## **Constituting Americans Cultural Anxiety And Narrative Form New Americanists:**

Constituting Americans Priscilla Wald, 1994-05-09 Ever since the founders drafted We the People we have been at pains to work out the contradictions in their formulation to fix in words precisely what it means to be American Constituting Americans rethinks the way that certain writers of the mid nineteenth and early twentieth century contributed to this project in doing so it revises the traditional narrative of U S literary history restoring an essential chapter to the story of an emerging American cultural identity In diverse ways very different writers including Frederick Douglass Herman Melville Harriet Wilson W E B Du Bois and Gertrude Stein participated in the construction and dissemination of an American identity but none was entirely at ease in the culture they all helped to define Evident in their work is a haunting sense of their telling someone else s story a discomfort that Priscilla Wald reads in the context of legal and political debates about citizenship and personhood that marked the emergence of the United States as a nation and a world power From early nineteenth century Supreme Court cases to turn of the century Jim Crow and immigration legislation from the political speeches of Abraham Lincoln to the historical work of Woodrow Wilson nation builders addressed the legal political and historical paradoxes of American identity Against the backdrop of their efforts Wald shows how works such as Douglass s autobiographical narratives Melville s *Pierre* Wilson s *Our Nig* Du Bois s *The Souls of Black Folks* and Stein s *The Making of Americans* responded through formal innovations to the aggressive demands for literary participation in the building of that nation The conversation that emerges among these literary works challenges the definitions and genres that largely determine not only what works are read but also how they are read in classrooms in the United States today Offering insight into the relationship of storytelling to national identity Constituting Americans will compel the attention of those with an interest in American literature American studies and cultural studies

Constituting Americans Priscilla Wald, 1995 Constituting Americans rethinks the way that certain writers of the mid nineteenth and early twentieth century contributed to fixing the words precisely of what it means to be an American

Scott M Reznick, 2024-08-09 This volume traces how American literature evolved in response to widespread conflicts over the very nature of US democracy in the early republic and antebellum eras It examines how American writers reacted to three moments of profound divisiveness in the 1790s 1830s and 1850s

**Remapping Citizenship and**

**the Nation in African-American Literature** ,     Reading Embodied Citizenship Emily Russell,2011-02-25 Liberal individualism a foundational concept of American politics assumes an essentially homogeneous population of independent citizens When confronted with physical disability and the contradiction of seemingly unruly bodies however the public searches for a story that can make sense of the difference The narrative that ensues makes abnormality an important part of the dialogue about what a genuine citizen is though its role is concealed as an exception to the rule of individuality rather than a defining difference Reading Embodied Citizenship brings disability to the forefront illuminating its role in constituting what counts as U S citizenship Drawing from major figures in American literature including Mark Twain Flannery O Connor Carson McCullers and David Foster Wallace as well as introducing texts from the emerging canon of disability studies Emily Russell demonstrates the place of disability at the core of American ideals The narratives prompted by the encounter between physical difference and the body politic require a new understanding of embodiment as a necessary conjunction of physical textual and social bodies Russell examines literature to explore and unsettle long held assumptions about American citizenship     *Against Self-Reliance* William Hunting Howell,2015-04-15 Tracing continuities between literature material culture and pedagogical theory William Hunting Howell uncovers an America that celebrated the virtues of humility contingency and connection to a complex whole over ambition individuality and distinction     Willing Obedience Elizabeth D. Samet,2004 This book highlights obedience as an American cultural motif by examining the ways in which citizens understand and dramatize the struggle between autonomy and allegiance Willing Obedience tells the story of Americans who worked out the simultaneous demands of liberty and obedience in fiction military memoir and political writing from the Revolution through the nineteenth century In contrast to the European model of a subject s blind obedience to a monarch Americans imagined an allegiance that preserved autonomy even as they consented to the constraints of a new republic In particular the book considers the case of the soldier whose surprisingly complex relationship to authority is in fact representative of the situation of all citizens in a republic     **Massive Modernism** Alyson Helene Tischler,2002

