

COMPOSITE CLASSIFY

COMPOSITE CLASSIFY is a tool that can be used to create composite images of faces from a set of input images. It is designed to be used by law enforcement agencies and other organizations that need to identify suspects or victims. The tool uses a deep learning algorithm to analyze the input images and create a composite image that is a blend of the features of the input faces. This composite image can then be used to identify the person whose face it most closely resembles.
