Field Guide for Construction Management Dennis H. Sanders,2011-12-19 From any perspective the ideal construction project is one in which the contractor shows up on your doorstep with the right price and all of his tools people and equipment ready to start and builds exactly what you want for the price you want and finish on schedule Everyone then goes away happy as clams This is the ideal but it never occurs The world is a competitive place to survive contractors must think competitively in order to win work They must find a

way to complete a quality project for the lowest price Circumstances can easily derail even the best plans and contractors but
 with planning delays and cost overruns can be minimized This handbook helps guide the construction manager through the
 trials and tribulations of selecting expecting rejecting prompting requiring and documenting what the contractor produces
 on the project Contracts can be written that foresee common problems and provide the construction manager with their
 resolution The concepts in Field Guide for Construction Management can help you do just that **Year-book of the**
