**Evolution and the New Gnosis** Don Cruse, 2002 Exposing a long hidden logical conflict that has hindered the quest for a deeper understanding in science religion and philosophy The unique ideas in this book shatter what are often unconscious or deeply hidden but nevertheless widely held assumptions Whatever your world view or discipline examine it anew through the window of these 22 hard hitting essays with titles such as Evolution as a Property of Mind Christianity and the Old Gnosis Isaac Newton Harry Potter What is Imagination combined with critical insights and commentaries on the works of Charles Darwin Noam Chomsky Michael Polanyi Arthur Koestler Theodore Roszak Owen Barfield Rudolf Steiner and many others Also investigate the social future as viewed in the light of an ongoing evolution of human consciousness **Gnosis and Hermeticism from Antiquity to Modern Times** R. van den Broek, Wouter J. Hanegraaff, 1998-01-01 This volume introduces what has sometimes been called the third component of western culture It traces the historical development of those religious traditions which have rejected a world view based on the primacy of pure rationality or doctrinal faith emphasizing instead the importance of inner enlightenment or gnosis a revelatory experience which was typically believed to entail an encounter with one's true self as well as with the ground of being God The contributors to this book demonstrate this perspective as fundamental to a variety of interconnected traditions In Antiquity one finds the gnostics and hermetics in the Middle Ages several Christian sects The medieval Cathars can to a certain extent be considered part of the same tradition Starting with the Italian humanist Renaissance hermetic philosophy became of central importance to a new religious synthesis that can be referred to as Western Esotericism The development of this tradition is described from Renaissance hermeticists and practitioners of spiritual alchemy to the emergence of Rosicrucianism and Christian theosophy in the seventeenth century and from post enlightenment aspects of Romanticism and occultism to the present day New Age movement **TechGnosis** Erik Davis, 2015-03-17 TechGnosis is a cult classic of media studies that straddles the line between academic discourse and popular culture it appeals to both those secular and spiritual to fans of cyberpunk and hacker literature and culture as much as new thought adherents and spiritual seekers How does our fascination with technology intersect with the religious imagination In TechGnosis a cult classic now updated and reissued with a new afterword Erik Davis argues that while the realms of the digital and the spiritual may seem worlds apart esoteric and religious impulses have in fact always permeated and sometimes inspired technological communication Davis uncovers startling connections between such seemingly disparate topics as electricity and alchemy online roleplaying games and religious and occult practices virtual reality and gnostic mythology programming languages and Kabbalah The final chapters address the apocalyptic dreams that haunt technology providing vital historical context as well as new ways to think about a future defined by the mutant intermingling of mind and machine nightmare and fantasy Invoking the Beyond: Paul D. Collins, Phillip D. Collins, 2020-11-22 The Gnostic revival of the Enlightenment witnessed the erection of what could be called

the Kantian Rift an epistemological barrier between external reality and the mind of the percipient Arbitrarily proclaimed by German philosopher Immanuel Kant this barrier rendered the world as a terra incognita Suddenly the world out there was deemed imperceptible and unknowable In addition to the outer world the cherished metaphysical certainties of antiquity the soul a transcendent order and God swiftly evaporated The way was paved for a new set of modern mythmakers who would populate the world out there with their own surrogates for the Divine Collectively these surrogates could be referred to as the Beyond because they epistemologically and ontologically overwhelm humanity In recent years the Beyond has been invoked by theoreticians literary figures intelligence circles and deep state operatives who share some variant of a technocratic vision for the world In turn these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a New Man Their hegemony has been legitimized through the invocation of a wrathful earth goddess a technological Singularity a superweapon and extraterrestrial gods All of these are merely masks for the same counterfeit divinity the Beyond

**Metaphysics as Christology** Jonael Schickler, Fraser Watts, 2017-03-02 In Metaphysics as Christology Jonael Schickler presents a major contribution to both philosophy and theology First he examines the key philosophical problems with which Kant and Hegel grappled and finds in the work of Rudolf Steiner the essence of a solution to them he claims that Steiner returned to Hegel's philosophical problems but was

