy Dr Vallee is presently a venture capitalist living in San Francisco His website is www.jacquesvallee.com

Contact with Extraterrestrial Intelligence and Human Law Michael Bohlander, 2023-08-07 It is statistically unlikely that humans are the only intelligent species in the universe Nothing about the others will be known until contact is made beyond a radio signal from space that merely tells us they existed when it was sent That contact may occur tomorrow in a hundred years or never If it does it will be a high risk scenario for humanity It may be peaceful or hostile Relying on alien altruism and benign intentions is wishful thinking We need to begin identifying as a planetary species and develop a global consensus on how to respond in either scenario

Extraterrestrial Legacies of God, Jesus, and the Angels Raphael-Seraphin Kutota Basisa,2024-01-03 About the Book In some way or form this book is unassumingly a nicer and a more logical organization and interpretation of compounding existing religious writings from a variety of walks of life Herein they are presented as proof drawn synthetically from those multitude of intellectual sources written over the last 4 000 years evidencing that the central figure of the persona translated as the reincarnation of almighty God of Israel himself in Christian literature is simply another Extraterrestrial Alien visiting Planet Earth for a purpose Another visitor just like those well known Anunnaki the Elohim the Nephilim the Sons of God the Watchers the renegade Angels or other entities over several millennia ago And in the many ways how it is related to the current humanity s most pressing problem of whether we are alone and unique in the Cosmos as it is linked to the much witnessed UFO encounters phenomenon It also well outlined the latent consequences resulting from what is presented as postulate About the Author Raphael Seraphin Kutota Basisa currently resides in Lynn Massachusetts He would consider himself a futurist a researcher a world s concerned citizen and a great human being He is a chemical engineer by training and earned an MBA and an ABD in Applied Management and Public Policy He has written and published several technical and non technical documents commentaries articles papers and other books along the subjects of his expertise He believes in extraterrestrial life in regard to religion Basisa is a person whose research helped to recognize early on the theory that we are all descendants of Extraterrestrials and Cosmic religiosity should be recognized in modern theology

UFOs Cryptids and the Bible Anthony Lynn Myers,2023-03-28 With the current soft disclosure of UFO UAP activity by governments across the world and the explosion of television programs on ancient alien astronauts ghost hunting and cryptids there has been a significant impact to the Christian faith The Church of Jesus Christ can remain silent no longer This book addresses these paranormal activities from a Biblical worldview giving much needed answers **Authors of the Impossible** Jeffrey J. Kripal,2011-09-16 Outstanding and almost certainly controversial Kripal has promise to revitalize and extend the reach of religious studies Choice Most scholars dismiss research into the paranormal as pseudoscience a frivolous pursuit for the paranoid or gullible Even historians of religion whose work naturally attends to events beyond the realm of empirical science have shown scant interest in the subject But the history of psychical phenomena Jeffrey J Kripal contends is an untapped source of insight into the sacred and by tracing that history through the last two centuries of Western thought we can see its potential centrality to the critical study of religion Kripal grounds his study in the work of four major figures in the history of paranormal research psychical researcher Frederic Myers writer and humorist Charles Fort astronomer computer scientist and ufologist Jacques Vallee and philosopher and sociologist Bertrand M heust Through incisive analyses of these thinkers Kripal ushers the reader into a beguiling world somewhere between fact fiction and fraud The cultural history of telepathy teleportation and UFOs a ghostly love story the occult dimensions of science fiction cold war psychic espionage galactic colonialism and the intimate relationship between consciousness and culture all come together in Authors of the Impossible a dazzling and profound look at how the paranormal bridges the sacred and the scientific An excellent book engaging witty and thoughtful Christopher Partridge Lancaster University Kripal demands nothing short of a paradigm shift in order to make sense of the odd the anomalous and the inexplicable Catherine L Albanese University of California Santa Barbara Quietly earth shattering Victoria Nelson author of *The Secret Life of Puppets* *Cracks in the Great Wall* Charles Upton,2005 Can we really know what UFO s are The answer is Yes but only if we study them armed with a kind of knowledge that explains the true and complete structure of the universe spiritual psychic and material a knowledge that only traditional

