 Young, 1928 The Chinese Gazette in European Sources Nicolas Standaert, 2022-01-31 The Chinese gazette as a publicly
 available government publication was distributed in a variety of formats since the twelfth century Little is known however
 about its form and content before 1800 By looking at China from the periphery this study shows how European sources offer
 a unique way of expanding the knowledge about the gazette of the seventeenth and eighteenth centuries Its interconnected
 history illustrates how the Chinese gazette as translated by European missionaries became a major source for reflections on
 state and society by Enlightenment thinkers It thus joined a global public much earlier than so far assumed Web Page
Recommendation Models Sule Gunduz-Oguducu, 2022-06-01 One of the application areas of data mining is the World Wide
 Web WWW or Web which serves as a huge widely distributed global information service for every kind of information such as
 news advertisements consumer information financial management education government e commerce health services and
 many other information services The Web also contains a rich and dynamic collection of hyperlink information Web page
 access and usage information providing sources for data mining The amount of information on the Web is growing rapidly as
 well as the number of Web sites and Web pages per Web site Consequently it has become more difficult to find relevant and

useful information for Web users Web usage mining is concerned with guiding the Web users to discover useful knowledge and supporting them for decision making In that context predicting the needs of a Web user as she visits Web sites has gained importance The requirement for predicting user needs in order to guide the user in a Web site and improve the usability of the Web site can be addressed by recommending pages to the user that are related to the interest of the user at that time This monograph gives an overview of the research in the area of discovering and modeling the users interest in order to recommend related Web pages The Web page recommender systems studied in this monograph are categorized according to the data mining algorithms they use for recommendation Table of Contents Introduction to Web Page Recommender Systems Preprocessing for Web Page Recommender Models Pattern Extraction Evaluation Metrics
