Conflict and Security in Central Asia and the Caucasus Hooman Peimani, 2009 Crossroads and Conflict Gary K. Bertsch, 2000 The legendary Greek figure Orpheus was said to have possessed magical powers capable of moving all living and inanimate things through the sound of his lyre and voice Over time the Orphic theme has come to indicate the power of music to unsettle subvert and ultimately bring down oppressive realities in order to liberate the soul and expand human life without limits The liberating effect of music has been a particularly important theme in twentieth century African American literature The nine original essays in *Black Orpheus* examines the Orphic theme in the fiction of such African American writers as Jean Toomer Langston Hughes Claude McKay James Baldwin Nathaniel Mackey Sherley Anne Williams Ann Petry Ntozake Shange Alice Walker Gayl Jones and Toni Morrison The authors discussed in this volume depict music as a mystical shamanistic and spiritual power that can miraculously transform the realities of the soul and of the world Here the musician uses his or her music as a weapon to shield and protect his or her spirituality Written by scholars of English music women s studies American studies cultural theory and black and Africana studies the essays in this interdisciplinary collection ultimately explore the thematic linguistic structural presence of music in twentieth century African American fiction

Water and Security in Central Asia Virpi Stucki,Kai Wegerich,Muhammad Mizanur Rahaman,Olli Varis,2016-04-08 Examining the water development and security linkages in Central Asia can feel a bit like solving a Rubik s cube The Rubik s cube starts to usually find structure and the different pieces find their places when its solver adopts a systematic approach Still solving the whole cube takes time and perseverance This is also the case with water and security in Central Asia as demonstrated by the chapters in this book In the case of water and security in Central Asia there are many faces including not only the Central Asian states but also the neighbouring countries and other players of global geopolitics stickers such as policies practices causes and impacts and colours such as the different stakeholders ranging from the micro and meso levels to the macro level Understanding all these or getting clarity on the nexus can seem extremely challenging Even though none of the chapters alone answers the question of what constitutes water and security in Central Asia each of them gives thoughtful ideas and information on the complexity of the issue This book was published as a special issue of the International Journal of Water Resources Development

Central Asian Security Roy Allison,Lena Jonson,2004-05-13 This volume is the first comprehensive scholarly analysis of the strategic reconfiguration of Central Asia as Russia has become more disengaged from the nations in the region and as these nations have developed new relations to the south east and west The international implications are enormous because of the rich energy sources oil and natural gas located in the Caspian Sea area The authors assess a variety of internal security policy challenges confronting these states for example the potential for conflict arising from such factors as a mixed ethnic population resource scarcity particularly in relation to water management and an Islamic revival They also examine the security policy content of relations between the Central Asian states and regional and international powers specifically the stakes interests and policies of Russia China Iran Turkey and the United States These internal challenges and the evolution of relations with external powers may result in new cooperative relationships but they may also lead to destabilizing rivalry and interstate enmity in Central Asia It is important to identify new patterns of relevance for future security cooperation in the region but the potential for a new security system or for new institutions to manage security in the region remains uncertain These issues are explored by a team of prominent specialists from Western Europe the United States Russia and China

Patman,2006-08-10 This volume highlights the gap between the new security environment and the notion of state centred national security favoured by Washington showing how a Cold War phenomenon known as the national security state in which defence and foreign policy interests essentially converge remains largely intact The conventional wisdom since the suicide attacks of 9 11 is that the world has been transformed and according to President Bush September 11 changed the strategic thinking of the US This book challenges these assumptions Indeed the Bush administration s National Security strategy of 2002 has reinvigorated and even extended the idea of national security Paradoxically the renewed emphasis on a distinctly state centred approach to security including the War on Terror has unfolded during an era of deepening globalization Drawing on the international expertise of fourteen specialists the book examines four inter related themes the impact of globalization on the concept of security the strategic outlook of the world s only superpower the US the new conflicts that have come to characterize the post Cold War era efforts to regulate the emerging patterns of conflict in the world Globalization and Conflict will be essential reading for students of strategic studies security studies and international relations *Russia's Security and the War on Terror* Mikhail Tsypkin,2007-09-26 This book discusses and provides examples of Russia s need to reshape its security and military policies in order to meet the global challenges of fighting terrorism and counterinsurgency It addresses some of the problems facing Russia s national security and military power including military reform US Russian relations the political economy of Russian security policy Russian policy regarding the proliferation of weapons of mass destruction the chances for US Russian cooperation in ballistic missile defence Russia s Security and the War on Terror provides a insight into Russian military policies and its changing relationship with NATO throughout the 1990s This book was previously published as a special issue of The Journal of Slavic Military Studies *Oil, Islam, and Conflict* Rob Johnson,2007-10-15 The Taliban is resurgent in Afghanistan while Chechnya still struggles under a shadow of violence and the nations surrounding them are barely more stable Add in the significant reserves scattered throughout Central Asia and you have a volatile political cocktail that makes the region in Rob Johnson s words the new Middle East In *Oil Islam and Conflict* Johnson provides an essential analysis of the region s tumultuous history and uncertain future Johnson examines the problems that have plagued the region including civil wars in Afghanistan and Tajikistan and burgeoning Islamist terrorist movements in several nations He explains the complex role played by narcotics ethnic tensions and the potential wealth from oil and gas reserves in the region s political maneuverings and delineates the complex links between civil violence and the policies of Central Asian governments on such crucial issues as human rights economic development and energy A timely

Janelle,Barney Warf,Kathy Hansen,2004-03-31 WorldMinds provides broad exposure to a geography that is engaged with discovery interpretation and problem solving Its 100 succinct chapters demonstrate the theories methods and data used by geographers and address the challenges posed by issues such as globalization regional and ethnic conflict environmental hazards terrorism poverty and sustainable development Through its theoretical and practical applications we are reminded that the study of Geography informs policy making