*Crossing the Line* Gayle Wald,2000-07-24 Examines constructions of racial identity through the exploration of passing narratives including Black Like Me and forties jazz musician Mezz Mezzrow s memoir Really the Blues     *Assimilating Asians* Patricia P. Chu,2000-03-29 This work combines social theory with literary analysis to look at how Asian American writers use literature to participate in the critique and analysis of their position in US culture     **Death of a Nation** David W. Noble,2002 In the 1940s American thought experienced a cataclysmic paradigm shift Before then national ideology was shaped by American exceptionalism and bourgeois nationalism elites saw themselves as the children of a homogeneous nation standing outside the history and culture of the Old World This view repressed the cultures of those who did not fit the elite vision people of color Catholics Jews and immigrants David W Noble a preeminent figure in American studies inherited this ideology However like many who entered the field in the 1940s he rejected the ideals of his intellectual predecessors and

sought a new multicultural postnational scholarship Throughout his career Noble has examined this rupture in American intellectual life In *Death of a Nation* he presents the culmination of decades of thought in a sweeping treatise on the shaping of contemporary American studies and an eloquent summation of his distinguished career Exploring the roots of American exceptionalism Noble demonstrates that it was a doomed ideology Capitalists who believed in a bounded nationalism also depended on a boundless international marketplace This contradiction was inherently unstable and the belief in a unified national landscape exploded in World War II The rupture provided an opening for alternative narratives as class ethnicity race and region were reclaimed as part of the nation s history Noble traces the effects of this shift among scholars and artists and shows how even today they struggle to imagine an alternative post national narrative and seek the meaning of local and national cultures in an increasingly transnational world While Noble illustrates the challenges that the paradigm shift created he also suggests solutions that will help scholars avoid romanticized and reductive approaches toward the study of American culture in the future

**Archipelagic American Studies** Brian Russell Roberts, Michelle Ann Stephens, 2017-05-18

Departing from conventional narratives of the United States and the Americas as fundamentally continental spaces the contributors to *Archipelagic American Studies* theorize America as constituted by and accountable to an assemblage of interconnected islands archipelagoes shorelines continents seas and oceans They trace these planet spanning archipelagic connections in essays on topics ranging from Indigenous sovereignty to the work of douard Glissant from Philippine call centers to US militarization in the Caribbean and from the great Pacific garbage patch to enduring overlaps between US imperialism and a colonial Mexican archipelago Shaking loose the straitjacket of continental exceptionalism that hinders and permeates Americanist scholarship *Archipelagic American Studies* asserts a more relevant and dynamic approach for thinking about the geographic cultural and political claims of the United States within broader notions of America Contributors Birte Blascheck J Michael Dash Paul Giles Susan Gillman Matthew Pratt Guterl Hsinya Huang Allan Punzalan Isaac Joseph Keith Yolanda Martinez San Miguel Brandy N lani McDougall Ifeoma Kiddoe Nwankwo Craig Santos Perez Brian Russell Roberts John Carlos Rowe Cherene Sherrard Johnson Ram n E Soto Crespo Michelle Ann Stephens Elaine Stratford Etsuko Taketani Alice Te Punga Somerville Teresia Teaiwa Lanny Thompson Nicole A Waligora Davis

**Frederick Douglass and Herman Melville** Robert S. Levine, Samuel Otter, 2012-09-01 Frederick Douglass 1818 1895 and Herman Melville 1819 1891 addressed in their writings a range of issues that continue to resonate in American culture the reach and limits of democracy the nature of freedom the roles of race gender and sexuality and the place of the United States in the world Yet they are rarely discussed together perhaps because of their differences in race and social position Douglass escaped from slavery and tied his well received nonfiction writing to political activism becoming a figure of international prominence Melville was the grandson of Revolutionary War heroes and addressed urgent issues through fiction and poetry laboring in increasing obscurity In eighteen original essays the contributors to this collection explore the convergences and

divergences of these two extraordinary literary lives Developing new perspectives on literature biography race gender and politics this volume ultimately raises questions that help rewrite the color line in nineteenth century studies Contributors Elizabeth Barnes College of William and Mary Hester Blum The Pennsylvania State University Russ Castronovo University of Wisconsin Madison John Ernest West Virginia University William Gleason Princeton University Gregory Jay University of Wisconsin Milwaukee Carolyn L Karcher Washington D C Rodrigo Lazo University of California Irvine Maurice S Lee Boston University Robert S Levine University of Maryland College Park Steven Mailloux University of California Irvine Dana D Nelson Vanderbilt University Samuel Otter University of California Berkeley John Stauffer Harvard University Sterling Stuckey University of California Riverside Eric J Sundquist University of California Los Angeles Elisa Tamarkin University of California Irvine Susan M Ryan University of Louisville David Van Leer University of California Davis Maurice Wallace Duke University Robert K Wallace Northern Kentucky University Kenneth W Warren University of Chicago *American Protest Essay and National Belonging, The* , *American Book Publishing Record* ,1995 **Writing Security** David Campbell,1992 **International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences** ,1996 **Imagine Otherwise** Kandice Chuh,2003-04-17 A critical examination of what constitutes the varied positions grouped together as Asian American seen in relation to both American and transnational forces *Journal of Asian American Studies* ,2000
