Dynamics Conflict Northern Ireland Emancipation:

The Dynamics of Conflict in Northern Ireland Joseph Ruane, Jennifer Todd, 1996-11-13 This book offers a uniquely comprehensive account of the conflict in Northern Ireland providing a rigorous analysis of its dynamics and present structure and proposing a new approach to its resolution It deals with historical process communal relations ideology politics economics and culture and with the wider British Irish and international contexts It reveals at once the enormous complexity of the conflict and shows how it is generated by a particular system of relationships which can be precisely and clearly described The book proposes an emancipatory approach to the resolution of the conflict conceived as the dismantling of this system of relationships Although radical this approach is already implicit in the converging understandings of the British and Irish governments of the causes of conflict The authors argue that only much more determined pursuit of an emancipatory approach will allow an agreed political settlement to emerge *Anti-Sectarianism and Reconciliation in Northern Ireland* Cillian McGrattan, 2024-08-12 This book addresses the limitations of dominant ways of thinking about and doing politics in Northern Ireland Arguing for the foregrounding of anti sectarianism as a way of displacing the divisive dynamics of religion and nationalism it provides a new lens for studying Northern Ireland Drawing upon a close reading of the political philosophy of Jacques Rancière the book aligns anti sectarianism to the ways that people refuse affiliation with the traditional ethnic values and practices It describes this refusal as dis identification and reveals how dissensus acts as an alternative to the displacing of equality Returning equality and equality claims making to a clear position of visibility the book provides a radical rethinking of Northern Ireland a quarter century beyond the 1998 peace accord It will appeal to all those interested in politics and peacebuilding studies Transforming conflict through social and economic development Sandra Buchanan, 2016-05-16 Transforming conflict through social and economic development examines lessons learned from the Northern Ireland and Border Counties conflict transformation process through social and economic development and their consequent impacts and implications for practice and policymaking with a range of functional recommendations produced for other regions emerging from and seeking to transform violent conflict It provides for the first time a comprehensive assessment of the region's transformation activity largely amongst grassroots actors enabled by a number of specific funding programmes namely the International Fund for Ireland Peace I II and III and INTERREG I II and IIIA These programmes have been responsible for a huge increase in grassroots practice which to date has attracted virtually no academic analysis this book seeks to fill this gap In focusing on the politics of the socioeconomic activities that underpinned the elite negotiations of the peace process key theoretical transformation concepts are firstly explored followed by an examination of the social and economic context of Northern Ireland and the border counties The three programmes and their impacts are then assessed before considering what policy lessons can be learned and what recommendations can be made for practice This is underpinned by a range of semi structured interviews and the author's own experience as a project promoter through these

programmes in the border counties for more than a decade The book will be essential reading for students practitioners and policymakers in the fields of peace and conflict studies conflict transformation peacebuilding post agreement reconstruction and the political economy of conflict and those interested in contemporary developments in the Northern Ireland peace process **Negotiating a Settlement in Northern Ireland, 1969-2019** John Coakley, Jennifer Todd, 2020-01-09

Negotiating a Settlement in Northern Ireland From Sunningdale to St Andrews uses original material from witness seminars elite interviews and archive documents to explore the shape taken by the Irish peace process and in particular to analyse the manner in which successful stages of this were negotiated Northern Ireland s Good Friday Agreement of 1998 marked the end a 30 year conflict that had witnessed more than 3 000 deaths thousands of injuries catastrophic societal damage and large scale economic dislocation This book traces the roots of the Agreement over the decades stretching back to the Sunningdale conference of 1973 and extending up to at least the St Andrews Agreement of 2006 It describes the changing relationship between parties to the conflict nationalist and unionist groups within Northern Ireland and the Irish and British governments and identifies three dimensions of significant change new ways of implementing the concept of sovereignty growing acceptance of power sharing and the steady emergence of substantial equality in the socio economic cultural and political domains As well as placing this in the context of an extensive social science literature the book innovates by looking at the manner in which those most closely involved understood the process in which they were engaged The authors reproduce testimonies from witness seminars and interviews involving central actors including former prime ministers ministers senior officials and political advisors They conclude that the outcome was shaped by a distinctive interaction between the conscious planning of these elites and changing demographic and political realities that themselves were in a symbiotic way consequences of decisions made in earlier years They also note the extent to which this settlement has come under pressure from new notions of sovereignty implicit in the Brexit process **Ethnic Conflict** Neal G. Jesse, Kristen P. Williams, 2010-02-09 As ethnic groups clash the international community faces the challenge of understanding the multiple causes of violence and formulating solutions that will bring about peace Allowing for greater insight Jesse and Williams bridge two sub fields of political science in Ethnic Conflict international relations and comparative politics They systematically apply a levels of analysis framework looking at the individual domestic and international contexts to better explore and understand its complexity Five case study chapters apply the book s framework to disputes around the world and include coverage of Bosnia the Israeli Palestinian conflict Northern Ireland Sri Lanka and Sudan Never losing sight of their analytical framework the authors provide richly detailed case studies that help students understand both the unique and shared causes of each conflict Students will appreciate the book s logical presentation and excellent pedagogical features including detailed maps that show political demographic and cultural data **The Territorial Management of Ethnic Conflict** John Coakley, 2004-08-02 The object of this book is to look at the manner in which states attempt to cope with ethnic

conflict through territorial approaches This revised edition has new chapters covering Northern Ireland South Africa and Yugoslavia

