Early Medieval Spain Roger Collins, 1983 **Early Medieval Spain** Roger Collins, 1995-08-07 The new edition of this authoritative account of the history of Spain in the Early Middle Ages is a substantially revised and corrected version of the original first published in 1983 The text has been thoroughly checked and altered to take account of historical and archaeological research on the subject over the last decade As well as short sections of new text inserted throughout the central chapter on the Arab conquest and its aftermath has been entirely rewritten and enlarged An entirely new bibliographical essay has been added covering the state of scholarship up to 1994 The genealogies and lists of rulers have been corrected to bring them into line with the latest views and a new preface has been written to describe the changes in the directions of research in Spain and beyond in the period since the publication of the first edition **Text and Textuality in Early Medieval Iberia** Graham Barrett, 2023 Text and Textuality in Early Medieval Iberia offers a new approach to the sociocultural history of the northern Iberian Peninsula in the early Middle Ages using the first complete survey of the over 4 000 surviving Latin legal records from the period to explore the workings of literacy and documentation **Narrative, Piety and Polemic in Medieval Spain** Alun Williams, 2024-03-21 This book presents an original perspective on the variety and intensity of biblical narrative and rhetoric in the evolution of history writing in Le n Castile during the twelfth and thirteenth centuries It focuses on six Hispano Latin chronicles two of which make unusually overt and emphatic use of biblical texts Of particular importance is the part played by the influence of exegesis that became integral to scriptural and liturgical influence both in and beyond monastic institutions Alun Williams provides close analysis of the text and comparisons with biblical typology to demonstrate how these historians from the north of Iberia were variously dependent on a growing corpus of patristic and early medieval interpretation to understand and define their world and their sense of place Narrative Piety and Polemic in Medieval Spain sees Williams examine this material as part of a comparative exploration of language and religious allusion showing how the authors used these biblical liturgical elements to convey historical context purpose and interpretation **The Settlement of Disputes in Early Medieval Europe** Wendy Davies, Paul Fouracre, 1992-04-23 This is a collection of original essays on the settlement of disputes in the early middle ages a subject of central importance for social and political history Case material from the evidence of charters is used to reveal the realities of the settlement process in the behaviour and interactions of people instead of the prescriptive and idealised models of law codes and edicts The book is not therefore a technical study of charters evidence The geographical range across Europe is unusually wide which allows comparison across differing societies Frankish material is inevitably prominent but the contributors have sought to integrate Celtic Greek Italian and Spanish material into the mainstream of the subject Above all the book aims to demystify the study of early medieval law and to present a radical reappraisal of established assumptions about law and society **Selected Works of Eliza Haywood, Part I Vol 1** Alex Pettit, Patrick Spedding, Margo Collins, Jerry Beasley, Christine Blouch, Kathryn

King,2024-12-20 This text reprints selected non fictional works by Haywood with particular attention to the journalism criticism and conduct and advice material Here Haywood explicates and defends ideas on gender and culture that she develops obliquely elsewhere *Warfare and Society in the Barbarian West 450-900* Guy Halsall,2008-01-28 Warfare was an integral part of early medieval life This book looks at warfare in a rounded context in the British Isles and Western Europe between the end of the Roman Empire and the break up of the Carolingian Empire **An Historical Geography of Europe** Robin Alan Butlin,Robert A. Dodgshon,1998 An Historical Geography of Europe represents the first multi authored comprehensive study on the subject It provides the reader with an analytical and explanatory account of European historical geography from classical times to the modern period including the vast changes to landscape settlements population and in political and cultural structures and character that have taken place since 1500 The book takes account of the vast volume of relevant research and literature that has been published over the past two or three decades in order to achieve a unique coverage and synthesis of this very broad range of evidence and opinion and has tried to engage with many of the main themes and debates to give a clear indication of changing ideas and interpretations of the subject This book brings together British and European authors from a number of disciplines who have considerable distinction in the various fields of historical geography and related fields including a significant number who have already written on the wider problem of European historical geography It is amply illustrated with maps and diagrams to present many of the issues in a visual form

centuries ruled by barbarian warrior elites Bringing together researchers from the disciplines of theology history and archaeology and providing an extensive bibliography it constitutes a breakthrough in a field largely neglected in historical studies A polemical term coined by the Orthodox Church the side that prevailed in the Trinitarian disputes of the 4th century C E for its opponents in theology as well as in ecclesiastical politics Arianism has often been seen as too complicated to understand outside the group of theological specialists dealing with it and has therefore sometimes been ignored in historical studies The studies here offer an introduction to the subject grounded in the historical context then examine the adoption of Arian Christianity among the Gothic contingents of the Roman army and its subsequent diffusion in the barbarian kingdoms of the late Roman world *Madrid* Luke Stegemann, 2024-08-27 The miraculous story of Madrid how a village became a great world city For centuries Madrid was an insignificant settlement on the central Iberian plateau Under its Muslim rulers the town was fortified and enlarged but even after the Reconquista it remained secondary to nearby Toledo But Madrid's fortunes dramatically shifted in the sixteenth century becoming the centre of a vast global empire Luke Stegemann tells the surprising story of Madrid's flourishing and its outsize influence across the world From Cervantes and Quevedo to Velázquez and Goya Spain's capital has been home to some of Europe's most influential artists and thinkers It formed a vital link between Europe and the Americas and became a cauldron of political dissent not least during the Spanish Civil War when the city was on the frontline in the fight against fascism Stegemann places Madrid and its people in global context showing how the city fast overtaking Barcelona as a centre of international finance and cultural tourism has become a melting pot at the heart of Europe and the wider Hispanic world *Religious Franks* Rob Meens, Dorine van Espelo, Bram van den Hoven van Genderen, Janneke Raaijmakers, Irene van Renswoude, Carine van Rhijn, 2016-04-29 This volume in honour of Mayke De Jong offers twenty five essays focused upon the importance of religion to Frankish politics a discourse to which De Jong herself has contributed greatly in her academic career The prominent and internationally renowned contributors offer fresh perspectives on various themes such as the nature of royal authority the definition of polity unity and dissent ideas of correction and discipline the power of rhetoric and the rhetoric of power and the diverse ways in which power was institutionalised and employed by lay and ecclesiastical authorities As such this volume offers a uniquely comprehensive and valuable contribution to the field of medieval history in particular the study of the Frankish world in the eighth and ninth centuries *Christendom* Peter Heather, 2025-04-22 A colossal book written by a colossus in the field The New York Review of Books A major reinterpretation of the religious superstate that came to define both Europe and Christianity itself by one of our foremost medieval historians In the fourth century AD a new faith grew out of Palestine overwhelming the paganism of Rome and resoundingly defeating a host of other rival belief systems Almost a thousand years later all of Europe was controlled by Christian rulers and the religion ingrained within culture and society exercised a monolithic hold over its population But how did a small sect of isolated and intensely committed congregations become a mass movement centrally

directed from Rome As Peter Heather shows in this illuminating new history there was nothing inevitable about Christendom's rise and eventual dominance From Constantine the Great's pivotal conversion to Christianity to the crisis that followed the collapse of the Roman empire which left the religion teetering on the edge of extinction to the astonishing revolution of the eleventh century and beyond out of which the Papacy emerged as the head of a vast international corporation Heather traces Christendom's chameleonlike capacity for self reinvention as it not only defined a fledgling religion but transformed it into an institution that wielded effective authority across virtually all of the disparate peoples of medieval Europe Authoritative vivid and filled with new insights this is an unparalleled history of early Christianity
