**The Power of Middle School** Keen J. Babbage, 2012-09-14 The middle school years are a maze of academic duties human growth and self development discovering self identity and increasing social interaction with other people This maze can be an adventure of achievement and opportunity or it can be a struggle of difficulty and disappointment As these experiences are the impetus or foundation for many later achievements in academics careers and personal life it is imperative that educators maximize these formative years by helping middle school students successfully travel through this maze despite its ups and downs its twists and turns and its new challenges to master and the old issues to resolve For instance educators must support students who have fallen behind so as to thwart their reduced likelihood of turnaround in high school Likewise educators must challenge exceptional students in order to perpetuate their enthusiasm for learning and prepare them for college studies By discussing the comprehensive roles and duties of school administrators counselors and teachers *The Power of Middle School* addresses how to maximize middle school curriculum and extra curricular activities for the academic personal and professional benefits of all students **Southern School Journal** ,1907 **Resources in Education** ,1997 **Living the Questions** Wade Tillet, 2017-11-01 In *Living the Questions* Dispatches From a Life Already in Progress Wade Tillet takes up the question of how to live not in some abstract sense but in the urgent present Tillet realizes that how to live is a question that each of us is already asking and answering moment by moment These texts offer surprising discoveries of how we are already inventing solutions to living in multiple and discontinuous worlds through our daily actions By examining small specific pieces of daily life Tillet explores how we navigate through tentative multiple and often contradictory positions Among the many situations artistically explored are visiting a church narrating a family movie exposing students to a nearby school re working a found sculpture taking a licensure exam attending a protest and waiting for the El By juxtaposing multiple voices and images he attempts to see how in both method and content the texts themselves act on the worlds and lives they describe Tillet narrates from many perspectives teacher researcher writer artist architect activist parent theorist and struggling protagonist of his own life As such many readers sharing such roles will immediately find connections within the book For researchers struggling to find workable qualitative methodologies after poststructuralism the experimental methods employed here may provide welcome inspiration However the book seems aimed not so much at particular disciplines but at anyone who like Tillet is actively searching for how to live Anyone involved in such a search will likely find hope and ways forward in his methods that look at life as we are already living it *TExES Core Subjects 4-8 (211) Book + Online, 2nd Ed.* Ann M.L.