Community Relations and the Troubles in Northern Ireland Joana Etchart,2024-11-19 Community relations policy has been an almost permanent feature in Northern Ireland since 1969 yet it has rarely been considered as an object of study This book provides historical depth to its analysis by documenting the various manifestations of the notion of community relations in public policy during the Troubles period Drawing on a variety of written and oral primary and secondary sources it offers a unique rich perspective on the meaning and intent behind community relations policy at certain critical junctures In addition by examining this period through the lens of one policy the book sheds light on important questions such as who intervened in policy making during the conflict who sought to influence the process and eventually who took the decisions It also considers the varied roles played by community workers This meticulous analysis reveals previously unknown aspects of the evolution of community relations policy and presents a compelling micro history of policy making and governance during the Troubles in Northern Ireland

The Ulster Unionist Party Thomas Hennessey, Máire Braniff, James W. McAuley, Jonathan Tonge, Sophie A. Whiting, 2018-12-13 The Ulster Unionist Party Country Before Party uses unprecedented access to the party that dominated Northern Ireland politics for decades to assess the reasons for its decline and to analyse whether it can recover Having helped produce the Belfast Good Friday Agreement the Ulster Unionist Party UUP struggled to deliver the deal amid unease over aspects of what its leadership negotiated Paramilitary prisoner releases policing changes and power sharing with the republican enemy were all controversial As the UUP leader won a Nobel Peace Prize his party began to lost elections For the UUP leadership acceptance of change was the right thing to do for Northern Ireland a case of putting country before party The decades since the peace agreement have seen the UUP eclipsed by the rival Democratic Unionist Party DUP even though most of what the UUP agreed in 1998 has remained in place This book examines the travails of the UUP in recent times It draws upon the first ever survey of UUP members and a wide range of interviews including with the five most recent leaders of the party to analyse the reasons for its reverses and the capacity to revive The volume assesses why the UUP's still sizeable membership remains loyal and discusses what the UUP and unionism means to those members in terms of loyalty policy national and religious identity views of other parties and what a shared future in Northern Ireland will constitute Amid Brexit and talk of a border poll crises of devolved government rows with republicans and intra unionist tensions how secure and confident does the UUP membership feel about Northern Ireland's future Written by the same expert team that produced an award winning book on the DUP this book is indispensable to understanding parties and political change in divided societies

The Europeanisation of Conflict Resolutions Boyka Stefanova, 2013-07-19 This book is about the EU's role in conflict resolution and reconciliation in Europe Ever since it was implemented as a political project of the post World War II reality in Western Europe European integration has been credited with performing conflict resolution functions It allegedly transformed the long standing adversarial relationship between France and Germany into a strategic partnership Conflict in Western Europe became obsolete The end of the Cold War further reinforced its role as a regional peace project While these

evolutionary dynamics are uncontested the deeper meaning of the process its transformative power is still to be elucidated How does European integration restore peace when its equilibrium is broken and conflict or the legacies of enmity persist This book sets out to do exactly that It explores the peace and conflict resolution role of European integration by testing its somewhat vague albeit well established macro political rationale of a peace project in the practical settings of conflicts The analytical lens of that of Europeanization The central argument of the book is that the evolution of the policy mix resources framing influences and political opportunities through which European integration affects conflicts and processes of conflict resolution demonstrates a historical trend through which the EU has become an indispensable factor of conflict resolution It begins with the pooling together of policy making at the European level for the management of particular sectors early integration in the European Coal and Steel Community through the functioning of core EU policies Northern Ireland to the challenges of enlargement Cyprus and the European perspective for the Western Balkans Kosovo The book will be of value to academics and non expert observers alike with an interest in European integration and peace studies

Recognition, Equality and Democracy Jurgen De Wispelaere, Cillian McBride, Shane O'Neill, 2013-10-18 This volume brings together a range of theoretical responses to issues in Irish politics Its organising ideas recognition equality and democracy set the terms of political debate within both jurisdictions For some there are significant tensions between the grammar of recognition concerned with esteem respect and the symbolic aspects of social life and the logic of equality which is primarily concerned with the distribution of material resources and formal opportunities while for others tensions are produced rather by certain interpretations of these ideas while alternative readings may by contrast serve as the basis for a systematic account of social and political inequality The essays in this collection will explore these interconnections with reference to the politics of Northern Ireland and the Republic The Republic has gone through a period in which its constitution was the focus for a liberal politics aimed at securing personal autonomy while Northern Ireland's political landscape has been shaped by the problem of securing political autonomy and democratic legitimacy While the papers address key questions facing each particular polity the issues themselves have resonances for politics on each side of the border

