Confirmation Presbyterian Practices In Ecumenical Perspective:

Confirmation Richard Robert Osmer, 1996-01-01 Confirmation is one of the most widespread practices in the contemporary church although much confusion exists about its relationship to faith Is confirmation a rite of passage Is it just one step on an unfolding journey of faith Are new privileges granted and additional responsibilities required of confirmands Christian educator Richard Robert Osmer addresses these questions as he examines the theological significance of confirmation Osmer surveys early church practices of confirmation and offers a comprehensive discussion of the particularities of the Protestant experience of confirmation including Presbyterian Episcopal Lutheran and Methodist practices He discovers a need for a renewed understanding of confirmation in today's church He proposes a two step process of confirmation that would address the unique concerns and understandings of those involved at two distinct and significant developmental transitions from youth to adolescence and from adolescence to adulthood

Teaching the Faith, Forming the Faithful Gary A. Parrett, S. Steve Kang, 2013-03-05 With the decline of traditional Sunday school and education programs in recent years many Christians have not learned the fundamental doctrinal content of the faith In this text Gary Parrett and Steve Kang set forth a thoroughly biblical vision for intentional teaching of the Christian faith that attends to both the content and process of educational and formational ministries

Anglican Confirmation Phillip Tovey, 2016-04-15 Confirmation was an important part of the life of the eighteenth century church which consumed a significant part of the time of bishops of clergy in their preparation of candidates and of the candidates themselves in terms of a transition in their Christian life Yet it has been almost entirely overlooked by scholars This book aims to fill this void in our understanding and offers an important contribution and correction of our understanding of the life of the church during the long eighteenth century in both Britain and North America Tovey addresses two important historical debates the pessimist optimist debate on the character and condition of the Church of England in the eighteenth century and the debate on the re-enchantment of the eighteenth century which challenges the secular nature of society in the age of the Enlightenment Drawing on new developments of the study of visitation returns and episcopal life and on primary research in historical records Anglican Confirmation goes behind the

traditional Tractarian interpretations to uncover the understanding and confidence of the eighteenth century church in the rite of confirmation The book will be of interest to eighteenth century church historians theologians and liturgists alike

Anglican Confirmation 1820-1945 Phillip Tovey,2024-06-03 This book focuses on Anglican Confirmation in theology liturgy and practice from 1820 to 1945 This was a period of great change in the ways Anglicans approached Confirmation The Tractarian movement transformed the Communion and its ideas were carried overseas with the missionary movement The study examines the development of a two stage theology and its reception It analyses the wave of liturgical revision expressed in England in the 1928 Prayer Book It explores the episcopal changes in practice from the eighteenth century paradigm to a new way of confirming The revolution of the time has left a legacy that still informs practice while doubts about theology and its liturgical application have left an existential crisis The author reflects on how the current situation in various provinces has its roots in this period and the diffusion of ideas in the Communion The book offers a fresh systematic examination of the neglected ecclesial practice of Confirmation providing a more holistic view and clarifying developments to help us better understand the present It will be of particular interest to scholars of Christian theology liturgy ecclesiology and church history

Religious Identity and National Heritage Francis-Vincent Anthony,2012-05-18 In some parts of our world religion is on the wane losing its thrust of doctrinal authority and communal bonds In other regions it is gaining public significance as a powerful social cultural and political force Secularization theories are less successful in accounting for these differences in religion s role Other theories describe religion in terms of social capital to be invested whenever it offers certain personal social or political benefits and market opportunities allow smart choices Still other theories simply hold that religion corresponds to an inborn need or stable disposition that guarantees a culture s identity and reflects a natural equilibrium of social cohesion There are also critical theories that point to the intrinsic relationship of religion with power and identify it as a major cause of tension and conflict In this book distinguished scholars reflect on these questions and present empirical research about religious identity and national heritage
