## **Constructivism Narrative And Foreign Policy Analysis A Case Study Of Finland:**

**Constructivism, Narrative and Foreign Policy Analysis** Christopher S. Browning, 2008 Building on constructivist approaches to international relations this book develops a narrative theory of identity action and foreign policy which is then applied to account for the evolution of Finnish foreign policy The book adopts an innovative approach by showing how foreign policy orientations need to be seen as grounded in overlapping and competing sets of identity narratives that reappear in different forms through history By emphasising the dynamism implicit within identity narratives the book not only challenges traditional rationalist materialist approaches to foreign policy analysis but also the current tendency to depict the story of Finnish foreign policy identity and history as one of a gradual move towards a Western location Rather the book emphasises elements of multiplicity and contingency whilst re establishing foreign policy as a highly political process concerned with power and the right to define reality and national subjectivity Rethinking Turkey-Iraq Relations Mehmet Akif

Kumral, 2016-08-31 This book explores key historical episodes to understand the reasons and consequences of the enduring partiality problem in cooperation between Turkey and Iraq Notwithstanding their mutual material interdependence and common cultural heritage these two close neighbors have stayed far from achieving comprehensive cooperation The author examines contextual discursive dynamics shaping Turkey Iraq partial cooperation around critical events such as the Saadabad Baghdad pacts the Gulf War the US Invasion and the war against ISIS Leading pro government Turkish daily newspapers of the period are analyzed to highlight ambivalent ontological rhetorical modes and ambiguous political narratives frames that perpetuate paradoxes of partiality in Ankara s rationalization and contextualization of cooperation with Baghdad and Erbil **The Horn Engaging the Gulf** Aleksi Ylönen, 2023-12-28 This book discusses theoretical

perspectives of analyzing the relations between the states and non state actors in the Horn of Africa and their counterparts in the Persian Gulf and the Middle East Crucially these relations are examined primarily from the perspective of the diplomatic economic and strategic agency of the African states and societal actors Here domestic political dynamics and local power play a significant role Aleksi Ylönen provides a historically informed investigation of recent relations that involve the Gulf States and Türkiye s resurgent interest in the Horn Africa The analysis focuses on the post Arab Spring period following the Iran nuclear deal and the war in Yemen Featuring case studies from Ethiopia Somalia and Eritrea which highlight engagements of the Horn state and societal actors primarily with the Gulf States and Türkiye the study provides an empirical analysis of the interactions and connections between the two regions **Extremism and Counter-Extremism Narratives**

**in Pakistan** Sadia Nasir, 2023-05-19 The book provides an extensive analysis of extremism extremist narratives and counter narratives and their role in consolidating exclusive religious cultural and social identities in Pakistan Focusing on the construction and institutionalization of extremist tendencies the book studies the process of the adoption of the narrow interpretation of religion and society which subsequently was equated with national identity It looks at the efforts of counter

extremism narratives which tend to focus on violent extremism while overlooking non violent manifestations The author highlights that the main issue with counter narratives is the difficulty in presenting extremism and its narratives as a threat since they have been normalized with the state being part of facilitating and building them A valuable and much required contribution to the existing literature on extremism and narrative building in Pakistan this book would help students academics and policymakers in identifying the limitations of counter narratives in Pakistan while providing them with a detailed overview of extremism and extremist narratives It will also be of interest to researchers studying Security Studies and Asian Politics especially in the context of South Asia

**The European Neutrals and NATO** Andrew Cottey,2017-12-05  
This book provides the first detailed comparative analysis of the unusual partnership between the main European neutral states and NATO Neutrality and alliance membership are fundamentally incompatible but through the vehicle of NATO s post Cold War partnerships the European neutral states and NATO have found a way to bridge this gap and cooperate with one another Based on case studies of Austria Finland Ireland Sweden and Switzerland written by leading experts this book explores the detail of each country s relationship with NATO the factors shaping those relationships and whether any of these states are likely to abandon neutrality and join NATO The book also contributes to broader work on foreign policy by exploring different explanations of the European neutral states foreign and security policy choices This book will be of interest to scholars of the European neutral states NATO and European security as well as to those interested in understanding the dynamics behind states foreign policy choices

**Dividing United Europe** Aline Sierp,Christian Karner,2020-06-29  
Pictures of Angela Merkel in a Nazi uniform the burning of German flags newspaper articles portraying Southern Europe as work shy and Northern Europe as tight fisted The Eurozone crisis has thrown up old stereotypes often digging into well established historical images of the other The conscious or tacit ab use of national prejudices by politicians and parts of the media and the strong emotional reactions among European citizens have caused a lot of public concern about the likely negative implications of such reawakening of national clich s and the newly hardening boundaries they construct for the process of European integration It is evident that current and recent crises confront European citizens with profound dilemmas which they seek to make sense of and in response to which much new political mobilisation takes place At the same time some of the interpretative and political reactions thus generated also have the potential to become very destructive processes putting into question years of integration efforts This book brings together scholars who examine the nexus between economic crisis national identities and the use of historical images and prejudices and stereotypes by focusing particularly on media and political discourses in different European countries In addition to detailed empirical discussions covering diverse national settings across Europe the different contributions discuss and offer a variety of conceptual and methodological approaches within the inter disciplinary study of national identities prejudice and stereotyping in the context of socio economic and political crises This book was originally published as a Special Issue of National Identities

