Murray Fife,2016-12-21 Maybe you thought that the only thing that is better than PowerView within Excel is Power BI Online but you are so wrong was wrong The Power BI Desktop application that is available from the Power BI website is much better and everyone needs to use it The Power BI Desktop is a standalone dashboard designing tool that takes all of the great features within Excel like Power Query PowerView and PowerPivot and puts them in one single place to make all of your reporting a synch And after you have finished building your dashboards you can then publish them to the new hosted Power BI portal and create your own custom dashboards and even perform Q A on the data just by typing in the questions that you want answered In this guide we will look at this new tool and how you can use it to quickly analyze all of your Dynamics AX data and also blend in multiple data feeds into one dashboard to view all of the data that you need all in one place *Using PowerPivot in Excel to Analyze Your Business Data* Murray Fife,2015-06-04 Everyone has used Pivot Tables within Excel at one point in time to create simple reports against Dynamics AX and some of you may have also used Power Pivot to create more elaborate dashboards and charts Recently Microsoft extended out the query and reporting capabilities within Excel with the Power BI suite In addition to extending the Power Pivot capabilities they also added three more tools called Power Query Power View Power Map and that means that you have a whole new set of reporting options In this blueprint we will show you how you can use all of the Power BI tools to analyze your Dynamics AX data **Dynamics AX 2012 Blueprints: Building Dynamic Products with the Product Configurator** Murray Fife,2013-12-07 If you want to personalize your

products a little or if you are more of a configure to order operation where every product that you ship out the door is tailored to your customers specifications and needs then you will probably want to take advantage of the Product Configurator that is built into Dynamics AX This feature allows you to create a product with a number of different attributes and rules that will allow Dynamics AX to build a custom BOM every time the product is ordered and also tell you if the product is even possible to make

Self Service Reporting in Dynamics Ax 2012 Using Excel and Power Bi Murray Fife,2015-11-05 Having users perform their own reporting has been a dream on both sides of the organization The IT group don t particularly like creating reports for the users when they could be spending their time on cooler projects and users don t particularly like waiting for IT to create the reports that they need to track the data because it s never quite what they wanted and also takes so long to get because of the first reason that it s usually out of date If only there was a solution Well there is because there are so many tools built into Dynamics AX and also the productivity tools like Excel and Word that the users can easily create their own reports themselves without having to get the IT group involved Everybody wins In this guide we will show you how the users can do just that it s so easy that they may not even realize that they are creating reports

Dynamics Ax 2012 Blueprints Murray Fife,2013-11-14 There are a lot of workflow templates that are delivered with Dynamics AX 2012 but that doesn t mean that those are the only ones that you can use Developing new workflow templates and actions are pretty straight forward and you can easily extend out the system to incorporate other workflow scenarios that have not been added yet In this blueprint we will work through one example and show you how you can develop your own workflow process for product approvals that allow you to submit track and approve the product review process

[Dynamics Ax 2012 Blueprints](#) Murray Fife,2013-11-24 If you are using the production module within Dynamics AX then you are probably wanting to get a better handle on your costs You can easily configure Dynamics AX to calculate costs of BOM s and if you want to get a little more industrious then you can also create cost sheets broken out by your particular cost categories incorporate routing costs and even add surcharges and other indirect costs In this blueprint we will walk through an example that shows how to set up your costing controls within Dynamics AX