better able to solve them Schickler uses these philosophical debates about knowledge and truth to understand the significance of Christ Building on the work of Hegel Schickler argues that Christ has made possible the developments in human consciousness that restore humanity's relationship to the surrounding world This is a bold and rigorous work that opens up new directions in both philosophy and theology Fraser Watts contributes the Foreword and George Pattison an extensive Preface     New Age Religion and Western Culture Wouter J. Hanegraaff, 2018-09-24 Recent years have seen a spectacular rise of the New Age movement and an ever increasing interest in its beliefs and manifestations This fascinating work presents the first ever comprehensive analysis of New Age Religion and its historical backgrounds thus providing the reader with a means of orientation in the bewildering variety of the movement Making extensive use of primary sources the author thematically analyses New Age beliefs from the perspective of the study of religions While looking at the historical backgrounds of the movement he convincingly argues that its foundations were laid by so called western esoteric traditions during the Renaissance Hanegraaff finally shows how the modern New Age movement emerged from the increasing secularization of those esoteric traditions during the 19th century This ground breaking publication is compulsive reading for all those involved or interested in the New Age movement     **The Pope Speaks** ,2004 Includes recent papal letters addresses and other major Church documents     **The 2012 Story** John Major Jenkins, 2009-10-15 On December 21 2012 the Mesoamerican Long Count calendar a 5 125 year cycle calendar system pioneered by the Maya will come to an end At the same time the earth the sun and the center of the galaxy will come together in an extremely rare cosmic alignment More and more people believe that the world as we know it will experience a transformation in 2012 but few are aware of the complete history or significance of the date John Major Jenkins among the most authoritative voices of the 2012 movement has written a definitive explanation of one of the most thought provoking phenomena of our time Drawing from his own groundbreaking research including his involvement in the modern reconstruction of Mayan 2012 cosmology and more than two decades of extensive study of Mayan culture Jenkins has created the crucial guide to understanding the story of 2012 an essential overview of the history theory cultures and personalities that have brought this extraordinary idea into modern awareness Jenkins provides illuminating answers to some of the most asked questions about 2012 including How did the early Maya devise the calendar that gives us the cycle ending in 2012 and how does it work How did the calendar come to be rediscovered and reconstructed in our era What controversies and intrigues surround the topic and what do scholars and researchers have to say about them How can we cut through all the noise about 2012 and gain true wisdom from the Mayan teachings about this moment     Sin for Salvation Adam Weishaupt, 2013-02-08 Warning this book contains strong adult content The ancient Gnostics proclaimed a message of Sin for Salvation How can sinning save your soul Why is Gnosticism much psychologically healthier than the evil religions of Judaism Christianity and Islam This book by the Pythagorean Illuminati the most ancient secret society in the world shows how humanity took a disastrous wrong turning when it

embraced the doctrines of Abrahamism Find out about the phenomena of the incubus the succubus St Vitus Dance St Anthony s Fire the Flagellants and Witches covens Discover the ancient Greek religion of Orphism Learn about the Greek gods Apollo and Dionysus and the Roman god Janus How do they define the human soul Is the Biblical Jezebel a heroine rather than villain Read about Aleister Crowley and the Hell Fire Club The world of sin is not what you think Sin opens the gateway to paradise and if you are ignorant of sin you will never discover what lies beyond the gates of eternity

**Metagnosis** Danielle Spencer,2020-11-17 Bridging memoir with key concepts in narratology philosophy and history of medicine and disability studies this book identifies and names the phenomenon of metagnosis the experience of learning in adulthood of a longstanding condition It can occur when the condition has remained undetected e g colorblindness and or when the diagnostic categories themselves have shifted e g ADHD More broadly it can occur with unexpected revelations bearing upon selfhood such as surprising genetic test results Though this phenomenon has received relatively scant attention learning of an unknown condition is often a significant and bewildering revelation one that subverts narrative expectations and customary categories How do we understand these revelations In addressing this topic Danielle Spencer approaches narrative medicine as a robust research methodology comprising interdisciplinarity narrative attentiveness and the creation of writerly texts Beginning with Spencer s own experience the book explores the issues raised by metagnosis from communicability to narrative intelligibility to different ways of seeing Next it traces the distinctive metagnostic narrative arc through the stages of recognition subversion and renegotiation discussing this trajectory in light of a range of metagnostic experiences from Blade Runner to real world mid life diagnoses Finally it situates metagnosis in relation to genetic revelations and the broader discourses concerning identity Spencer proposes that better understanding metagnosis will not simply aid those directly affected but will serve as a bellwether for how we will all navigate advancing biomedical and genomic knowledge and how we may fruitfully interrogate the very notion of identity Dictionary of Gnosis and Western Esotericism Wouter J. Hanegraaff,Antoine Faivre,R. van den Broek,Jean-Pierre Brach,2005 This is the first comprehensive reference work to cover the entire domain of Gnosis and Western Esotericism from Late Antiquity to the present It contains critical discussions of all its major authors currents and manifestations from Gnosticism to the New Age Also available soon in unabridged one volume edition