**Famines in European Economic History** Declan Curran, Lubomyr Luciuk, Andrew Newby, 2015-04-24 This volume explores economic social and political dimensions of three catastrophic famines which struck mid nineteenth and early twentieth century Europe the Irish Famine An Gorta Mór of 1845 1850 the Finnish Famine Suuret Nälkävuodet of the 1860s and the Ukrainian Famine Holodomor of 1932 1933 In addition to providing new insights into these events on international national and regional scales this volume contributes to an increased comparative historiography in historical famine studies The parallel studies presented in this book challenge and enhance established understandings of famine tragedies including famine causation and culpability social and regional famine vulnerabilities core periphery relationships between nations and regions degrees of national autonomy and self sufficiency as well as famine memory and identity Famines in European Economic History advocates that the impact and long term consequences of famine for a nation should be understood in the context of evolving geopolitical relations that extend beyond its borders Furthermore regional structures within a nation can lead to unevenness in both the severity of the immediate famine crisis and the post famine recovery This book will be of interest to those in the fields of economic history European history and economic geography European 'Security' Governance George Christou, Stuart Croft, 2014-06-11 This book argues that we can understand and explain the EU as a security and peace actor through a framework of an updated and deepened concept of security governance It elaborates and develops on the current literature on security governance in order to provide a more theoretically driven analysis of the EU in security Whilst the current literature on security governance in Europe is conceptually rich there still remains a gap between those that do security governance and those that focus on security per se A theoretical framework is constructed with the objective of creating a conversation between these two literatures and the utility of such a framework is demonstrated through its application to the geospatial dimensions of EU security as well as specific cases studies in varied fields of EU security This book was originally published as a special issue of European Security **Russia and the Arctic** Geir Hønneland, 2020-01-09 The world is currently witnessing an Arctic Scramble as the major powers compete to demarcate and occupy Arctic territory The region is known to be home to large gas and oil reserves and its position at the top of the globe holds significant trading and military advantages Yet the territorial boundaries of the region remain ill defined and Russia under the increasingly bold foreign policy of Vladimir Putin has emerged as a forceful power in the region Geir Hønneland investigates the political contexts and international tensions surrounding Russia's actions focusing especially on the disputes which have emerged in the Barents Sea where European and Russian interests compete directly Skillfully delineating Russian policy in the region and analyzing the mineral and environmental consequences of the recent treaty agreements Russia and the Arctic is a crucial addition to our understanding of contemporary International Relations concerning the Polar North This new updated edition takes into account Russia's recent moves in the Arctic region and the development of the Arctic council **International Politics in the Arctic** Geir Hønneland, 2017-10-30 As the ice around

the Arctic landmass recedes the territory is becoming a flashpoint in world affairs New trade routes cutting thousands of miles off journeys are available and the Arctic is thought to be home to enormous gas and oil reserves The territorial lines are new and hazy This book looks at how Russia deals with the outside world vis a vis the Arctic Given Russia's recent bold foreign policy interventions these are crucial issues and the realpolitik practiced by the Russian state is essential for understanding the Arctic's future Here Geir Honneland brings together decades of cutting edge research investigating the political contexts and international tensions surrounding Russia's actions Honneland looks specifically at region building and environmental politics of fishing and climate change on nuclear safety and nature preservation and also analyses the diplomatic relations surrounding clashes with Norway and Canada as well as at the governance of the Barents Sea The Politics of the Arctic is a crucial addition to our understanding of contemporary International Relations concerning the Polar North

African Constructions of China Kwaku Opoku Dankwah, 2023-12-12 Marking a constructivist turn in Africa China scholarship this book explores African constructions of China Using Ghana and Kenya as case studies the book outlines the role of diverse state and non state actors in defining what China represents to the region and how it compares to Western powers Resisting Sino and state centric analysis of China Africa relations this book emphasises the importance of African agency in shaping the discourse The book demonstrates that the identity construction of a foreign state such as China takes place both at the international level and at a domestic intrastate level Domestic constructions of China in Ghana and Kenya reflect internal tensions about future directions for African political and socioeconomic development and these constructions in turn help to justify government policies towards China The book concludes by questioning the idea of a straightforward win win relationship and suggests that exploitative hierarchical relations conventionally associated with North South interactions may continue in South South relations This book's important analysis of the role of domestic non state actors in shaping African policymaking extends much needed nuance to a sometimes polarised debate It will be of interest to researchers across the fields of politics international relations global development and African and Chinese Studies