Religion and Politics in the Nineteenth-Century Kimberly Cowell-Meyers, 2002-06-30 Cowell Meyers examines the continued sectarian conflict on the island of Ireland from a comparative and historical framework Analyzing the process through which sectarian conflict was managed on the continent she identifies the unique evolution of the Irish situation Whereas European Catholics such as those in the new Germany developed an institutional pillar to defend themselves and protect their interests in the modern plural state Irish Catholics developed a radical nationalist movement in the same period at the end of the 19th century As elements of the British political system pushed the Irish Catholic mobilization toward more separatist goals and means they thwarted the process of accommodation seen in other European settings The shape and dynamics of Catholic mobilization in the last three decades of the 19th century set Catholics and Protestants on a path toward the management of sectarian

conflict in Germany and continental Europe and toward the perpetuation of conflict in Ireland Much like conflict resolution literature as well as liberal and pluralist theory mischaracterizes the role of exclusive voluntary associations in the amelioration of conflict Cowell Meyers asserts that voluntary organizations if they are encouraged to do so as they were in continental Europe in the late 19th century can provide the channels through which intense conflicts are managed Although exclusive mobilizations reinforce social cleavages careful handling may make them constructive political formations that allow for the channeling of differences Of particular interest to scholars students and other researchers involved with peace and conflict resolution religion and politics and the history of modern Ireland and Germany *A Critical Approach to Youth Sector Peacebuilding* Andy Hamilton, Mark Hammond, Eliz McArdle, 2025-04-17 Using Northern Ireland as a compelling case study this book offers a critique of peacebuilding approaches with young people in contested societies In the north of Ireland the spectre of murderous violence is increasingly distant for peace agreement generations However legacies stemming from the 30 years of protracted conflict are ever present in young people's segregated lives This book presents four distinctive viewpoints that inform contemporary peacebuilding work with young people revealing divergent purposes and conflicting aspirations Offering a new model to understand peacebuilding the authors urge peacebuilding communities around the globe to embrace an increasingly politicising and participative youth peace praxis *The Church, The Far Right, and The Claim to Christianity* Helen Paynter, 2024-08-30 In recent years far right organisations have invaded mosques across the UK with army issued Bibles declaring their actions a Christian crusade Others have paraded large crosses through Muslim majority areas and invaded migrant hotels harassing residents in their so called crusade Far right appeals to clean up society and restore Christian Britain can be quite attractive to some Christians However what they may fail to appreciate is that this rhetoric may be cynically employed by those whose allegiance and values are quite contrary to Christian ones Despite all this the response from official church sources in the UK has been notably subdued and resources to help churches address hate crimes or racial tensions are scarce This book aims to fill that void Bringing together insights from theologians church practitioners and leading experts this volume examines the church's response to the rise of far right thinking in UK society and explores how it can respond more effectively With a foreword by David Gushee this book offers critical and constructive perspectives for the church to confront these challenges **Ethnic Conflict and International Politics: Explaining Diffusion and Escalation** S. Lobell, P. Mauceri, 2004-01-16 Combining theoretical analyses with case studies this book increases understanding of the internationalization diffusion and escalation of ethnic conflict The essays stand at the nexus of comparative politics and international relations examining the influence on ethnic conflict of the weakening of state institutional structures the role of non state regional and international actors changes in the ethnic balance of power and the degree of economic social and cultural integration within the regional or global system The variety of approaches provides useful analytical tools for students while the diversity of cases from different regions gives the reader a sense of the scope of

such problems **The Management of Peace Processes** J. Darby,R. Mac Ginty,2000-06-06 The Management of Peace Processes is the result of the monitoring of five peace processes Israel Palestine South Africa Basque Country Sri Lanka and Northern Ireland for more than two years The project was conducted by academic partners based in five areas Based on interviews with key players in all five peace processes it identifies those factors which facilitate or block political movement in deeply divided societies It highlights issues of negotiation and constitutional change political violence economics external influences public opinion and symbolism and challenges a number of accepted notions about peace processes **Ireland and the European Union** Brigid Laffan,Jane O'Mahony,2008-10-06 Recent times have witnessed a dramatic turn around in Ireland s fortunes From being a poor and peripheral state it has emerged as a prosperous dynamic and self assured player among the nations of Europe For many the Irish experience provides a model of the potential rewards of European integration But just how far are changes in Irish society the result of EU membership What difference has the EU made to Ireland and for that matter Ireland to the EU This major new study of Irish European relations provides a rich account of Ireland s membership of the EU and the impact of the EU on the institutions policy and economy of Ireland It will be read with benefit by all who want to further understand what Europe means for Ireland and those wanting to learn from Ireland s experience in a comparative context *The Statesman's Yearbook 2014* B. Turner,2017-01-12 Now in its 150th edition The Statesman s Yearbook continues to be the reference work of choice for accurate and reliable information on every country in the world Covering political economic social and cultural aspects the Yearbook is also available online for subscribing institutions www.statesmansyearbook.com
