My Life and Other Stories Bob Elles, 2013-05-14 Intelligence comes from ignorance as wisdom comes from naivet and there is nothing like gathering both from people who represent a diverse swath of nations throughout the world As cultures require contact with each other in order to grow and remain viable and not succumb to atrophy man too requires contact with men of different beliefs and practices No one nation or culture or religion has a hold on logic or is immune to extremism I feel blessed that Ive had the opportunity to absorb and learn about aspects of life that Im sure I wouldnt have learned otherwise In fact my whole belief system was changed over the past forty five years through this contact I began to do some research on my family and what I learned coupled with what I had experienced in my life literally brought me to tears in gratitude and admiration and hopefully in wisdom If you like to sit down and listen to stories told by say an old friend an uncle or a person with wrinkles on his face grey in his hair and a sparkle of wisdom in his eyes coupled with a smile on his face then you should so bother If you dont then stop right here and go pick up and read a book on vampires or loves lost or whatever turns your fancy My life has been tragic and wondrous and I have what I call life lessons that I believe you will find helpful in your life Ill even go so far as to say that given even a fraction of introspection in you your life will be significantly altered after youve read this book I know that doesnt sound humble but I also know this to be true I have learned forgot and made up many a good story Keep this in mind when you read these chapters stories compiled within this book Are they all true Mostly with only the most embarrassing events removed An old retired Air Force fighter pilot once told me I have secrets only God and I know and thats the way it will remain *The Industrial Pioneer*, 1968 Construction Labor Report, 1984-03 *Left to Chance* Steve Kroll-Smith, Vern Baxter, Pam Jenkins, 2015-09-01 How do survivors recover from the worst

urban flood in American history a disaster that destroyed nearly the entire physical landscape of a city as well as the mental and emotional maps that people use to navigate their everyday lives This question has haunted the survivors of Hurricane Katrina and informed the response to the subsequent flooding of New Orleans across many years Left to Chance takes us into two African American neighborhoods working class Hollygrove and middle class Pontchartrain Park to learn how their residents have experienced Miss Katrina and the long road back to normal life The authors spent several years gathering firsthand accounts of the flooding the rushed evacuations that turned into weeks and months long exile and the often confusing and exhausting process of rebuilding damaged homes in a city whose local government had all but failed As the residents stories make vividly clear government and social science concepts such as disaster management restoring normality and recovery have little meaning for people whose worlds were washed away in the flood For the neighbors in Hollygrove and Pontchartrain Park life in the aftermath of Katrina has been a passage from all that was familiar and routine to an ominous world filled with raw existential uncertainty Recovery and rebuilding become processes imbued with mysteries accidental encounters and hasty adaptations while victories and defeats are left to chance *Warped Stories* Arthur

Brown,2017-03-24 CHINA RISING the latest book by the author of 44 Days Backpacking in China The Middle Kingdom in the 21st Century with the United States Europe and the Fate of the World in Its Looking Glass one of the most engaging political travelogues in recent memory is a comprehensive absorbing eye opening guide to China in the 21st century a volume which in 700 pp packs it all history personal memory sociology political analysis and above all a fair dose of invaluable first hand information designed to detoxify the Western reader s mind from the constant lies served by the Western media in support of Washington s global imperial agenda The result is a thorough rectification a deprogramming of just about everything we as Westerners have been taught to believe about China allowing us to see the Chinese people and their leaders as they really are ordinary human beings just like us with dreams foibles defects and a proud history extending millennia a people that in a century have overcome just about every scourge known to man famines massive drug addiction civil wars invasions grinding poverty and humiliation to become one of the great powers of this century perhaps the greatest and which today much as a result of its success is facing the undying hostility of the world s hegemon the United States itching for a confrontation to

reassert imperial control It is thus indispensable for Westerners and Asians to know the truth of the situation what their governments are doing led by the USA behind their backs if the planet is to be spared a nuclear conflict of incalculable horror For as Brown indicates China will not back down this time and neither will Russia her strategic ally who faces the same type of constant harassment and bullying by the West also for having the audacity to defend her sovereignty and set her own foreign policy course The truth therefore must come out about key events from the so called Tiananmen Massacre organized by the CIA to who Mao Zedong really was and did a role for which he earned the love of his countrymen to this day It s a big job but the author an American fluent in Chinese a teacher by profession and with 15 years residence in the Middle Kingdom and a cosmopolitan background is eminently qualified to meet the task Andre Vltchek himself a truth teller of distinction and a man who like Jeff Brown knows China well has endorsed CHINA RISING as a unique instrument of mind liberation Vltchek words are worth heeding The Western public should learn and remember one essential thing about China no matter what European and North American propaganda barks about the People s Republic China is much more democratic than the West It is democratic in its own way For thousands of years it developed its own political system Its rulers no matter who they are are given a conditional right to govern by the people In the past but even now it is called a Heavenly Mandate If the rulers fail to respect the will of the people they get deposed And the Communist Party of China is greatly respectful of the desires of the majority of the Chinese people When they want liberal reforms they are delivered When they want more Communism and an epic fight against corruption like now China s government immediately reacts It is powerful and democratic although it is a very specific and complex arrangement And now the Chinese people are outraged and they are sending clear signals to Beijing do not succumb to the West If you do our nation will suffer immensely and the rest of the world will turn to ashes The fate of the world hangs in the balance and only truth can prevent a global catastrophe
