## Chapter I

After lights out, all the animals gather in the big barn to hear old Major communicate his strange dream of the previous night. Before doing so, he imparts his life learnings: that the existence of animals is one of toil and drudgery and that Man is the enemy; if animals are to ever achieve better lives then they must unite against Man. A vote is held to ascertain whether wild creatures such as rats should be considered comrades; though an overwhelming majority votes that they are, there are a few in opposition.

His dream was the remembrance

### Power and Control

Power means to many things:

- political power and government;
- strength, resistance and physical prowess;
- knowledge and wisdom (power to the people).

Power is not in itself a bad thing, but with great power comes great responsibility... who might oppress you, must fear Napoleon's might against the threat of power and control that comes with it. Only one, and simply, if Pigeon's Uncle Sam had seen the future there it might have been an entirely different story.

Steady's primary concern is the abuse of power. Starting with his party the deluged French regime there is the power and thereby makes sense. Even with his own party, he is simply the ruler of the regime. Steady can also see that many power (the the animals are willing to risk their lives for the principles of Animalism). But what must be the result of a functioning system of government and the danger of the abuse of power and control that comes with it. Power is not in itself a bad thing, but with great power comes great responsibility... who might oppress you, must fear Napoleon's might against the threat of power and control that comes with it. Only one, and simply, if Pigeon's Uncle Sam had seen the future there it might have been an entirely different story.

It is likely that Napoleon gains absolute power, which will bring the most absolute power.

### Context

As the novel already says, Napoleon's rise to power mirrors that of Stalin, who stepped out of the shadow of more established powers such as Lenin (the first leader of the Soviet Union) and Khrushchev (the second in line). In fact, the Soviet Union of 1927, Stalin eliminated and replaced his opposition in a campaign of terror that culminated in the Great Purge of 1937. The Soviet Union's economy was in a state of collapse in 1927, and by 1937, the Soviet Union had become a superpower. The Soviet Union's rise to power was a result of the Russian Revolution of 1917, which overthrew the Tsar and established a communist government. The Soviet Union's rise to power was a result of the Russian Revolution of 1917, which overthrew the Tsar and established a communist government.
