Stuttering Joseph S. Kalinowski, Tim Saltuklaroglu, 2005-11 This textbook presents a new paradigm for understanding the nature and treatment of stuttering based on recent discoveries in neuroscience The authors illustrate how visible stuttering manifestations are actually a solution to a central problem acting as a compensatory mechanism for a central involuntary block rather than a problem in themselves This book features methods that reduce stuttering by inhibiting this central block through the use of sensory and motor tools notably mirror neurons and shows readers that stuttering is not a condition that

can be effortlessly trained out of the system or eliminated via simple speech retraining

Practitioner's Guide to Evidence-Based Psychotherapy Jane E. Fisher, William O'Donohue, 2006-11-24 This book is to help clinical psychologists clinical social workers psychiatrists and counselors achieve the maximum in service to their clients Designed to bring ready answers from scientific data to real life practice The guide is an accessible authoritative reference for today's clinician There are solid guidelines for what to rule out what works what doesn't work and what can be improved for a wide range of mental health problems It is organized alphabetically for quick reference and distills vast amounts of proven knowledge and strategies into a user friendly hands on reference

Perspectives on Individual Differences Affecting Therapeutic Change in Communication Disorders Amy L. Weiss,2012-12-06 This volume examines the ramifications of individual differences in therapy outcomes for a wide variety of communication disorders In an era where evidence based practice is the clinical profession s watchword each chapter attacks this highly relevant issue from a somewhat different perspective In some areas of communication disorders considering the variance brought by the client into the therapeutic mix has a healthy history whereas in others the notion of how individual client profiles mesh with therapy outcomes has rarely been considered Through the use of research results case study descriptions and speculation

the contributors have creatively woven what we know and what we have yet to substantiate into an interesting collection of summaries useful for therapy programming and designing clinical research

Developmental Relations among Mind, Brain and Education Michel Ferrari, Ljiljana Vuletic, 2010-06-09 Robert S Siegler Robbie Case A Modern Classic About 15 years ago Robbie asked me what I thought of a talk we had just heard I indicated that I hadn't much liked it and noted several serious problems Robbie agreed with all of the criticisms but said that he nonetheless liked the talk because there was one good idea in it that he could use I agreed with him that the idea was a good one but it took me a while to understand the wisdom of his position If there's one useful idea in a talk then hearing it has been worthwhile even if the talk also has numerous deficiencies On that day and on many others talking with Robbie changed my thinking for the better Robbie Case was in many ways a classic developmental psychologist of the old school The depth and breadth of his theory the range of age groups populations and topics that he studied and his efforts to connect theory and application are all reminiscent of the greats of the past Baldwin Dewey Piaget Vygotsky and Bruner
