*Early China/Ancient Greece* Steven Shankman, Stephen W. Durrant, 2002-05-17 The first edited volume in Sino Hellenic studies this book compares early Chinese and ancient Greek thought and culture      **Early China/Ancient Greece** Steven Shankman, Stephen W. Durrant, 2012-02-01 This pioneering book compares Chinese and Western thought to offer a bracing and unpredictable cross cultural conversation The work contributes to the emerging field of Sino Hellenic studies which links two great and influential cultures that in fact had virtually no contact during the ancient period The patterns of thought and the cultural productions of early China and ancient Greece represent two significantly different responses to the myriad problems that human beings confront Throughout this volume the comparisons between these cultures evince two critical ideas First that thinking is itself an inherently comparative activity Through making comparisons the familiar becomes strange and the strange somewhat more familiar Second since we think through comparisons we should think them all the way through How valid and productive are the comparisons and contrasts made between particular works and different styles of thought that emerged from two different although contemporaneous cultural contexts      Rulers and Ruled in Ancient Greece, Rome, and China Hans Beck, Griet Vankeerberghen, 2021-02-04 Situated on opposite flanks of Eurasia ancient Mediterranean and Han Chinese societies had a hazy understanding of each other's existence But they had no grounded knowledge about one another nor was there any form of direct interaction In other words their historical trajectories were independent In recent years however many similarities between both cultures have been detected which has energized the field of comparative history The present volume adds to the debate a creative method of juxtaposing historical societies Each contribution covers both ancient China and the Mediterranean in an accessible manner Embarking from the observation that Greek Roman and Han Chinese societies were governed by comparable features the contributors to this volume explain the dynamic interplay between political rulers and the ruled masses in their culture specific manifestation as *demos* Greece *populus* Rome and *min* China      *Ancient Greece and China Compared* G. E. R. Lloyd, Jingyi Jenny Zhao, 2018-01-11 *Ancient Greece and China Compared* is a pioneering methodologically sophisticated set of studies bringing together scholars who all share the conviction that the sustained critical comparison and contrast between ancient societies can bring to light significant aspects of each that would be missed by focusing on just one of them The topics tackled include key issues in philosophy and religion in art and literature in mathematics and the life sciences including gender studies in agriculture city planning and institutions The volume also analyses how to go about the task of comparing including finding viable comparanda and avoiding the trap of interpreting one culture in terms appropriate only to another The book is set to provide a model for future collaborative and interdisciplinary work exploring what is common between ancient civilisations what is distinctive of particular ones and what may help to account for the latter      **Early China/Ancient Greece** Steven Shankman, Stephen W. **Dao Companion to the Philosophy of the Zhuangzi** Kim-chong

Chong, 2022-09-21 This comprehensive collection brings out the rich and deep philosophical resources of the Zhuangzi. It covers textual, linguistic, hermeneutical, ethical, social, political, and philosophical issues, with the latter including epistemological, metaphysical, phenomenological, and cross-cultural Chinese and Western aspects. The volume starts out with the textual history of the Zhuangzi and then examines how language is used in the text. It explores this unique characteristic of the Zhuangzi in terms of its metaphorical forms, its use of humour in deriding and parodying the Confucians, and paradoxically making Confucius the spokesman for Zhuangzi's own point of view. The volume discusses questions such as: Why does Zhuangzi use language in this way and how does it work? Why does he not use straightforward propositional language? Why is language said to be inadequate to capture the dao, and what is the nature of this dao? The volume puts Zhuangzi in the philosophical context of his times and discusses how he relates to other philosophers such as Laozi, Xunzi, and the Logicians.

