cognate literature **Roman Faith and Christian Faith** Teresa Jean Morgan, 2015 This study investigates why faith pistis fides was so important to early Christians that the concept and praxis dominated the writings of the New Testament It argues that such a study must be interdisciplinary locating emerging Christianities in the social practices and mentalities of contemporary Judaism and the early Roman empire This can therefore equally be read as a study of the operation of pistis fides in the world of the early Roman principate taking one small but relatively well attested cult as a case study in how micro societies within that world could treat it distinctively Drawing on recent work in sociology and economics the book traces the varying shapes taken by pistis fides in Greek and Roman human and divine human relationships whom or what is represented as easy or difficult to trust or believe in where pistis fides is deferred and reified in practices such as oaths and proofs how pistis fides is related to fear doubt and scepticism and which foundations of pistis fides are treated as more or less secure The book then traces the evolution of representations of human and divine human pistis in the Septuagint before turning to pistis pisteuein in New Testament writings and their role in the development of early Christologies incorporating a new interpretation of pistis Christou and ecclesiologies It argues for the integration of the study of pistis pisteuein with that of New Testament ethics It explores the interiority of Graeco Roman and early Christian pistis fides Finally it discusses eschatological pistis and the shape of the divine human community in the eschatological kingdom **Pistis and the**

Jerusalem and the Early Jesus Movement Kyu Sam Han, 2002-04-30 This book deals with the place of the source document Q and its compilers within late Second Temple Judaism with special attention to Q's relationship to the Herodian Temple The investigation of this perspective is fraught with problems because the passages that are associated with the Temple in Q do not speak with the same voice raising the question of how to reconcile the seemingly positive view with the rather more hostile views Using a comparative approach Han analyses the essential differences in the two types of positions and concludes that the negative attitude is original while the positive position is due to a later redaction after the First Revolt and the destruction of the Temple
