Conscience P. D. Ouspensky, 1979 *Conscience* Petr Dem'ianovich Uspenskiĭ, Merrily E. Taylor, 1988 These five essays were originally printed for private distribution between 1952 and 1955 The first four essays were constructed from transcripts of Ouspensky's meetings the fifth is culled from Ouspensky's Notes on Decision to Work Notes on Work n Oneself and What is School **Teaching Interpersonal Skills** Philip Burnard, 2013-12-14 **Liberty of Conscience** Martha Nussbaum, 2008-02-05 In one of the great triumphs of the colonial and Revolutionary periods the founders of the future United States overcame religious intolerance in favor of a constitutional order dedicated to fair treatment for people's deeply held conscientious beliefs It granted equal liberty of conscience to all and took a firm stand against religious establishment This respect for religious difference acclaimed scholar Martha Nussbaum writes formed our democracy Yet today there are signs that this legacy is misunderstood The prominence of a particular type of Christianity in our public life suggests the unequal worth of citizens who hold different religious beliefs or no beliefs Other people meanwhile seek to curtail the influence of religion in public life in a way that is itself unbalanced and unfair Such partisan efforts Nussbaum argues violate the spirit of our Constitution Liberty of Conscience is a historical and conceptual study of the American tradition of religious freedom Weaving together political history philosophical ideas and key constitutional cases this is a rich chronicle of an ideal of equality that has always been central to our history but is now in serious danger **The Eureka Principle** Colin Turner, 1995 Aimed at both the business and personal development markets this book challenges readers to re-examine their existing perceptions and thereby open the door to greater achievement and success Written by the author of Born to Succeed it combines Eastern philosophy with contemporary Western experience **Acquiring Interpersonal Skills** Philip Burnard, 2013-11-21 The Jury and the Search for Truth United States. Conscience and Its Enemies Robert P. George, 2023-06-27

Assaults on religious liberty and traditional morality are growing fiercer. Here at last is the counterattack. This revised and updated paperback edition of the acclaimed *Conscience and Its Enemies* showcases the talents that have made Robert P. George one of America's most influential thinkers. Here George explodes the myth that the secular elite represents the voice of reason. In fact, it is on the elite side of the cultural divide where the prevailing views are little more than articles of faith. *Conscience and Its Enemies* reveals the bankruptcy of these too often smugly held orthodoxies while presenting powerfully reasoned arguments for classical virtues. In defending what James Madison called the sacred rights of conscience—rights for which government shows frightening contempt—George grapples with today's most controversial issues: same-sex marriage, abortion, transgenderism, genetic manipulation, euthanasia, and assisted suicide; religion in politics; judicial activism; and more. His brilliantly argued essays rely not on theological claims or religious authority but on established scientific facts and a philosophical tradition that extends back to Plato and Aristotle. *Conscience and Its Enemies* sets forth powerful arguments that secular liberals are unaccustomed to hearing and that embattled defenders of traditional morality so often fail to marshal.

Teaching Critical Thinking in the Context of Political Rhetoric Joseph Sanacore, 2021-11-15. During the past several decades, there has been a blitz of information, sometimes referred to as the knowledge explosion, and students have struggled in their attempts to distinguish true, fake, and terribly biased information, especially regarding political issues. This book highlights the value of critical thinking as a way to navigate this difficult and frustrating terrain so that students grow and develop as knowledgeable, independent thinkers. To promote this growth, the book offers thoughtful, evidence-based advice for teachers to support students' deep thinking as it relates to real-world contexts. Strategies presented include student reflection based on experience, moving from narrow to broader perspectives, and using graphic organizers to build and activate knowledge before, during, and after instructional activities. With the instructional guidance and activities presented in this short, easy-to-apply volume, teachers can give students the tools they need to negotiate the often murky waters of political communication.

Lives of Mississippi Authors, 1817-1967 James B. Lloyd, 1981 *Truth Seeker*, 1895 **Whitaker's Book List**, 1988 **British Book News** British Council, 1988. Includes no. 53a: British wartime books for young people.
