Kwiecien,Piotr Gaj,Piotr Stera,2009-06-07 The continuous and very intense development of IT has resulted in the fast

development of computer networks Computer networks as well as the entire field of IT are subject to

constant change triggered by the general technological advancement and the influence of new IT technologies These methods

and tools of designing and modeling computer networks are becoming more advanced Above all the scope of their application

is growing thanks to for example the results of new research and because of new proposals of application which not long ago

were not even taken into consideration These new applications stimulate the development of scientific research as the

broader application of system solutions based on computer networks results in a wide range of both theoretical and practical

problems This book proves that and the contents of its chapters concern a variety of topics and issues Generally speaking the

contents can be divided into several subject groups The first group of contributions concerns new technologies applied in

computer networks particularly those related to nano molecular and quantum technology **October 2022 - Surplus Record**