metaphysics can provide Science can supply one piece of the puzzle detective work another psychic investigation still another But only metaphysics can put the puzzle together and give us a complete and satisfying picture of the UFO phenomenon Cracks in the Great Wall analyzes of the findings of UFO researcher Jacques Vallee and some of his colleagues in light of the teachings of Ren Gunon particularly as expressed in his prophetic masterpiece The Reign of Quantity and the Signs of the Times According to Gunon one of the signs of the End Times is the erosion of the energy barrier or Great Wall between the material plane and the world of subtle realities which is why our world is now being invaded by infra psychic forces of a terribly destructive nature Author Charles Upton shows how one of the most obvious examples of this invasion is the UFO phenomenon including the experience of alien abduction A lifetime student of comparative religion and mysticism he explains the true nature of UFOs the quality of the world they come from and also something about the agenda these beings or some of them are trying to impose upon our world If you want to remain merely mystified or fascinated by the UFO phenomenon this book is not for you But if you want to understand it Cracks in the Great Wall will give you the conceptual tools you need With the help of UFOlogists Jacques Vallee and John E Mack Christian writers C S Lewis and Seraphim Rose Kaballah authority Leo Schaya and traditionalist writers Ren Gunon and Whitall Perry Charles Upton has provided the most comprehensive explanation of the UFO phenomenon yet written It is difficult to be objective in areas outside our collective view of reality but if as the author contends his argument is based on sound principles it deserves serious consideration by all who are interested in the UFO phenomenon and its effect on our world Charles Upton is a serious writer from whom I have learned much His writing deserves close attention Prof Huston Smith author of The World s Religions etc The Myth and Mystery of UFOs Thomas E. Bullard, 2016-10-17 When United Airlines workers reported a UFO at O Hare Airport in November 2006 it was met with the typical denials and hush up that usually accompany such sightings But when a related story broke the record for hits at the Chicago Tribune s website it was clear that such unexplained objects continued to occupy the minds of fascinated readers Why wonders Thomas Bullard don t such persistent sightings command more urgent attention from scientists scholars and mainstream journalists The answer in part lies in Bullard s wide ranging magisterial survey of the mysterious frustrating and ever evolving phenomenon that refuses to go away and our collective efforts to understand it In his trailblazing book Bullard views those efforts through the lens of mythmaking discovering what UFO accounts tell us about ourselves our beliefs and the possibility of visitors from beyond Bullard shows how ongoing grassroots interest in UFOs stems both from actual personal experiences and from a cultural mythology that defines such encounters as somehow alien and how it views relentless official denial as a part of conspiracy to hide the truth He also describes how UFOs have catalyzed the evolution of a new but highly fractured belief system that borrows heavily from the human past and mythic themes and which UFO witnesses and researchers use to make sense of such phenomena and our place in the cosmos Bullard s book takes in the whole spectrum of speculations on alien visitations and abductions magically advanced

technologies governmental conspiracies varieties of religious salvation apocalyptic fears and other paranormal experiences Along the way Bullard investigates how UFOs have inspired books movies and television series blurred the boundaries between science science fiction and religion and crowded the Internet with websites and discussion groups From the patches of this crazy quilt he posits evidence that a genuine phenomenon seems to exist outside the myth Enormously erudite and endlessly engaging Bullard s study is a sky watcher s guide to the studies stories and debates that this elusive subject has inspired It shows that despite all the competing interests and errors clouding the subject there is substance beneath the clutter a genuinely mysterious phenomenon that deserves attention as more than a myth

A Guidebook to Monsters Ryan J. Stark,2024-02-23 Ryan J Stark surveys the classic monsters in great literature and film television the Bible and perhaps unexpectedly the world in which we live Monsterdom is real Stark observes but often hidden beneath the concealment spell of modern secular thought This guidebook aims to break that spell and if so to confirm once more a world that brims with high strangeness or what Christian philosophers have always called reality The book appeals to those who study the paranormal dimensions of religion and horror broadly imagined The clergy will also find it helpful as will players of monster riddled video games