**How to Do Things with History**

Danielle Allen, Paul Christesen, Paul Millett, 2018-07-30

*How to Do Things with History* is a collection of essays that explores current and future approaches to the study of ancient Greek cultural history. Rather than focus directly on methodology, the essays in this volume demonstrate how some of the most productive and significant methodologies for studying ancient Greece can be employed to illuminate a range of different kinds of subject matter. These essays, which bring together the work of some of the most talented scholars in the field, are based upon papers delivered at a conference held at Cambridge University in September of 2014 in honor of Paul Cartledge's retirement from the post of A. G. Leventis Professor of Ancient Greek Culture. For the better part of four decades, Paul Cartledge has spearheaded intellectual developments in the field of Greek culture in both scholarly and public contexts. His work has combined insightful historical accounts of particular places, periods, and thinkers with a willingness to explore comparative approaches and a keen focus on methodology. Cartledge has throughout his career emphasized the analysis of practice, the study not for instance of the history of thought but of thinking in action and through action. The assembled essays trace the broad horizons charted by Cartledge's work from studies of political thinking to accounts of legal and cultural practices to politically astute approaches to historiography. The contributors to this volume all take the parameters and contours of Cartledge's work, which has profoundly influenced an entire generation of scholars, as starting points for their own historical and historiographical explorations. Those parameters and contours provide a common thread that runs through and connects all of the essays, while also offering sufficient freedom for individual contributors to demonstrate an array of rich and varied approaches to the study of the past.

*Aristotle and Confucius on Rhetoric and Truth* Haixia Lan, 2016-11-10

*Readings of Aristotle's and Confucius' teachings* reveal that both philosophers' rhetorical thinking contain vital similarities which can help us understand cultural differences today. Much has been said about Aristotle's definition of rhetoric as the faculty of observing in any given case the available means of persuasion, but few studies have focused on his depiction of rhetoric as

partly like dialectic and partly like sophistical reasoning Yet this Aristotelian conception of rhetoric sheds light on a similarity with Confucius teaching both Confucius and Aristotle see the human understanding of the truths of things as necessarily having a dimension that is open ended and discursive      The Art of Chinese Philosophy Paul Goldin,2020-04-07 A smart and accessible introduction to the most important works of ancient Chinese philosophy the Analects of Confucius Mozi Mencius Laozi Zhuangzi Sunzi Xunzi and Han Feizi This book provides an unmatched introduction to eight of the most important works of classical Chinese philosophy the Analects of Confucius Mozi Mencius Laozi Zhuangzi Sunzi Xunzi and Han Feizi Combining accessibility with the latest scholarship Paul Goldin one of the world s leading authorities on the history of Chinese philosophy places these works in rich context as he explains the origin and meaning of their compelling ideas Because none of these classics was written in its current form by the author to whom it is attributed the book begins by asking What are we reading and showing that understanding the textual history of the works enriches our appreciation of them A chapter is devoted to each of the eight works and the chapters are organized into three sections Philosophy of Heaven which looks at how the Analects Mozi and Mencius discuss often skeptically Heaven tian as a source of philosophical values Philosophy of the Way which addresses how Laozi Zhuangzi and Sunzi introduce the new concept of the Way dao to transcend the older paradigms and Two Titans at the End of an Age which examines how Xunzi and Han Feizi adapt the best ideas of the earlier thinkers for a coming imperial age In addition the book presents clear and insightful explanations of the protean and frequently misunderstood concept of qi and of a crucial characteristic of Chinese philosophy nondeductive reasoning The result is an invaluable account of an endlessly fascinating and influential philosophical tradition      Ancient Divination and Experience Lindsay Gayle Driediger-Murphy, Esther Eidinow,2019 How did people in the ancient world experience their attempts to communicate with divine powers This volume seeks to re examine divination in ancient Greek Roman Mesopotamian and Chinese cultures and to identify and elucidate previously understudied aspects of ancient divinatory experience and practice      **Adapting** Mercedes Valmisa,2021 This book is the first monograph dedicated to the exploration and rigorous reconstruction of relational action devised by Classical Chinese philosophers who attempted to account for the interdependent and embedded character of human agency what Mercedes Valmisa denominates adapting or adaptive agency yin As opposed to more unilateral approaches to action conceptualized in the Classical Chinese corpus such as forceful and prescriptive agency adapting requires heightened awareness of self and others equanimity flexibility creativity and response Valmisa explores the core conception of adapting both on autochthonous terms and by cross cultural comparison drawing on the European and Analytic philosophical traditions as well as on scholarship from other disciplines opening a brand new topic in Chinese and comparative philosophy      *Ancient Greece and China Compared* G. E. R. Lloyd,Jingyi Jenny Zhao,2018-01-11 *Ancient Greece and China Compared* is a pioneering methodologically sophisticated set of studies bringing together scholars who all share the conviction that the sustained critical comparison and contrast

