Perspective on Analytical Writing a Focus on Feature and Editorial Writing
Richmond S. Anderson Snr., 2021-12-10 The writing of this book Perspective on Analytical Writing a focus on Feature and Editorial writing is based on the urge for students majoring in mass communication on the African continent particularly those within the Economic Community of West African States ECOWAS to have a simplistic understanding of the course feature and editorial writing It will be oblivious or a miss calculation to say that there are no texts books on feature and editorial writing on the African continent since I have not had the opportunity to extensively travel within Africa but what could be safely said is for over three decades since I completed my under graduate studies I have not seen a text book on feature and editorial writing readily Based on this experience the book first endeavored in its starting to give students an insight on what an analytical writing is beginning with a drill on perspective and gave a detailed and vivid picture of perspective thereby laying the basis to understanding what feature and editorial writing is all about Although the core focus of the book is on feature and editorial writing but as the title depicts Perspectives on Analytical Writing more emphases are placed on perspective and analytical writing in order to provide a deeper understanding for the students as a foundation to grasp the concept of feature and editorial writing Also the book featured research as a component to writing an appreciable feature and editorial piece Added to research other ingredients for writing good feature and editorials are also considered They include opinion persuasion and propaganda Furthermore since feature and editorial writings are within the scope of mass communication and journalism it became imperative for the book to touch on the ethical aspect of the profession aimed at providing students the barometer of knowing what to do and not what to do while writing feature and editorial pieces In its conclusive stage the book dealt with the impact of editorial on political actors as it relates to their involvement in the process of national development As you will come across in your reading mass communication and journalism are catalysts to agenda

setting in any society therefore it is expected that stakeholders particularly those involved in the governance process of our countries in Africa to take clue from editorial articles especially those that advocate for positive change to propel them to respond to the developmental needs of Africa Now let s be practical and reflect on a simple analogy referencing a performance by a group of movie stars such as the late popular comedian Peter Ballah of Liberia Kekura Kamara with his popular movie Malawala Balawala of Liberia Salla Kamara with his movie Blood Diamond of Sierra Leone Mr Ibu John Okafor with the show Mr Ebu and his son of Nigeria or John Dumelo with the movie the tie that binds of Ghana As these movie stars are performing in their movies the viewers are fascinated with emotion amusement and are thrilled by the performances while in their seats in the theatre movie hall or in their various homes Just as the emotion of viewers is intrigued by the performances or movies so feature and editorial write ups are replica to evoking the emotion of the readers The articles must create a scenario of curiosity to arouse or entice the readers This is the drama in feature and editorial writing

EBOOK: Citizens or Consumers: What the Media Tell us about Political Participation Justin Lewis, Sanna Inthorn, Karin Wahl-Jorgensen, 2005-09-16 In this superb account of how the British and American news media represent everyday citizens and public opinion the authors show how coverage of politics and policy debates subtly even inadvertently urge people to see themselves as and thus to be politically passive disengaged and cynical The book's analysis of how journalists misrepresent even invent public opinion is alone worth the price of admission Written with great verve passion and unswerving clarity Citizens or Consumers promises to become an instant classic in the study of the failings and the still untapped promise of the news media to further democracy Susan J Douglas Catherine Neafie Kellogg Professor and Chair Department of Communication Studies The University of Michigan Based on an exhaustive cross Atlantic empirical study Citizens or Consumers is an engaging and incisive contribution to a subject usually restricted to clichés and vague generalizations Looking not only at how media impact upon their audiences but the manner in which that influence is mediated by the way in which citizenship itself is represented in news stories Lewis et al offer us unusual and keen insight into a familiar world Written in an engaging and lively style first year students and experienced faculty members as well as general readers will benefit from its many perceptive insights Especially useful are the last few pages which suggest how journalists might alter their representation practices to invoke citizenship rather than passive consumerism