International Relations in the Arctic Leif Christian Jensen, 2015-10-12 As the ice around the Arctic landmass recedes progressively further each year the territory has become a flashpoint in world affairs New and lucrative trade routes from East to West are now becoming accessible for shipping lanes and military deployment and the Arctic is known to be home to large gas and oil reserves Yet the territorial boundaries of the region remain ill defined In response to these geographical changes the Scandinavian countries especially Denmark and Norway have begun staking large proprietary claims in the face of pressure from the major powers Russia Canada the US and China for the trade routes to be designated as International Waters Here Norwegian scholar Leif Christian Jensen shows how Norway has undergone a positional shift after declaring its assertive position on the Arctic in 2005 Its disputes with Russia have created a new foreign policy dilemma and a new set of red lines in Norwegian policy Is Norway as it would like to be seen an environmentally friendly peaceful enlightened nation

Or does this geopolitical shift in world affairs necessitate a new and more aggressive Scandinavia International Relations in the Arctic makes a timely contribution to the turn to the North in International Relations and Political Science **Legacies of the International Criminal Tribunal for the Former Yugoslavia** Carsten Stahn, Carmel Agius, Serge

Analyzing changes in the role and place of NATO European integration and Franco American relations in foreign policy discourse under Presidents Jacques Chirac and Nicolas Sarkozy this book provides an original perspective on French foreign policy and its identity construction The book employs a novel research design for the analysis of foreign policies which can be used beyond the case of France by combining the discourse theory of the Essex School with Interpretive Policy Analysis to examine political ideas and how they are organized into a foreign policy identity On these grounds the volume undertakes a comparative analysis of parliamentary and executive discourse of President Chirac's failed attempt at NATO reintegration in the 1990s Sarkozy's successful attempt in the 2000s and the Libyan War Ostermann depicts French foreign policy and identity as turning away from the European Union atlanticizing and losing its American nemesis As a result France uses a much more pragmatic de unionized and pro American strategy to implement foreign policy objectives than before Offering a new and innovative explanation for a major change in French foreign policy and grand strategy this book will be of great interest to scholars of NATO European defense cooperation and foreign policy      **Nordic Peace in Question** Christopher S. Browning, Marko Lehti, Johan Strang, 2024-07-18 This book explores historically and theoretically Nordic peace as a marker of identification ontological in security and regional branding It emphasizes how conceptions of Nordic peace have been translated into policy practices and how it has maintained its relevance over time The book distinguishes between the Nordic region as a region of peace a prime example of a Deutschian security community and as a region for peace cultivating the role of a global humanitarian norm promoter and peacebuilder but also interrogating how these two understandings of Nordic peace have been mutually constitutive and interdependent The book discusses the politics of Nordic peace analyzing what the concept does and enables and why it continues to endure and exert affective appeal Furthermore it considers contemporary challenges not least connected to the implications of the war in Ukraine but also the potential future opportunities facing ideas of Nordic peace as Nordic peace is refashioned once again towards a new regional and global context This book will be of key interest to scholars and students of Peace Research Nordic or Scandinavian Studies History Nationalism Studies Critical Security Studies and International Relations The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license      *The Scandinavian International Society* Laust Schouenborg, 2012 This book provides a comprehensive analysis of Scandinavia as a regional international society including the Nordic Peace and the rise of the Scandinavian welfare state Schouenborg aims to take the next big step in the theoretical development of the English School of International Relations particularly the structural version introduced by Barry Buzan He analyses the formation of a Scandinavian regional international society over a 200 year period and develops the concepts of primary institutions and binding forces as an analytical framework In doing so he not only offers one of the first systematic applications of English

School structural theory but also sheds a new comparative light on the distinctiveness of Scandinavian international relations and provides a novel intervention in the debates about the emergence of the so called Nordic Peace In the first part of the book Schouenborg explains the core concepts and discusses how one may distinguish a regional international society from the broader global international society in which it is embedded In the second part he provides an in depth study of the Scandinavian case focussing on the periods 1815 to 1919 1919 to 1989 and 1989 to 2010 The Scandinavian International Society will be of interest to students and scholars of international relations theory Scandinavian international relations and history and researchers engaged in comparative welfare state studies

**National Rhetorics in the Syrian Immigration Crisis** Clarke Rountree, Jouni Tilli, 2019-10-01 The Syrian refugee crisis seriously challenged countries in the Middle East Europe the United States and elsewhere in the world It provoked reactions from humanitarian generosity to anti immigrant warnings of the destruction of the West It contributed to the United Kingdom's Brexit from the European Union and the election of Donald Trump as president of the United States This book is a unique study of rhetorical responses to the crisis through a comparative approach that analyzes the discourses of leading political figures in ten countries including gateway destination and tertiary countries for immigration such as Turkey several European countries and the United States These national discourses constructed the crisis and its refugees so as to welcome or shun them in turn shaping the character and identity of the receiving countries for both domestic and international audiences as more or less humanitarian nationalist Muslim friendly Christian and so forth This book is essential reading for scholars wishing to understand how European and other countries responded to this crisis discursively constructing refugees themselves and an emerging world order