between ancient societies can bring to light significant aspects of each that would be missed by focusing on just one of them. The topics tackled include key issues in philosophy and religion in art and literature in mathematics and the life sciences including gender studies in agriculture city planning and institutions. The volume also analyses how to go about the task of comparing including finding viable comparanda and avoiding the trap of interpreting one culture in terms appropriate only to another. The book is set to provide a model for future collaborative and interdisciplinary work exploring what is common between ancient civilisations what is distinctive of particular ones and what may help to account for the latter. Routledge Handbook of Chinese Medicine Vivienne Lo, Michael Stanley-Baker, 2022-06-19. The Routledge Handbook of Chinese Medicine is an extensive interdisciplinary guide to the nature of traditional medicine and healing in the Chinese cultural region and its plural epistemologies. Established experts and the next generation of scholars interpret the ways in which Chinese medicine has been understood and portrayed from the beginning of the empire third century BCE to the globalisation of Chinese products and practices in the present day taking in subjects from ancient medical writings to therapeutic movement to talismans for healing and traditional medicines that have inspired global solutions to contemporary epidemics. The volume is divided into seven parts: Longue Durée and Formation of Institutions and Traditions; Sickness and Healing; Food and Sex; Spiritual and Orthodox Religious Practices; The World of Sinographic Medicine; Wider Diasporas; Negotiating Modernity. This handbook therefore introduces the broad range of ideas and techniques that comprise pre-modern medicine in China and the historiographical and ethnographic approaches that have illuminated them. It will prove a useful resource to students and scholars of Chinese studies and the history of medicine and anthropology. It will also be of interest to practitioners, patients and specialists wishing to refresh their knowledge with the latest developments in the field. **Imperial Cults** Rebecca Robinson, 2023. Imperial Cults looks at the role of religious institutions in shaping imperial authority in Ancient China and Rome. By examining the changes made by rulers of each state: Emperor Wu of Han and Octavian Augustus in Rome, it demonstrates that both rulers reshaped their respective religious institutions in order to consolidate both religious and political authority.

**The Chinese Dreamscape, 300 BCE - 800 CE** Robert Ford Campany, 2022-03-07. Dreaming is a near universal human experience but there is no consensus on why we dream or what dreams should be taken to mean. In this book Robert Ford Campany investigates what people in late classical and early medieval China thought of dreams. He maps a common dreamscape: an array of ideas about what dreams are and what responses they should provoke that underlies texts of diverse persuasions and genres over several centuries. These writings include manuals of dream interpretation, scriptural instructions, essays, treatises, poems, recovered manuscripts, histories and anecdotes of successful dream-based predictions. In these many sources we find culturally distinctive answers to questions peoples the world over have asked for millennia: What happens when we dream? Do dreams foretell future events? If

so how might their imagistic code be unlocked to yield predictions Could dreams enable direct communication between the living and the dead or between humans and nonhuman animals The Chinese Dreamscape 300 BCE 800 CE sheds light on how people in a distant age negotiated these mysteries and brings Chinese notions of dreaming into conversation with studies of dreams in other cultures ancient and contemporary Taking stock of how Chinese people wrestled with and celebrated the strangeness of dreams Campany asks us to reflect on how we might reconsider our own notions of dreaming