The Interplay of Civic Engagement and Institutionalised Politics Adalbert Evers,Johan von Essen,2024-06-28 This volume focusses on the interplay of civic engagement and institutionalised politics and its role in both the erosion and retrieval of intermediate capabilities and procedures Rather than discussing democracy as a relationship between citizens as individual voters and state power the book studies the relationship between citizens engaged in or through organisations movements and networks in civil society and their impact in the context of institutionalised politics be that through representative institutions and political parties or participation in administrative governance The aim of this volume is to renew the scholarly discussion on the prospects of liberal democracy by looking for opportunities to curb antagonisms and instead strengthen intermediary capabilities The book will therefore be of interest to students in relevant disciplines as political science civil society research sociology and research on social movements Chapter 1 and Chapter 10 are available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com)

The Uncertainty Doctrine Alexandra Homolar,2023-09-14 The post Cold War era is often seen as a missed opportunity of epic proportions for the United States to turn swords into ploughshares with much of the blame placed on international developments The Uncertainty Doctrine challenges the conventional take on post Cold War history as imposed on the US by events largely outside its control It shows in rich empirical detail how America s peace dividend did not merely fall by the wayside but was actively undermined by the narrative contests over the security implications of the New World Order Committed to understanding the ontological significance of narrative in inter national security Alexandra Homolar demonstrates that political agents have the capacity to respond to a systemic shock through discursive adaptation and reorganization While narrative politics may not always matter in US defense policy at moments perceived as bifurcation points it can be decisive in why some strategic responses prevail over possible alternatives

The

Biotechnology Debate Bernice Bovenkerk, 2012-01-05 This book grounds deliberative democratic theory in a more refined understanding of deliberative practice in particular when dealing with intractable moral disagreement regarding novel technologies While there is an ongoing vibrant debate about the theoretical merits of deliberative democracy on the one hand and more recently empirical studies of specific deliberative exercises have been carried out these two discussions fail to speak to one another Debates about animal and plant biotechnology are examined as a paradigmatic case for intractable disagreement in today's pluralistic societies This examination reveals that the disagreements in this debate are multi faceted and multi dimensional and can often be traced to fundamental disagreements about values or worldviews One of the acute insights to emerge from this examination is that deliberation can serve different purposes vis vis different types of problem In the case of deeply unstructured problems like the modern biotechnology debate the aim of inclusion is more appropriate than the aim of consensus This book highlights the importance of political culture and broader institutional settings in shaping the capacity and propensity of citizens to engage in deliberation and the degree to which governments are prepared to relinquish authority to deliberative mini publics Robyn Eckersley University of Melbourne Australia

Media Audiences John L. The Rise of the Tea Party Anthony DiMaggio, 2012-11-01 What to make of the Tea Party To some it is a grassroots movement aiming to reclaim an out of touch government for the people To others it is a proto fascist organization of the misinformed and manipulated lower middle class Either way it is surely one of the most significant forms of reaction in the age of Obama In this definitive socio political analysis of the Tea Party Anthony DiMaggio examines the Tea Party phenomenon using a vast array of primary and secondary sources as well as first hand observation He traces the history of the Tea Party and analyzes its organizational structure membership ideological coherence and relationship to the mass media And perhaps most importantly he asks is it really a movement or just a form of manufactured dissent engineered by capital DiMaggio's

conclusions are thoroughly documented surprising and bring much needed clarity to a highly controversial subject

Tough on Crime Michelle Bonner, 2019-09-06 Crime and insecurity are top public policy concerns in Latin America. Political leaders offer tough on crime solutions that include increased policing and punishments and decreased civilian oversight. These solutions while apparently supported by public opinion sit in opposition to both criminological research on crime control and human rights commitments. Moreover many political and civil society actors disagree with such rhetoric and policies. In *Tough on Crime* Bonner explores why some voices and some constructions of public opinion come to dominate public debate. Drawing on a comparative analysis of Argentina and Chile based on over 190 in depth interviews and engaging the Euro American literature on punitive populism this book argues that a neoliberal media system and the resulting everyday practices used by journalists state and civil actors are central to explaining the dominance of tough on crime discourse.
